Fort St George, 31st May 1872.

From
The Controller of
Public Works Accounts,

To,
The Executive Engineer,
1st Barrier Division,
Dumagudium.

Sir,

Enclosure 1 in original

In returning the enclosure of your letter No 310, dated 17th Instant, I have the honor to state that the services of M. Streenevassooloo as a Goomastah on the temporary Establishment of the Godavery District cannot be verified from the records of this office, as his salary was paid from Estimate, and not on audited abstracts.

2. Streenivasooloo's Services, however, as a member of the permanent Establishment of the Godavery District, can be verified for the period noted in the margin*

*As Gomastah from 1st May 1858, to 30th April 1859 on a salary of Rs. 14 per mensem.—

Do. Do. 1st May 1860 to 9th July 1861, on a Salary of Rs. 15 per mensem.

As Acting writer from 10th July 1861 to 30th March 1862, on a Salary of Rs. 30 per mensem.—

As writer from 1st April 1862 to 11th April 1863 on a Salary of Rs. 30 per mensem.—

3. His services from 1st May 1856 to 30th April 1858, and from 1st May 1859 to 30th April 1860, as a member of the permanent Establishment of the Godavery District cannot be verified, as the Audit Registers of the late Civil Paymaster's office for those periods, do not shew the names of the employés on the Range Establishments, but only their official designations and the rates of Salary drawn.—

Proceedings of the Madras Government, Public Works Department, *20th August* 1875.

No. 338. Read the following letter from Major J. BEATTY, R.E., Acting Superintending Engineer, Godavery District, to Lieutenant-Colonel J. MULLINS, R.E., Officiating Secretary to Government, Public Works Department, dated Dowlaishweram, 29th July 1875, No. 1,325:—

I HAVE now the honor to report on works, establishments, &c., in the Dumagudiem Range with reference to G. Os., Nos. 1,641 and 1,858, dated 10th June and 2nd July 1875, respectively. I was at Dumagudiem from the 14th to 19th instant, and on my way down the river, returning, I inspected buildings at Bhadrachellam and Kanaveram.

3 Statements of Expenditure on Works.
1 Statement of Establishments.

2. The Dumagudiem anicut and canal, with its scouring sluices and locks and the flood embankments, appeared to be in excellent order, and, if no special damage is done by extraordinary floods, the expenditure on repairs during the remainder of the year will probably be trifling. I send herewith statements showing the expenditure of the last two years, and the probable expenditure of the present year. Some special repairs may possibly be needed to the shutters of the scouring sluices and to the sills of the tail locks, but this will be uncertain until they can be inspected after the freshes of this season, and the cost in any case will not, I think, be great.

3. The principal new work in prospect in that range is a first-class canal to Nillipaka, suitable for the river steamers; *or* a boat-canal to Bhadrachellam of the 1st or even 2nd class, such as we have in the deltas. Either of these works would do much to render the heavy outlay already incurred more profitable. The canal for steamers would of course be the most complete and efficient work, and would enable steamers to run upon the river for a larger portion of the year, but its great expense will probably hinder its being undertaken at present. The boat canal would enable the ordinary river boats of the largest size to navigate the river during ten to eleven months of the year, and would be of great service to the timber trade. I have requested the Executive Engineer to collect information and prepare approximate estimates for these works as early as practicable.

4. A road of some sort is much needed from Wodagudem to Dumagudiem, *viâ* Bhadrachellam, to connect the principal villages in the Bhadrachellam and Rakapilly Taluqs. At present communication is almost entirely cut off during the rains owing to patches of jungle and difficult nullahs, while the pieces of ground not occupied by rocks, jungle, and nullahs is under cultivation. A road of the simplest kind, merely earthworks and temporary timber bridges, with a little gravel over the worst pieces of black cotton soil, would be of great benefit to the people.

