task attended with some difficulty and danger at night, but during the S. W. Monsoon and the pre=valence of bad weather, the exposure and risk are very great. After a service of 28 years 8 months and 21 days, Khadim Hussain is found unfit for the work just described, and according to the Pension Rules, he is only entitled to a gratuity of Rupees 60; but considering that had he been employed as a peon or in some such grade, he would have been able to continue in his post for the brief period required to complete the service that would entitle him to a pension, it seems hard that he should, after his long and faithful service, be dismissed with a gratuity.

17

3 Under the above circumstances, I beg to recommend, as a special case, that he be granted a compassionate allowance of Rupees 4 per mensem instead of a gratuity, which amount will be debitable to the General Port Fund, as his salary was.

On a reference to the certificates attached to the application for gratuity, I find that the Assistant Commissary of Ordnance certifies that the applicant was paid a certain salary as Lightkeeper while the light was in charge of the Ordnance Department, and prior to its transfer to this Department in 1862, since which date he has been borne in the books of this Department. If the Controller of Military accounts is unable to find the man's name on his records, that is a matter for that official to explain, as the vouchers clearly and indisputably shew that he did duty, and was paid as a Lightkeeper for a certain term of years by the books of the Ordnance Department at Pellicherry.
