To Colonel C. A. Carr. R. E.
Secretary to Government PWD

The humble Petition of
Muttusamy Naick N. Thistnap
Iyah Mudali and C. Muttiah
Naick late Printers in the
Government Lithographic Press

Sheweth,
1st

That your Petitioners have been
informed that their claims to Pension on the
salaries respectively received by them in the Go-
vernment Lithographic Press, have been ignored
by the Civil Paymaster for want of proper ex-
planation of the circumstances of their enter-
tainment in the above Office.

2nd

That your Petitioners were Mil-
itary Lassars detailed to do duty in the Litho-
graphic Press still drawing pay and allowances
and borne on the Roll as Military men up to
1854. when they were permanently employed as
Printers and drew their salaries in a Civil ca-
pacity, but before accepting the latter appoint-
ments they enquired of the Officer in charge
of their Civil Service would be considered con-
tinuous with their Military, and were assured
that such would be the case.

3rd

3rd

Reference can be made to Mr. Murphy as to the authenticity of the above Statement.

4th

Relying on this assurance and confidently counting that their interests would be secured when they were to be Pensioned, they took up the new appointments, and have served up to 31st March 1863, when they were unfortunately thrown out of employment by the reduction carried out on that date.

5th

That previously to their being permanently employed as Lithographic Printers they performed that duty and attained such degree of efficiency that their services were not only highly appreciated by the several Chief Engineers who have had charge of this Department but attracted the attention of all the Public Officers, who have had their works executed in the Department.

6th

The services of your Petitioners are stated as follows.

7th

P. Muthuswamy Naick entertained as Lascar in the Superintending Engineer's Office 15th July 1826, where he served till the middle of March 1828, at the close of this Month he was transferred to the Lithographic Press, and served as Pressman (drawing Pay as Lascar) until the end of 1833. In the commencement of 1834 he was put to the duties of a Lithographic Printer and

and continued to serve as such still drawing ^{3/4} Pay as Lascar until the 4th September 1854. On the 5th Sept. 1854. he was permanently appointed Printer and drew pay as such in the Lithographic Department, in which capacity he served from that date until the 31st April 1863. when the Situation was abolished. Total period of service which was consecutive 36 years - 8 Months and 15 Days.

8th

N. Kishnappa Mudali entertained as Lascar in the Superintending Engineer's Office in June 1831. where he served till April 1835. In May following he was detailed to do duty at the Government Lithographic Press from which period up to October 1839 he served as Pressman (drawing pay Lascar) from November 1839 to September⁺ 1854. he performed the duties of Printer still drawing the pay of Lascar, from that⁺ time to the 31st April 1863, he was permanently employed as Printer and drew Civil Pay. Total period of service (consecutive) 31 years.

9th

Cuddalore Muttiah Naicken entertained as Lascar on the 1st January 1830. he was transferred to the Govt. Lith. Press to do duty there as Pressman this took place in May 1835 in which capacity he served up to September 1841. from October of the same year till the 4th September 1854. he performed the duties of Printer drawing the Military pay as Lascar. On the 5th September 1854. he was permanently entertained as Printer, in which capacity he served up to 31st April 1863, when his Situation was abolished. Total

Total period of service 32. years and 4 months.

10th Colonel Fisher (then Chief Engineer) was of opinion (when your Petitioners expressed their missgivings as to their obtaining Pension if a transfer was made from a Military to Civil appointments) that your Petitioners service in the Lithographic Press though ostensibly partaking of a Military character only so far as their appointments are concerned, should yet be recognized as bona-fide Civil service and be accordingly assured them that 5 years further service in their appointments would qualify them for Superannuation Pension on these grades And that every precaution would be taken to secure to them such Pensions when they retired.

11th On these grounds your Petitioners most respectfully solicit that their cases may be specially dealt with, and that they may be transferred to the Pension Establishment, and that a Pension equal to the moiety of the Salaries respectively received by them may be granted.

12th In conclusion your Petitioners would beg to mention that they have served long faithfully and continuously under Government and should their prayer be granted, it will be a source of constant happiness to them to reflect that their services have been appreciated and well rewarded.

To

The Chief Secretary to Government
Fort Saint George.

Sir,

I have the honor to submit, for favorable consideration, a Petition from certain Printers of the Government Lithographic Press Establishment, whose Services were dispensed with on the reduction of that Establishment in April 1863.

It will be observed from the Memo of the Controller of Military Finance No. 1198, of the 15th December 1863, to the Civil Paymaster, herewith forwarded, that the Petitioners were borne on the Rolls as Military Lascars for the periods specified in the margin, and as such Service was in excess of 20 Years and in a grade qualifying for Pension, it would seem that the only question as to the validity of the claims now urged by them is, whether their permanent transfer to the Litho: Department as Printers in 1854, and the consequent cessation of their connection with the Military Service, virtually disqualify them for Pension.

The Petitioners allege that at the
time of their transfer, as the only persons then qualified
to fill the places of Lithographic Printers, they were
distinctly informed by Major General (then Col.) Faber,
that their Service in the Military Department would
reckon for Pension in addition to that rendered in the
Civil Department, and that it was on this assurance
that they consented to the transfer; Mr. Dumphy
the Superintendant of the Lithographic Department
fully corroborates these Statements, and looking to the
fact that the Petitioners have rendered good Service
and have been honest and diligent in the discharge
of their duties, it is obviously a great hardship to
ignore the claims which they have fairly established
to the bounty of Government, and I beg to submit
their case for special consideration, and for exemption
from any Rules which may preclude the recognition of
their right to Pension—

In returning the Papers as per
margin, referred to me for report with your docket
of the 11th May 1864, I have the honor to inform you
that Lascars attached to the Superintendent En-
gineers Office, Presidency Division, are entitled to
Pension, under Military Rules, when declared unfit
for further duty. As the 3 Lascars referred to had
completed the prescribed period of service, prior to
their transfer as Printers in the Lithographic Press
attached to the Chief Engineer's Office, their claim
to Pension appears to be admissible.

2. Although the Lascars in question have not rendered their entire service in a grade eligible for Civil Pension, they may be considered worthy of

3. Government in Minutes of Consultation
3rd April 1862, No 1230, have also ruled, that the
Military service of men, who entered the Civil
service of Government prior to July 1860, may be
reckoned towards the Civil Pension, under the
Uncovenanted Service Rules.

4. As the Lascars were discharged from service
on the reduction of the Printing Establishment
of the Lithographic Press, on account of dis-

to grant them Pensions under the Rulings above