5. All the public buildings in those taluqs now, with one exception, have walls of mud or wattle and daub, and thatched roofs. The one exception is the Post-office at Bhadrachellam, which has walls of stone in mud and a roof of pantiles on hurdles. These buildings will have to be replaced by more durable and commodious structures.

6. Irrigation works are not likely to be undertaken in Bhadrachellam and Rakapilly as nearly the whole of the land is proprietary.

7. There is an immense collection of records in the office and store-rooms at Dumagudiem, stowed away on shelves and in almirahs, desks, and boxes. No destruction of useless documents seems ever to have taken place since the Upper Godavery

works commenced, so that besides the Superintending Engineer's office records, there appears to be now collected at Dumagudiem the whole of the range and sub-divisional accounts and correspondence, both of the first and second barriers as well as outlying works. I have requested the Executive Engineer to have these carefully sorted with a view to burning all that is quite useless. I propose to preserve only the Superintending Engineer's correspondence, all plans and estimates, and the principal accounts, such as progress reports, and to have these arranged and registered for easy reference.

8. In the storeyard and storesheds there is machinery, tools and plant standing in the books at a valuation of about 2½* lakhs of Rupees; besides several thousand Rupees worth of materials, the value of which has been written off to works, and much worn out plant, long since condemned as useless. It is very advisable that this plant should be reduced in quantity as soon as possible, by sale and by transfer to other ranges and districts, because it is now lying useless and deteriorating, and in order that the store establishments now maintained may be reduced as much as practicable. I have requested the Executive Engineer to furnish three statements,† one showing such materials and useless articles as should be sold on the spot, due notice being given to merchants on the river and in the Lower Godavery District; a second showing such articles as may be transferred to other ranges and districts; and a third those that should be retained for use on canal or other works in the range. Three lists of all the stores and plant taken over with the range have already been furnished to the Controller; one of these shows all machinery, &c., standing in the books at a valuation; another all serviceable articles, the value of which had been written off in the accounts of works; and the third, machinery and mathematical instruments.

9. One of the storekeepers shown in the list of establishment is in charge of a storeyard at Dowlaishweram, about 300 yards from the Government Workshop. He has also now charge of the goods shed at Rajahmundry and the loading and unloading of the steamer's barges there under G. O., No. 1,212, of 30th April 1875. I propose that the Upper Godavery store at Dowlaishweram should be abolished as soon as possible by the transfer of the stores to other ranges and the sale of useless articles, and that when the steamer stops running at the close of the present season, the appointment of Upper Godavery storekeeper at Dowlaishweram should also be abolished. Nageswaraswami, the present storekeeper, may be given a trial in the first delta superintendentship falling vacant. When the stores at Dumagudiem have been reduced as much as is advisable, the pay of the storekeeper there may also be reduced to Rupees 30. Part of the plant under the care of Nageswaraswami at present is the hull of the old steamer *Trevelyan*, long since condemned. This I propose should be made over to No. 1 Range, to be converted into a couple of stone boats for use on the anicut; otherwise it is only fit to be sold as old iron.

10. The office establishment of the Dumagudiem Range is also manifestly excessive for the work to be done, and, after careful consideration with the Executive Engineer, I send herewith a tabular statement showing the reductions of office and store establishments I propose. The store establishments cannot, of course, be reduced until the stores not required have been sold or transferred, but I request permission to make the sales, transfers, and reductions as early as practicable.

---

* The exact sum is Rupees 2,68,513.

† These will be forwarded as soon as received.

---

11. As regards the reduction of office and store peons, I have had to allow for the peculiar circumstances of the place which necessitate careful guarding of property, as the territories of the Nizam and the Rajah of Bustar being at no great distance, armed thieves are not uncommon in the neighbourhood; and, secondly, for the great difficulty of replacing trained men of any kind, workmen, writers, accountants, &c. I recommend that the head clerk, Strinivasulu, be pensioned, and that Therumaliah, the second clerk in the office, should receive a gratuity, with the offer of the first deputy accountantship in a range office in the Lower Godavery that falls vacant. Strinivasulu is a good head clerk, but he has served for eighteen years, his eye-sight is failing, and he is willing to take pension. Therumaliah is unfit for the head of an office, but may be useful as a deputy accountant.

