Certified that I have examined Thoymana Pillai son of R. Mathoorayaa ~~Mathuranayagam~~ Pillai, Draughtsman & Estimator in the Department Public Works Madura.

His age by his own statement is 48 years and by appearance the same.

I consider Thoymana Pillai to be completely and permanently incapacitated for further Service of any kind in the Department to which he belongs in Consequence of Consumption and broken down Constitution with heart disease.

His incapacity does not appear to me, to have been caused by irregular or intemperate habits.

Sir,

In reply to your letters Nos. 1656 and 1690 dated respectively 31st Ultimo, and 2nd Instt., I have the honor to state that the period 1st September 1856 to 30th June 1863, entered in Draftsman Thoymana Pillai's service Register, as that of his employment as Draftsman and Estimator in the former District Engrs' office Tinnevelly is correct, but I am unable to say whether Thoymana Pillay has obtained any leave during this period, the old records of the District having been destroyed.

2. With regard to the other entry I have to inform you that Thoymana Pillai was employed in the Tinnevelly Range from 1st September 1865 to end of February 1869, and not up to 31st August 1869, in as much as he drew pay (Rs. 60)

only up to the end of February 1869, in the Tinnevelly Range: and his successor Sheshagherry Row, who was transferred from the Madura Range drew pay from 1st April of that year, in the Tinnevelly Range.

3. I conclude therefore that Thoymana Pillai must have been on leave in March, though I am unable to state this positively for the reasons given above, the Madura Range officer however might be able to do so.

4. The Controller of Public Works Accounts could probably afford the information required, regarding the leave taken by Thoymana Pillay.

The undersigned has the honor to state that the service of Trichinopoly Thoyemana Pillay from 24 November 1855 to 30 April 1856 cannot be verified from the records of this office as in the Annual Return of 1 May 1856 the names of incumbents holding the several appointments were not entered. In the return however referred to above the appointment of Draftsman on 50 Rupees appears without its incumbent's name and not the appointment of Draftsman & Estimator.

The Register of application, Service Book and the Extract from the service book are herewith returned.

FORT SAINT GEORGE, 31st January 1876.

Memorandum

In returning the enclosed papers connected with the pension application submitted on behalf of Trichinopoli Thoyemana Pillay lately employed as Draftsman in the Special Executive Engineer's Office Madura, the undersigned has the honor to request that the District Engineer will be good enough to furnish information on the following points

I The circumstances under which the Applicant's services from 24th November 1855 to 31st August 1856, have been classed in the 2d page of the application as "Period reckoned as service" while from the entries in the Service Register and application it appears that he was acting as Draftsman and Estimator during that period and drew an acting allowance of Rs 17 per mensem. It is observed from the testimonial granted to the applicant by Lieut R. A. Roberts in August 1856 and recorded in the Service

Register, that the applicant apparently obtained a different appointment on the 1st September 1856. The applicant's services for the above period, as well as from 1st Sept/56 to 30th April 1858, cannot be verified either from the records of this Office or from those of the Accountant General. It should be ascertained therefore from the applicant whether any leave was availed of by him during the two periods, and similar information should be given in the Affidavit herewith returned for the purpose.

II. In the copy of Service Register furnished by the Officiating District Engineer Tinnevelli the applicant is shewn to have drawn pay at Rs 35 per mensem from the 1st March 1858, while, in the History of Service and the Applicant's Service Register, he is shewn to have been on receipt of pay @ Rs 35 from 1st May 1858. The cause of difference should be explained.

III. Information should also be furnished regarding the circumstances under which the periods marginally noted have been classed as qualifying, while according to the entries in the Audit Registers of this Office, no pay appears to have been drawn by the applicant during the same periods. Explanation should at the same time be furnished as to why the applicant is shewn in the History of Service to have drawn pay at Rs 40 during July 1863 while for that period his services are shewn in the Statement which accompanied this Office letter No 64 M.D. dated 8th October 1875, to have been verified as Draftsman on Rs 60. According to the Audit Register of this Office the applicant appears to have been on sick leave from 24th August 1869 to 26th September 1869 (and not till the 24th September 1869 as shewn in the History of Service). This period together with the two periods marginally noted, should be classed as non-qualifying in the 2d page of the application, as under Section 41 of the Civil Pension Code time spent on sick leave does not count as service towards pension.

