Certified That
 I have carefully examined
 Autkoje Ramiah Sub Engineer
 No. 11 on Ellore Range Dept.
 Public Works Godavari District
 Son of Autkoje Nottiah,
 His age is, by his own statement
 fifty five years, and by
 appearance, about sixty years.
 I consider Autkoje Ramiah
 to be completely and permanently
 incapacitated for further
 service of any kind, in the
 Department to which he
 belongs, in consequence of
 old age and infirmity. His
 incapacity does not appear
 to me to have been caused
 by irregular or intemperate
 habits.

Aukajer Ramiah has been employed under my orders first at the construction of the church and Bul work at Vizagapatnam and since at the Godavery works for 9 years. He has a very decided mechanical talent and has proved himself a most valuable Public servant in every way. He is an excellent builder, but has been employed also in all sorts of works connected therewith works, especially machinery. He constructed an effective oscillating steam engine with boiler before he had seen such a thing. His way hitherto has not been equal to his deserts. I consider him fully entitled to and fit for a much superior charge to his present one of Civil Engineers Maistry Rajahmundry 22nd June 1852. A. I have the honor to inform you that the operations of raising the Coringa Light House 20 feet has been completed. The work was entrusted to Ankojee Ramesh the Muzammat Superintendent of this District and was very cleverly executed by him without his having had any occasion to discontinue the exhibition of the Light for a single night.

The Light is now 83.6' above the level of high water mark and may be seen nearly 15 miles off from the deck of a large ship.

My dear Sir:

My brother wishes to employ
you immediately if you can come
to him. He offers you 250 Rs
a month now and he will consider
what is to be done about your claim
to the Government Pension when
he sees you. If you like I dare
say I could get you some months
leave at first so that you might
have time to consider before you
finally give up the Government
Service.

Colonel Cotton wants to have you
as his native Assistant to accom-
pany himself and help him
in all matters.

I think you would find this a
very suitable situation for you.

Pray let me know as soon
as possible. If you accept this
he would like you to join him at
Kurnool as soon as you can.

W. Stoddard

It would be perhaps superfluous for me to add any thing in his favor after the excellent testimonials he has received from such Officers of Engineers as Colonel L. A. Cotton, Col. Arr. Captain Hutchinson and Col. Rindall.

I have known Rammick for 9 years, and am of opinion that there is not a more useful subordinate in the Executive Department and I consider him fully deserving of promotion to the ^{grade} of Supervisor.

Rammick has now served upwards of 19 years in the Dept. of which he has passed 5 years

3. Ramiah has for some years past had executive charge of a Range with an annual expenditure of 50,000 to 60,000 Rupees increased this year to a Lac, and he is quite capable of managing a larger expenditure than this. He is an excellent workman and builder with remarkable mechanical talent as all his testimonials certify and he has an influence in the Delta which will enable him to render the greatest assistance on the Upper River in procuring increased supplies of labor. He has for some years past been employed in the Upper District of the Godavari Division where there is much forest and is therefore inclined to have a very important qualification. No. 714. Read the following letter from the Superintending Engineer, 1st Division, to the Secretary to Government, Public Works Department, dated Waltair, 17th May 1866, No. 20 :—

1. With reference to the Government Order* on the case of Supervisor Ramiah, I have the honor to report that as I had no reason to suppose that the Supervisor's misconduct amounted to anything worse than neglect of duty as Range Officer, I only suspended him from charge of the Range, not from pay. I beg, therefore, for instructions whether the Supervisor is to forfeit the three-fourths of pay mentioned in the concluding sentence of paragraph 6.

2. With reference to paragraph 7, I would prefer leaving the Rajahmundry Central Jail in the charge of Sub-Engineer Viranna, who has complete command of the best labor and material to be obtained, and who in consequence of his not having to look after numerous petty works, scattered over a Range of six or seven hundred square miles, will be able to give the work more time and attention than could be given to it by an Officer in charge of the whole Range.

3. Supervisor Ramiah would in that case be placed in charge of No. 6 Range, minus the Central Jail, and Sub-Engineer Harris would not be required in the Godavery permanently.