12. Cash peons are needed there, both for guarding cash on its way from the Treasury at Bhadrachellam and for watching the cash-chest at Dumagudiem. I have reduced the number as much as can be done with safety.

13. The proposals to which I now request sanction are briefly as follows:—

The abolition of the appointments of head clerk and second clerk in the Dumagudiem office at once, and the reduction of the number of office and cash peons, from seven peons to three lascars and two cash peons. The Upper Godavery storeyard at Dowlaishweram to be abolished as soon as practicable, and with it the appointment of storekeeper there. The machinery and stores at Dumagudiem to be reduced in quantity, and the pay of the storekeeper to be then reduced from Rupees 50 to Rupees 30, and the number of store-peons from four to two.

No. 339. ORDER THEREON, 20th August 1875, No. 2,393.

ESTABLISHMENT, No. 20.

In the letter recorded above the District Engineer, Godavery, reports on the works, establishments, &c., in the Dumagudiem range lately transferred from the Central Provinces.

2. The condition of the navigation works at Dumagudiem appears to be most satisfactory. It is understood that estimates in detail have already been prepared for a 1st-class canal suitable for the river steamers from Dumagudiem to the river below Badrachellam, and the approximate estimate showing the comparative cost of a boat-canal, which is under preparation, will be awaited.

3. The roads proposed to be undertaken in the taluqs recently added to the Godavery District will receive consideration on the submission of the estimates. A selection of those deemed to be of most importance should be made in communication with the Collector.

4. The public buildings in these taluqs are reported to be mere huts; the gradual substitution of suitable buildings on the standard designs must be undertaken, and the District Engineer will put himself in communication with the Collector, and prepare estimates with a view to the works being undertaken when funds are available.

5. The arrangements of records and destruction of useless papers proposed by the District Engineer is approved.

6. Lists showing the tools and plant, instruments, and materials, divided under the heads 'required in the district,' 'available for transfer to other districts,' and 'unserviceable, to be sold,' should be prepared and submitted to the Chief Engineer.

Proceedings of the Madras Government, Public Works Department,
20th August 1875.

---

7. The abolition of the post of storekeeper at Dowlaishweram, and the reduction of the pay of the storekeeper at Dumagudiem, after the stores have been reduced, as proposed by the District Engineer, are approved. The steamer *Trevelyan* may be made over to No. 1 Range, and estimates for its conversion into stone boats submitted to the Chief Engineer for Irrigation.

8. The proposed reduction in establishment is approved. The office establishment to be maintained in future will be a 2nd-class ordinary range establishment, and the present hands will be employed as proposed; application for pension should be made for M. Strinivasulu, and for gratuity for M. Therumaliah.

9. The District Engineer should report as soon as possible the estimated expenditure on establishment during the current year, taking the sanctioned reductions into account.

Sir,

I have the honor to forward herewith, an application (in Triplicate) for pension on behalf of M. Srinivasulu, late Head clerk of the No 6 or Dumagudem Range, together with his Service Book and six original documents marked from A to F and to request you will be good enough to obtain sanction of Government through the Accountant General as soon as possible.

2. The applicant states that he has no recollection from what date he availed himself of the 20 days privilege leave shewn in the 2d page of the Service Book.

3. From the documents sent with this letter, it

B. Revl No 26/7/

No 1876 D.

it will be observed that the applicants services have, with the exception of 5 months and 21 days in the current official year, been verified already, and consequently it is presumed, there will be no difficulty in obtaining the sanction of Government for his pension at an early date.

4. With reference to your letter No. 89 G. D. dated 12th Instant, I have to inform you that the post of the applicant having been abolished, and as it was found impracticable to provide him with a suitable employment, the Government approved of his being pensioned.

