TO

HIS EXCELLENCY SIR WILLIAM DENISON, K. C. B.,
GOVERNOR IN COUNCIL,
FORT SAINT GEORGE.

The humble Petition of C. Rajagopala Charier, *the late Tahsildar of the Talook of Mannargoody in the District of Tanjore.*

Respectfully Sheweth,

That your Excellency's humble Petitioner faithfully and deligently served the Government for a period of twenty-five years and eight months ; but being unable to serve a longer period he applied for pension and retired from service. At the time when the application for pension was made, he believed that if he could show a service of twenty-five years from the commencement of his twenty-second year, he would be taken to have satisfied Para 11 of the new Pension Rules.

Your Petitioner regrets to state and he ascribes it to his own misfortune that the Civil Paymaster declines to accept his service before the age of twenty-three, as service under the above para of the new rules. According to his construction, your unfortunate Petitioner, will for want of a few months service, have to take one-third of his salary, which it need not be said is insufficient to keep his body and soul together instead of one-half as he at first believed. Your Petitioner understands that the Civil Paymaster has solicited the ruling of your Excellency in Council on the construction of the rule. Your Petitioner, though recognising in your Excellency a benevolent guardian of the just interests of public servants, nevertheless feels anxious to submit his arguments, in support of the construction he had put on the rule. The wording of the rule is "that the period of service before the age of twenty-two cannot be counted." It is impossible looking at these words to say, that a man's service during the three hundred and sixty-five days of his twenty-second year ought to be refused ; if so, when may it be said he was of the age of tweny-two ? On the first day of his twenty-third year, he commences his age of twenty-three ; and according to the Civil Paymaster, he cannot be said to be of the age of twenty-two till the expiration of the last day of his twenty-second year. Your Petitioner humbly submits, that in common conversation a man during all the period of his twenty-second year is generally talked of as of the age of twenty-two. Your Excellency in Council will also be pleased to consider, that the object of the rule is to exclude a man's service during his minority, when he has no legal status ; but a man is in law able to contract from the first day of his twenty-second year, and therefore that your Petitioner is entitled to the benefit of his service during his twenty-second year is consistent with that intention.

Your Excellency in Council will also consider that in as much as the Rule as it stands, fairly admits of possibility of different constructions, it would be unjust that your Petitioner, innocent as he is, should be compelled to sacrifice his interest acquired by the faithful service of the best part of his life, for an error of which he cannot in any sense be said to be the author. Some of the Gentlemen to whom he referred the matter before applying for pension put the same construction on the rule as was explained in the previous para so as to leave no doubt in the mind of your Petitioner. If the rule was before the expiration of the age of twenty-two, there could be no chance of two constructions. It will at all events be conceded that the language of the rule is dubious, that it bears out the construction contended for, and that your Petitioner has been innocent : he trusts under these circumstances, that in the deliberations of your Excellency in Council, you will allow these facts to weigh in your mind. Your Excellency's Petitioner therefore prays, that he may be declared entitled to a pension of half the amount of his average salary during the last five years of his service.

For which, as in duty bound.

29th April 1865.

To,

W. M. Cadell Esqre
Collector of Tanjore

Honored Sir,

I humbly beg leave to inform you that on requesting the Civil Paymaster as to the Correct interpretation of Pension rule 11 regarding counting service towards pension, that officer stated that the service before the completion of the 22d i.e. 22^{y}-11^{m}-29^{ds} of an applicants age Cannot be counted in the service reckonning for pension; but as the rule is generally understood to have effect from the Commencement of 22d year. I made my application in Confidence that I have served sufficient time to entitle me for the full pension. But according to the present interpretation of the Civil Paymaster I lose a service of One year exactly and thereby my pension will be reduced to one third instead of one half, and would submit me to a great loss for want of a few months service, though I have actually served more than the requisite period. The wording of the rule is "the period of service before the age of 22". This is Construed to include the 365 days of

No - He was not told so. J.

a

a man's 22d year, - the effect of this interpretation is that a man is not 22 years of age before the complete expiration of the last moment of the last day of the 22 year, but from the first moment of the first day of his 23d year, he has nothing to do with his 22 and he is in the process of completing the 23, then at what time is man to be of the age of 22.? Of course a man is during all the period of his 22 year is of the age of 22. If the wording was before the complete expiration of the age of 22 I could have nothing to say. The object of the rule is that a man shall derive no benefit for his service during the time of his minority. From the 1st day of this 22d year he is a major and has a legal status. The construction I ask your honor to put thus consisting with the object and intention of the framer of the rules. I therefore request that you will be so kind as to submit a reference on this point through the Civil Paymaster & Government and obtain for me the full benefit of the above rule.

I beg to remain

Sir

With advertence to the correspondence× marginally noted, I have the honor to forward the enclosed communication addressed to me by Rajagopalachariyar, late Tahsildar of Munnargudi in this District, in which he submits for definite settlement the question whether the words "before the age of 22" in Section 12 of the revised Uncovenanted Service Pension rules have reference to the commencement or the completion of the 22nd year.

× From Hd. Asst. to the Civil Pay Master 6th February 1865
To the Civil Pay Master 28th Feb/65 No. 215.

2 You will observe that Rajagopalachariar contends and rightly, as it appears to me that the effect of the latter interpretation is in fact to declare that one is not 22 years of age before he has completed his 22nd and entered on his 23rd year and that such interpretation is inconsistent with the general acceptation in which the age of an individual is ordinarily reckoned.

3 As the question is however one which admits of a different interpretation it appears to me desirable that the same should be definitely set at rest. I beg therefore to request that you will be good enough to submit the

the matter for the decision and orders of Government.