4 days in December 1861
1 — " — " — April 1862

From 16th Augt /73 to 15th Octr /73
19th Octr /73 to 23d April /74

IV. It should be further explained under what circumstances the applicant's date of end of service is entered on the 1st page of the application as the 30th January 1875 and the date of beginning of pension to be the 31st January 1875 while he is shewn in the History of Service to have been on leave without pay up to the 30th June 1875, on which date he was certified by a Medical Officer to be unfit for further service.

2. The date of birth of the applicant by Christian Era and not his

age should be entered against item 16 of the 1st page of the application and the reason of termination in certain cases as pointed out in pencil, should be given in column 11 of pages 3 & 5 of the Service Register.

3. The submission of pension applications in triplicate is necessary only in cases when claims to special pension are made, the enclosed duplicate and triplicate copies are therefore returned for record in the District Engineer's Office.

4. The correct country or house name which precedes the applicant's name should be given. He is shewn in the Service book as M. Thoyemana Pillay, while in the Application his name is entered as Trichinopoli Thoyemana Pillai. The applicant's father's name given in the Medical Certificate differs from that entered in the Application and Service Book. The cause of difference should be explained.

5. It should be stated how the average pay Rs. 38-4-. entered against item 10 of 1st page of the application has been arrived at. The following papers are returned.

Enclosures viz

1. Register of Service.
1. Application for pension
1. Affidavit.
1. Statement shewing how the average pension was calculated.

(Para 1. Clause I)

In acknowledging the receipt of your memorandum No: 109 M. D. under date the 31st Ultimo, I have the honor to submit the following explanations regarding the various points mentioned in the memorandum above quoted.

As the Applicant appears to have been appointed as Acting Draftsman in the first instance on Rs. 17 per mensem and subsequently confirmed in that grade apparently without any break of service, the period referred to was therefore reckoned as service qualifying for pension.

(Para 2)

The applicant states that he did not avail himself of any kind of leave during the periods referred to. His statement to this effect has been obtained in the Affidavit herewith returned.—

A reference has been made (clause II.) to the District Engineer of Tinnevelly on this point his reply will be communicated to you on receipt.—

As the commencement and (clause III) termination of the two periods referred to cannot be ascertained here, it is requested that the necessary corrections may be made in your office in such manner as you may deem proper. As regards your remark about the difference in the Salary of the applicant Thoyemana Pillay states that he only actually drew Rs 40 and not Rs 60 during July/63. He has also mentioned this in the enclosed Affidavit.—

The periods during which the Applicant was absent on sick leave have now been classed as non-qualifying as requested.—

(clause IV) Owing to a clerical error "30th January 1875" was entered for "30th June/75". This has now been rectified. The other information required have been duly noted in the Application and the Service Register.—

para 4. The applicant's country name has been entered in the Service Register so that the same may agree with that given in the Application.—

The medical certificate has been returned to the Zillah Surgeon for correction as regards the Applicant's father's name - this document will be returned on receipt of the same from that officer.—

The average of last 5 years was calculated and entered. As some corrections have now been made on the receipt of your Memorandum under reply I have now put down this amount in pencil for your approval and for such revision as you may deem proper.—

Memorandum

With reference to para 2 of District Engineer's letter No. 4178 dated 11th February 1876, the undersigned has the honor to request information on the following points.

(1) The nature and the cause of the vacancy and the pay of the appointment in which Thoyemana Pillay was acting as Draftsman from 24th November 1855 to 31st August 1856.

(2) Whether Thoyemana Pillay was confirmed in that appointment under rule 2 Sec: 17 of the Civil Pension Code the period of 9 Months and 7 days during which Thoyemana Pillay was employed as acting Draftsman can be reckoned as qualifying service only in the case of the applicant having been confirmed in the same appointment in which he was acting

without break of Service.

2. From the statement of average calculation of pension furnished with the District Engineer's letter under reply it is observed that the periods of sick leave and leave without pay which Thoyemana Pillay has had during the last five years of his service, have been omitted in the calculation. Attention is invited to rules 2 & 3 of sec: 66 of the Civil Pension Code under which the time spent by an applicant on leave without allowances should be taken for the purpose of ascertaining the average pay in the same manner as if he had not been absent on leave. For time spent on leave without allowances an equal period before the five years should be included in the calculation.

Sir,

Referring to your memorandum No. 120 M. D. under date the 10th Instant, I have the honor to state that Draftsman Thoyemana Pillay has informed me that he is now unable to explain the cause of the vacancy, but that he was paid Rs 17 per mensem out of the pay sanctioned for the post of Draftsman in the late Civil Engineer's Office, & was subsequently confirmed in that appointment on the introduction of the District Engineers System in 1856.

2. This statement cannot be verified
