PENSION DEPARTMENT.
PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following papers :—

From ROBERT COLE, Esq., Principal Inspector General, Medical Department, Fort Saint George; to the Honorable A. J. ARBUTHNOT, Chief Secretary to Government, Public Department, Fort Saint George, dated 21st October 1863, No. 225.

I have the honor to forward, for the favorable consideration of Government, the accompanying communication from the Garrison Surgeon and Local Superintendent of Vaccination at Madras, recommending that some pensionary provision

No. 8, dated 28th September 1863.

may be made for Vaccinators Peramallsamy and Narainsamy.

2. I am aware that under existing rules servants of this description are not eligible for pension; nevertheless, as the subject of extending the benefits of the Uncovenanted Service Pension Rules to other classes of individuals is understood to be under the consideration of the Supreme Government, I venture respectfully to recommend that, in place of the usual gratuity equivalent to six months' pay, Government may be pleased as a special case to settle a pension on these old and faithful servants, one of whom has reached the advanced age of 70 years, and whose service extends to a period of nearly half a century.

From Surgeon Major D. MACFARLANE, M. D., Garrison Surgeon, Superintendent of Vaccination, Chintadrepettah Division; to the Deputy Inspector of Hospitals, Presidency Division, dated Madras, 28th September 1863, No. 8.

I have the honor to report that the two First Class Vaccinators named in the margin are men quite unfit for any further service from

1st Class Vaccinator, Peramallsamy, age 70, service 47.
2nd Class do. Narainsamy, age 60, service 36.

age, infirmity, and long service. I would earnestly urge the claims of these old servants of

Government for some provision for their old age. I have two qualified candidates ready to take their place, who have been working in the District under these two Vaccinators, and have directed the men to wait on you.

I would beg strongly to recommend the claims of these men for the favorable consideration of Government.

(Signed) J. McKENNA, M. D.,
Deputy Inspector General of Hospitals.

Order, 4th November 1863, No. 341.

The Principal Inspector General, Medical Department, is requested to state more fully the special grounds on which he would recommend the grant of pensions to the two Vaccinators named in the letter of the Superintendent of Vaccination.

2. Vaccinators are not eligible for pensions under the existing rules, and unless there are special reasons for making an exception in their case, Dr. Cole's present recommendation is opposed to the opinion expressed by him in his report on the Vaccination Department, 21st April 1863, and concurred in by the Government, to the effect that the present staff of Vaccinators were generally undeserving of pension. In any case a reference should have been made to that report when making this recommendation; if old age and long service are sufficient grounds for making special grants of pension, the exclusion of Vaccinators from the benefits of the Pension Rules will be merely nominal.

(True Extract.)

(Signed) W. H. KERR,
Deputy Secretary to Government.

To the Principal Inspector General, Medical Department.

From ROBERT COLE, Esq., Principal Inspector General, Medical Department, Fort Saint George; to the Honorable A. J. ARBUTHNOT, Chief Secretary to Government, Pension Department, Fort Saint George, dated 13th November 1863, No. 256.

Referring to Order of Government as per margin, I have the honor to observe that the special grounds for recommending the two Presidency Vaccinators for pension, are "long continued and good service" in the Department,

who, I stated in the report referred to by Government, "might be advantageously pensioned." I consider their cases to be different to those of the Vaccine establishment employed in the Collectorates, the latter being generally permitted to bring in a relation on retiring, while the Presidency men, being immediately under control of the Medical Department, are not allowed such a privilege.

No. 86.

MEMORANDUM.

With reference to his letters of the 21st October and 13th November 1863, Nos. 225 and 226, the undersigned has the honor to request the Principal Inspector General, Medical Department, to forward to this Department Registers of application for pension in the prescribed form in behalf of Peramallsamy and Narainsamy, Vaccinators, for submission to the Government of India.
