Sevana Row At 50 years, Saeildar
of Timmenelly Talug applied to me
about 2 months since suffering from
general debility, imperfect vision,
burning pain in eyeballs, loss of
appetite, he states there is general
loss of power in right hand, and
arm, and want of precision in
his writing. - The feet and ankles
are also aching.

He looks prematurely old and
worn for his age.

Treatment has consisted in
regulating the bowels, and administe-
ring Tonics, he has derived but
little benefit from medicine. I am
of opinion that he is now unfit
for the active performance of his
duties and as his system appears
to be worn out I believe it is not
likely that he will ever again be
able to perform his duties efficiently
I

I have requested Assistant
Surgeon R. Dempster of the 39th
Regiment to see the Jassildar, who
joins with me in the following
Medical Certificate.

Certified that we are of
opinion Jevana Row, Jassildar
at Tinnevely is unfitted for the
active performance of his duties
from old age and physical decay,
and moreover that he is not again
likely to be an efficient servant
of Government.

I have no reason to suppose
the present bad state of this
Jassildar's health, has been
induced by irregular or
intemperate habits.
