Hauman

Chinnasamy, at 50, Superiorly

Police Dargah.

Service - 27 years.

May 5th 1886. Has been suffering for some time
part from failing sight, as well as strength.
He must be considerably over 50 years of age
but he does not seem exactly here much.

There is a cloudy opacity of a granular type
in the situation of the lens in each eye. The
pupils are somewhat dilated and sluggish.
The eyeballs are of moderate hardiness. The
arcus senilis is very well marked. A solution
of strychnine dropped into the eye for the purpose
of better examining the nature of the opacity
& for from improving his sight. partly
impaired it for a day or two.

He has been excused from duty and been
kept under observation from the 7th of April
to the 5th of May, and the result of my observation
is that he is incompetent for further efficient
service. I have therefore given him the fol-
lowing certificate.

Chinnasamy, Police Dargah having applied
to me for a certificate in which to present an
application for transfer to the Pensionable
unit, I do hereby certify that I have carefully
examined this individual from the 7th of April
to the 5th of May 1886. and find that he is suffering

Received
25 April 1886

from impaired vision the want of distance
of the textures of the eyes, and from weakened
physical power, the consequence of age,
which incapacitate him for further effective
service, and I do declare to the best of my know-
ledge and belief that these disqualifications
have not been occasioned by intemperance
or any irregular habits -