I have the honor to be
Sir,
Your Most Obedient Servt.

FROM ~~THE CONTROLLER,~~ Examiner
PUBLIC WORKS ACCOUNTS,

To The Superintending Engineer,
Godavari Division

FORT SAINT GEORGE, 24 Decr ~~April~~ 1875

With reference to the pension application of M. Streenavasulu late Head Clerk of the Dumagudiem Division, and the papers received with the Godavari Division Superintending Engineers letter No. 2256 of the 30th October 1875, the undersigned has the honor to request information on the following points.—

Appt.	Pay	From	To
Gumastah	Rs 14	1st Feby./57	30th Apl./58
do	" 14 & 15	1st May/59	30th Apl./60

1 Whether the Applicant's services for the periods marginally noted have been verified from the District Engineer's Office records. If not the prescribed affidavit of the Applicant should be taken and such collateral evidence as is procurable collected to prove the Applicants continuous employment as his services for those periods cannot as already stated in this office letter No. 1031 dated 31st May 1872, be verified from the Audit Registers.

2 The date up to which the applicants services have been verified from the records of the Examiner's Office P.W.D. Central Province, should be stated and the copy of the Government of India Resolution in the Financial Department No. 2550 dated 6th August 1870 referred to in the 4th page of the Service Book and document D should be furnished for reference

3. A copy should be furnished of the order.

conforming

confirming Streenavassulu in the appointment of Writer on the 9th January 1862. According to the entries in the Audit Registers of this Office Streenavassulu was not confirmed in the appointment until 1st April 1862.

4. In Streenavassulu's Service Register he is stated to have been entertained on the temporary Establishment on the 12th April 1863 but in the marginal reference to the Government of India order allowing the temporary Service to count towards pension the date of entertainment is entered as the 11th April 1863. The correct date should be noted in the Register.

5. The submission of pension application in Triplicate is necessary only in the case of special pension Vide G.O in the P.W.D No 265 dated 24th June 1875. The Duplicate and Triplicate copies of application received with the Superintending Engineer's letter under reply are herewith returned for record in his office.

6. The complexion &ca of the Applicant should be stated against Item 17" of the 1st page of the application with a view to his identification being made certain.

1 Extract from the District Gazette.

Sir,

With reference to your Memorandum No. 137. G.W. dated 24th December/75, relative to the application for pension on behalf of M. Sreenivasulu, late Head Clerk of the Dummagudem Range, I have the honor to furnish you with the required information as follows:-

1st The applicants service for the periods adverted to in your Memorandum has been verified from the Returns, which were submitted to Government copies of which are on Record in this Office, for the half years ending 30th June and 31st December 1859, and 30th June/60.

In

In each of these Returns, the date of appointment was entered as 1st February 1857. It seems to me therefore that no affidavit is necessary.

2nd The applicants Service Book was submitted to the Controller, Central Provinces, for verification before its transmission to you. The former in returning it, stated that+ the applicants service prior to 1st May 1864 could not be verified from which it is to be inferred that his service up to end of March 1875 [up to which period, the Upper Godavery Range was under the Control of the Central Provinces Government] had been verified. The Copy of the Resolution of the Government of India alluded to in your Memorandum together with a Statement marked H. is herewith enclosed.

+ Vide document F already forwarded.

3rd An Extract from the Notification published in the District Gazette, confirming the applicant in the appointment of Writer on Rs 30 from 18th July 1861 is enclosed but it is

is observed from the Service Register of the late District Engineer's Office, that the date of confirmation is entered as the 9th January 1862.

+ 11th April /63. 4th The correct date+ has been noted in the Service Register.

5th The Complexion &ca of the applicant has been more clearly stated against Item No 17 of the 1st page of the application as requested.

I have the honor to be
Sir
Your Most Obedient Servant
J. Beatty. Major R.E.
District Engineer Godavery
