On June 14th Mr Philip Johnson was admitted as an Out Patient at the Black Town Dispensary suffering from Hypertrophy of the Scrotum accompanied with ulceration and a constant serous discharge. He states that the disease has been coming on for the last 5 years. He has been on and off under treatment for the disease without any permanent benefit. He now complains of partial loss of memory and of weakness. The constant free discharge is a source of great annoyance to him and renders it necessary to be frequently changing his garments.

The treatment adopted while attending at the Dispensary consisted of external application of Iodine with support of the part & the internal use of the iodide of potassium and tonic treatment. His general health improved while under observation but there was no change in the size or condition of the Scrotum.
