History of Service for that period are correct.

According to the Registers of this office Mr. Chatelet appears to have acted as Head Clerk and Hammer on Regt from 1st to 6th December 1864 and to have had leave on medical Certificate with forfeiture of half pay from the 17th December 1868 to the 15th April 1869.

It should be stated whether the originals or copies of the testimonials entered in column 8 of Mr. Chatelet's Service Book from 1st October 1859 to 22nd November 1862 are on the District Engineer's records.

Controller of

P.W. Accounts.

Sir,

In returning the papers which accompanied your No. 281 of 6th Instant, in connection with application for gratuity on behalf of Mr. Chatelet, I have the honor to observe that a squintance of the late Supt. Engineer's Office subsequent to August 1865 are not on the records of this office, but they appear to have been forwarded to your office.

2. The entries in the Service Book have however been verified from the Pay abstracts and Service Register of the Supt. Engineer's Office and the omissions noted in pencil. It is observed that the application was, as noted in your memorandum

have no Medical Certificate within
 forfeiture of half pay from 17th Dec-
 cember 1868 to 15th April 1869, and that
 he acted as clerk and examiner first
 from 1st to 6th December 1864 and then
 from 16th March to 8th June 1868.

3. Of the testimonials entered in
 the Service Book, originals of nos 5
 to 10 are in this office, that is, three
 are written by the respective officers
 in the Service Register, and the
 rest are copies entered in that Book.

I have the honor to be

Proceedings of the Madras Government, Public Works Department,
 18th May 1874.

No. 383.

Under date the 18th May 1874, No. 1,328.

Establishment, No. 24.

On the recommendation of the Gov-
 ernment of India, in paragraph 11 of their
 letter No. 635, of 8th May 1872, reviewing

the scheme for a reorganized Public Works Department, as first submitted to them, it
 was determined that the two Superintending Engineers of the first grade should be
 appointed Inspecting Engineers. An addition to that extent was thereby made to the
 number of nineteen District Engineers who were substituted in the new scheme for
 the eight Superintending Engineers of the old system; and this reduced the number
 of senior officers available for Executive duties by thirteen.

2. It has been found, after nearly eighteen months' trial, that the strength of the
 Engineer establishment is insufficient to meet the calls for officers to take charge of
 districts, especially at times when the number of applications for furlough that have to
 be complied with is unusually large. Already the list of Executive Engineers, third
 grade, has been exhausted to provide officers for charge of districts; and His Excellency
 the Governor in Council is at last reluctantly compelled to order that the functions of
 the two senior Superintending Engineers as Inspecting Engineers only shall be held in
 abeyance, and that those officers be instructed to take charge, Colonel Foord of the
 Bellary, and Lieutenant-Colonel Roberts of the Tanjore district. Major Mead will
 then be enabled to avail himself of his furlough; and Captain Edgecome will be made
 available for the Trichinopoly District, so long vacant.

3. But His Excellency the Governor in Council considers it in the highest degree
 desirable that he should have at his disposal the services of officers of standing in the
 department for purposes of occasional inspection; and it has accordingly been decided
 to arrange the twenty districts of the Presidency in five divisions of four districts
 each, one district in each group to be held by a Superintending Engineer, who shall
 be considered available for inspection duties within his group when required.

4. With this view, Major Hasted is selected for promotion to the rank of Superin-
 tending Engineer, third grade, to fill the vacancy caused by Colonel Bean's departure;
 his inspection division consisting of the Ganjam, Vizagapatam, and Godavery districts,
 in addition to his own, the Kistnah district. The second division will consist of
 Bellary, Kurnool, Cuddapah, and Nellore. The third of Chingleput, North Arcot,
 Salem, and South Arcot, with the Presidency and Bangalore. The fourth of Coimba-
 tore, Canara, Malabar, and the Neilgherries. The fifth of Tanjore, Trichinopoly,
 Madura, and Tinnevely.

5. Superintending Engineers will not be at liberty to leave their own districts
 for any purpose whatever, except under the special orders of Government. No perio-
 dical returns will be sent them from other districts; the allotment of repair funds and
 the check of rates will rest with the Chief Engineers. The offices of the Inspecting
 Engineers will be abolished; and those of Superintending Engineers increased as
 follows, viz.:-

1st, 2nd, and 5th Divisions.				RS.
1	Draftsman and Estimator	...	...	60
1	Clerk	...	...	40
Total				100

Proceedings of the Madras Government, Public Works Department,

3rd and 4th Divisions.						Rs.
1	Draftsman and Estimator	...	...	...	...	40
1	Clerk	...	...	...	...	30
Total						70

who will be available to accompany Superintending Engineers on inspections or to be detached by them to the assistance of other District Engineers, when needed; drawing the usual batta while absent from their head-quarters. Heads of offices will endeavour to provide for those unemployed members of Inspecting Engineer's establishments that may apply to them for employment. The Inspecting Engineers' offices may probably best be utilized as Medical Officers' quarters in connection with the adjacent hospital (formerly the Public Works Workshop and Stores). The Consulting Architect will report upon this, and on the provision of a new office for himself.

6. The above arrangements will take effect from the dates on which Colonel Foord and Lieutenant-Colonel Roberts respectively assume their district charges.
