To

The District Engineer
Chungking

Your letter No 2297 of the 3^d ultimo
In reply, transmitting the papers as per,
1 application for Pension.
1 Register of Service in connection with the Pension claim above.
1 Controller's Report dated, I have the honor to explain as follows.
No 228/29 Sep 74
1st Act. General Mexico No 228 of the 29th September 74 from
the Controller of P. W. Accounts I beg to state
with the entries made in the page "History of
Service" of the Pension application were obtained
from the Extracts of Service Registers (herewith
sent) furnished by the District Engineer,
Presidency and by your Office. As regards
the difference between the dates named, I
beg to state that the appointments of the
Applicant as Dy Accountant of this Range
terminates on the 30th May 1873 and not on
the 3^d June and the date of his appointment
to the clerkship was 1st and not 4th June
1874 as stated, as will be observed on refer-
ence to the List of Establishments.

concord with the Office letter. 14, 153 of the
7th May 1873 Vids the Salary Bill of the Range,
for June 1873 see also page 88 of the printed
annual List of the Establishment of the
Department for the year 1874.

With regard to Clause II, I
beg to inform you that the cause of the omission
of the entry in the page "History of Service"
of the several kinds of leave, which the
applicant had obtained is owing to the absence
in this Office of any record bearing on the
subject and the omission has however now
been supplied in the revised application
(herewith sent) with the particulars given by
the Controller in his Memorandum.

In reference to Clause III I
have to state that the 2nd January/74 was
considered to be the date of the applicants
end of services, as the Medical Certificate
(though dated by the Surgeon Major the 3rd)
was confirmed & countersigned by the
Surgeon General on that date (the 4th) the
Certificate was not countersigned on the
11th as stated but on the 2nd January 1874.

As this Office was not aware of
the Rule 1 section 52 of the Civil Pension
Code (there being no copy in this Office)
the moiety of pay was drawn for the

applicant up to 31st January/74 and moreover
the above Medical Certificate was not received
in this Office from the applicant till the 9th
February/74. The sum so paid. I beg to suggest
may be recovered from the applicant.

Referring to para 2 of the Controller's
Memorandum in acknowledgement I beg to state
that the Medical Certificate alluded to, are
now returned to the Surgeon Major with a
request to furnish a fresh Certificate in the
form prescribed and it will be forwarded
as its receipt from that Office.

The alteration desired in para 3
has been attended to, and the information
called for in para 4 has been supplied in
the Service Register as requested.

The original Testimonial signed by
Col. Atkinson and dated the 6th May/68
vouching the fact of the applicant having
been employed in the Civil Engineer's
Office is herewith forwarded as called for.

I have &c.

Madras No. 1529 of 1874

Certified that I have carefully
Examined P. Gornaraswamy Moodelly Son
of Ponnammallee Vignes Moodelly a Clerk in No 2 or
Mount Range Executive Engineer's Office Chingleput
District. His age is by his own Statement
47 years and by appearance about 50. I
consider P. Gornaraswamy Moodelly to be
completely and permanently incapacitated
for further service of any kind in the Department
to which he belongs in consequence of feebleness
of heart and nervous debility with increasing
impairment of vision. His incapacity does
not appear to me to have been caused by
irregular or intemperate habits.

Summary

A case of weak heart
believed to be due to
depression attended with
debility, palpitation & the
hypertension in exertion -
considered unfit for further
service.

This man has been
under treatment for more
than two months at first as an
out-patient and latterly has
been admitted into hospital
for a month by order of the
Surgeon General.

He suffers from general
debility, palpitation & the
with feeble action of the
organ, impaired vision and
giddiness. His eyes are prominent,
the globes being preternaturally
hard and with a tendency
to Corneal Cornea - large
Arcus Senilis. When he first
came under treatment there
was albumen in the urine
but this disappeared after

a time and has not re-appeared.
However his general health is
no better and in my opinion
he is suffering from fatty
degeneration of the heart,
and will never be fit for
service again. The treatment
in Hospital consisted of
Ferruginous tonics and
diffusible
~~diffusible~~ Stimulants occasionally.
