Certified that I have carefully examined C. Soobraya Pillai son of C. Vurda Pillay Talug Overseer in the Office of District Engineer Presidency - His age is by his own statement 53 years and by appearance about the same - I consider C. Soobraya Pillai to be completely and permanently incapacitated for further service of any kind in the Department to which he belongs in consequence of Hernia, Elephantiasis and old age. His incapacity does not appear to me to have been caused by irregular or intemperate habits.

One application for pension.

With reference to your letter No. 28 P.S. dated 23d July 1875, I have the honor to inform you that the source from which the entries were made in the History of Service of C. Soobroy Pillay is the original documents forwarded with my letter No: 824 dated 19th May 1875 - wherein I have already mentioned that his services cannot be verified as there are no records in this Office connected with the Subject.

2. Nothing is known in this Office regarding the sick leave (from 1st July to 21st August 1867) which he appears to have had as he was then employed in the North Arcot District. He now states that he forgot to mention this in the History

of his Service.

3. The several Districts in which he was employed from 1st July 1846 to 30th November 1855 are Chingleput, South Arcot, Trichinopoly, North Arcot and Cuddapah; but he states that he cannot now exactly remember the period of his service in each District.

4. The date of his birth by the Christian Era is entered as required, this information has been furnished by the applicant.

5. The delay in furnishing the above information is due to the applicant's illness he attended the District Engineer's Office on the 7 September 1875.

6. If required he will attend your Office with a view to affording you such further information as you may require.

The applicant's services from 1st April 1859 to 5th January 1875, have been verified from the Audit Registers available on record in the Office of the Examiner of P.W. Accounts and those from 1st December 1855 to 8th March 1859 from the records of the Controller of Military Accounts. The applicant's services from 1st July 1846 to 30th Novr. 1855 could not be verified from any records but they have been accepted on the applicant's affidavit, the statement of a contemporary servant, and the enclosed original documents, which prove his employment during the above period. The applicant appears from an entry in the Office copy of the Establishment list of the Civil Architect, Presidency, dated 1st April 1859, to have been entertained as Storekeeper on that establishment on the 1st March 1859. The same information is also given in the Superintending Engineer's letter, printed with G.O. No. 1052, dated 6th April 1866, a copy of which is now given by the Controller of Military Accounts in his letter No. 1065, dated 5th August 1875, the applicant was employed as bricklayer maistry in the office of the Commandant of Engineers up to 8th March 1859 when he took leave on forfeiture of full pay. The applicant's services from 1st December 1855 to 8th March 1859 have been classed as qualifying, the Controller of Military Accounts having in his letter first quoted, stated that the services may be reckoned for pension. The duties performed by the applicant during the term of his employment as bricklayer maistry are explained by the District Engineer Presidency in his letter No. 5326, dated 10th March 1876, to have been those of an Overseer.
