Memorandum for Orders.

The Secretary of State in his despatch dated 26th January 1869, No 47, sanctioned the admission of Militia Officers generally to the benefit of the U. S. Pension rules, on the recommendation of the Government of India. That government subsequently issued a resolution explaining that a militia officer will be held entitled to the benefit of the order of the Secretary of State "only when it can be shown that he was engaged in service of a nature to affect his health prejudicially."

2. The application of these orders to the numerous cases which are now coming in consequent on the recent abolition

abolition of the Madras
Mint, is somewhat diffi-
cult. In one case which
has been submitted, the
Examiner of Claims has held
that a medical certificate
must be submitted to show
that the health of the ap-
plicant "has been affected
by the nature of the service
in which he was engaged."
This ruling is clearly wrong.
The Government of India
does not seem to have in-
tended to rule that the
service in which the arti-
ficers were engaged must
have produced an injurious
effect upon them; but that
artificers engaged in service
which would be likely to
prove injurious to men of
ordinary strength of con-
stitution, should be en-
titled to pension.

3. It is submitted that
the best way of giving effect
to the Orders of the Govern-
ment of India, and of fur-
nishing an easily applied
rule for settling the nu-
merous claims which have
been and will be submitted,
would be to appoint a com-
mittee consisting of the
Spay Master and two in-
dependent medical officers
to be nominated by the
Inspector General, to draw
up a list of the employments
in the late mint, to which
the ruling of the Government
of India would fairly apply.
