Certified that I have examined ^{Kaliot} Ramonny Kumbhagar
2nd Gannastab of the Cantonment Talasht
and find him to be suffering from Leprosy of
about 3 years standing

This disease has not yet progressed so far
as to be considered severe, but I am of
opinion that a painful affection of one toe
which is a part of this disease, considered
in conjunction with his age, [59] would
prevent him from performing any active
or out door duties though it would not
interfere with a sedentary occupation, such
as that of writing
