Pension:-

Average of salary for the last
5 years.

Remarks.

22. 1. 16

39. 2. 10

Service in qualifying grades of more than 20 years having been proved, pension equal to one third of the average salary could have been granted under the old rules had application supported by proper medical certificate been made immediately on retirement. The medical certificate was not made until 15th July 1864 more than 18 months after the date of dismissal of applicant. It is therefore held that the man was dismissed solely on account of being worn out even if this objection could be removed pension can be granted only from 22nd March 1865 the date of application since which time the case has been dragging on through many references.

To,

The Secretary to Government
Pension Department

Sir,

With reference to G. O. N^o 149 of the
14th Instant, I have the honor to inform you that
the first document I can find on record is a
Petition to the Secretary to Government P.D. dated
12th October 1863 in which mention is made of
previous petitions to my Predecessor but there is
no trace of these here. This petition was referred
to this Office on 19th November 1863 but, previous
to this, steps appear to have been taken for obtain-
ing all the necessary information as there is a
11th November 1863 letter from my Predecessor forwarding a Form
of Application and calling for a certificate
as to the Petitioner's physical unfitness: this does
not appear to have been furnished until the end
of July 1864 and on the 10th October 1864 my Prede-
cessor forwarded to the Assistant Collector in charge
of P.W. at Juddapah a Form of Superannuation
Pension to be printed.

2. In the beginning of December 1864,
soon after I assumed charge of this Division,
this matter was brought to my notice and
I immediately applied to know when the Printed
Form would be supplied and it was received

Early

early in January 1865. I then found that the information regarding "Identification of Applicant's person" had not been supplied: this was not received until the end of February at which time I was absent on a tour of inspection and the papers had to be sent after me. Further reference had to be made to my Office, as the record was not with me at the time and hence the delay between the end of February and 22nd March 1865 the date of the despatch of the register of applications.
