ORDER THEREON, 28th April 1870, No. 183.

By a clerical error, the deficiency in Vallur Ghulam Mohadeen, *alias* Sheik Mohaddeen's service was written two years and ten months, instead of two months and ten days, in G. O., 16th February 1870, No. 78, Pension Department.

2. The Government will recommend to the Government of India that the slight deficiency in Ghulam Mohaddeen's service may be overlooked, and sanction given for his admission to compassionate allowance under the orders of the 11th December 1863.

No. 822 of 1870.

FROM,

J. A. C. Boswell Esq.,

Offg COLLECTOR OF THE

Kistna District.

The Under Secretary to Government.
in the Pension Department
Fort Saint George.

SIR,

With reference to the Proceedings of Government
No 78 dated 16th February 1870, disallowing compassionate
allowance to Vallur Gulam Mohaddin, the indi-
-vidual mentioned in this Office Register of application
dated 22nd July 1869, recorded in the said Proceedings,
on the ground that his service is 2 years and 10 days
short of the period necessary to entitle him to
that indulgence, I have the honor to refer
you once more to the said Register, which clearly
shows that only 2 months and 10 days are
wanting to complete 30 years service and not
2 years and 10 days. As Gulam Mohaddin's
service was continuous from 27th July 1832 to 4th May
1862 being 29 years, 9 months and 20 days,
and

and as the whole of this period was verified from
the records, I recommended that the deficit of
70 days may be overlooked. This individual
was thrown out of employment during the
revision of Taluk Establishments.

I therefore request that you will be pleased
to lay again this case before Government
for their favorable consideration and orders.

I have the honor to be,
Sir,
Your Most Obedt Servt,

2. The Govt., referring to the Acting Collector's
recommendation, stated in that order that they
saw no reason to make Ghulam Muhammad
case the subject of a special reference. There
is no precedent for the grant of compassionate
allowance when the applicant's service is less
than the full period, no matter how small
the deficiency.

If he is
