Sir,

With reference to the order of Government, in the Pension Department, N^o 94, of the 2^d of March, I have the honor to forward the following explanation of the delay in forwarding the application for pension for Taluk Overseer Muniappa Moodelly, from which I trust it will be seen that it was no fault of mine.

2. The Overseer obtained one months sick leave in May 1865, an extension of one month in June, and of four months in July. He applied for a further extension of four months in October, and I then enquired of the Zillah Surgeon at Salem, whether the Overseer was likely ever to be fit for duty

duty again. His answer was so decisive as to his unfitness, that I at once made arrangements for obtaining a pension for him.

3. As this was the first case of the kind I had to do with, I overlooked the order of Government prohibiting the removal of an applicant for pension, from the effective establishment, until his pension had been granted. . . . At the same time I kept in view an order of Government which directs that no public servant should be retained on the effective establishment, after he has been declared, by competent medical authority, unfit for further service.

4. The papers connected with the Overseer's application for pension would have been forwarded by me at once, but the Overseer, either could not, or would not, appear before the Zilla Surgeon to obtain a certificate in the prescribed form; and, to prevent further delay, I forwarded the papers in April with the Zilla Surgeon's letter, in lieu of
