Hernia

Arnee Lutehmom Ling Oct 46.

Jemadar of Police

Service 24 years

Was admitted on the sick list on the 7th of April 1866 in consequence of a large reducible inguinal hernia which incapacitated him for his duties. He is a large unyielding man very obese, suffering from shortness of breath and inability to run or even walk fast. These symptoms are probably connected with valvular disease of the heart, both sounds of which are abnormal. He has not been subjected to any treatment beyond reducing the hernia and flogging him with a knout. He has been advised to abstain from all but moderate exercise, and to be attentive to the nature of his diet. As he is manifestly unfit for further effective service I have granted him the following certificate.

Arnee Lutehmom Ling, Jemadar of Police having applied to me for a certificate on which to ground an application for transfer to the Pensioners' Establishment, I do hereby certify that I have carefully examined the above named individual, who has been under my observation from the 7th to the 23rd of April 1866 and find that he is suffering from hernia and general obesity which incapacitate him for further effective service, and I do declare to the best of my knowledge and belief that these disqualifications have not been occasioned by intemperance or any irregular habits.
