Memo.

The Government have by their order 23^d Sept^r 1865 recognized the right of service as a Paper Sorter to count towards Pension - and that, not as a special case, but as of right.

The determination of the Government to admit this service seems to have been based on the explanation afforded; I conclude by W^m Donald, that the duties required of a Paper Sorter necessitate ability to write and read. Paper Sorters are most distinctly set down in the List of Uncovenanted Servants whose service does not entitle to pension
