Certified that I have carefully
examined S. Narayadoo, son of S. Panpiak
employed in the District Engineer's Office
Cuddalore. His age is, by his own statement
50 years and by appearance about 60 years
I consider S. Narayadoo, to be completely
and permanently incapacitated for further
service of any kind, or in the Department to
which he belongs, in consequence of old age
and infirmity. His incapacity does not
appear to me to have been caused by irregular
or intemperate habits.

I have the honor to forward the accompanying Application for compassionate allowance or Pension together with Service Register Book and Medical Certificate on behalf of S. Narayanao, late Mooshee in my Office and to request you will be good enough to dispose of this case under rule 6. Section 63 of the Civil Pension Code as his Service extends over 30 years in Inferior Service.

2. He bears good testimonials from the several Officers under whom he has served and I endorse the same opinion for the time he was employed under me. Some of the leaves granted him were noted in the above mentioned papers whilst others are not forthcoming from the records I request therefore

the applicant and forwarded for transmission with the application to Government.

II That a revised medical Certificate should be furnished in the form prescribed in Section 57 of the Pension Code, edition of 1st December 1873.

III That explanation should be furnished of the cause of the age of the applicant on the 4th February last as entered in the Medical Certificate not corresponding with that entered in the Service Book and Pension application.

IV That the date, 15th February 1874, of entry in column 10 of the 1st page of the Service Book appears to be incorrect, as from the entry made in the Pension Application the age of the applicant on the 6th February 1874 was 55 years, 1 month and 5 days.

V That more marks on the complexion of

of the applicant should be entered in Column 9 of the Service Book, and against Item 17 of the Pension application in order that his identification may be made certain.