4. As, however, Captain Beatty proposes to take his privilege leave (three months) in a few weeks, I propose to place Mr. Harris in charge of the Central Delta Range, Captain Smalley taking charge of the Vizagapatam Executive Engineer's duties during Captain Beatty's absence; but this would be only a temporary arrangement, unless, as I believe he intends to do, Captain Smalley takes his furlough to England about the time that Captain Beatty will be returning from his privilege leave, in which case Mr. Harris would continue in charge of the Central Delta.

5. If you approve of the above arrangement, I shall be obliged by receiving intimation by telegraph.

No. 715. ORDER THEREON, 31st May 1866, No. 1,717.

ESTABLISHMENT, No. 66.

1. Supervisor Ramiah having been suspended from duty in consequence of certain charges which were preferred against him by one T. Chethumbarum, and the result of the Superintending Engineer's investigations having shown that there was a reprehensible amount of negligence on the part of the Supervisor in his management of the important building operations which were entrusted to his charge, the Government are unable to sanction the disbursement to him of more than one-fourth of his salary for the period during which he was under suspension.

II The circumstances under which the leave marginally noted which the applicant appears to have had according to the entries in the Audit Registers of this Office was omitted to be noted in the History of Service.

Sick leave from 19th to 31st October 1866.
Furlough from 25th June 1873 to 30th April 1874.

III The circumstances under which the word 'nono' has been entered against Item No 2 of page 3 of the application, while Pamiak appears from the Audit Registers to have been under suspension from 1st March to 22nd June 1866 and to have drawn one fourth of pay only for that period.

IV Information should be furnished regarding the nature of the duties performed by the Applicant while employed as Bricklayer masonry from 11th September 1844 to 13th December 1844.

- (1) Whether he was superintending a gang of coolies, or
- (2) whether he was discharging duties which are now done by an overseer such as estimating, supervising &c.

The several leaves which the applicant had and his suspension from employment should be noted in the Service book as required by rule 3 section 69 of the revised Civil Pension Code of December 1873. The cause of termination of Appointment should

noted in Column 11 of last page of the Service book.

The date of applicant's birth by Christian era and not his age should be entered — against Item No 15 of the 1st page of the application. Vide Appendix A of the Pension Code. The particular day of October 1874 on ^{July 27} the application has been prepared should be noted against Item No 18.

The medical certificate declaring the applicant unfit for further service or its copy if the original be not available should be forwarded with a view to enable this Office to ascertain the date from which the applicant was pronounced unfit for further service.

The District and establishment in which the applicant was employed should be noted in Column 1 of the History of the application and in Column 1 of the Service book.

Sir,

With reference to your Memorandum
N. 309 of the 7th April 1875, regarding the
Application for pension on behalf of late
Sub Engineer A. Raniyal, I have the honor
to inform you that the source from which
the entries in the History of Service of Raniyal
were made, was his Service Book, which
was prepared from the copies of the several
orders &c. which the Applicant possessed
and which were embodied in the Service
Book, also from the annual Departmental
lists. The entry "3rd December 1855" as the
date of the Applicant's Appointment as
Maramut Superintendent, @ 100 Rupees

is the date of the Proceedings of the Chief Engineer D. P. W. authorizing the District Engineer to appoint Ramiah, but it cannot be ascertained from the records of this Office, whether pay was drawn for the Applicant as Maraimat Superintendent from the 11th December 1855. The Applicant, however states that he never drew Rupees 23 as salary as Bricklayer Maistry; and as there are no old records in this Office to show this the truth of his statement cannot be verified.

2. The Applicant had sick leave in October 1866 vide Notification which accompanied the late Superintending Engineer's Office Memo No 119 of 27th October 1866, and the Furlough granted him in 1873. The omission to show this was an Oversight.

3. The Applicant was suspended from 1st March to 22nd June 1866. The entry of the word "None" in the 3rd page of the Application is a Mistake.

4. The nature of the duties performed by

by the Applicant, while employed as Bricklayer Maistry, were those of an Overseer, such as Estimating, Drawing &c as will be seen from the Copies of testimonials &c embodied in the Service Book.

5. The General leaves which the Applicant had and his suspension from employment have been entered in the last page of the Service Book.

6. The cause of termination of appointment has also been entered in column 11 of the last page of the Service Book.

7. The date of Applicant's birth by Christian era has been inserted against item No 15 of the 1st page of the application as requested, as also the date of application against item No 18.

8. The District and Establishment in which the Applicant was employed have been stated in the application and in the Service Book.

9. A Medical Certificate declaring the Applicant unfit for further service has
