GOVERNMENT OF MADRAS.

PENSION DEPARTMENT.

15th March 1877, No. 143.

Pension.

Read the following papers :—

Proceedings of Government, Public Works Department, dated 14th June 1875, *No.* 1669.
Official Memo. to the Controller of Public Works Accounts, dated 7th July 1875, *No.* 20.
From the Examiner of Public Works Accounts, dated 6th and 7th November 1876, *Nos.* 196*P and* 15.
From the Accountant-General, dated 9th November 1876.

ORDER THEREON, 15th March 1877, No. 143.

The foregoing papers relate to an application for the grant of a compensation pension of Rupees 20 per mensem to Rangampilly Nummiah Naidoo, late Draughtsman and Estimator in the Manargudi Range, Tanjore District.

2. His total service (including non-qualifying service and breaks) extends to twenty-four years, two months and twenty-eight days, of which the period of twenty-one years, one month and four days is actual qualifying service.

3. The Accountant-General reports* that Nummiah Naidoo's service, from 26th November 1850 to 17th September 1855, and from 1st November 1859 to February 1860, cannot be verified "owing to the non-entry in the Godavery Division of his appointments." These periods of service are however supported by the affidavit of Nummiah Naidoo, beside other collateral evidence.

* *Vide* Memorandum dated 13th April 1876, No. 400.

4. A break of about six months and fifteen days in 1860 occurred in Nummiah Naidoo's service, through his absenting himself from office without leave. It appears however that he was re-entertained in the department, and served uninterruptedly from 16th August 1860 to 18th December 1874. During the currency of this service the reorganization of the Range Office Establishment took place in September 1872, in consequence of which Nummiah Naidoo lost his appointment of Head Accountant. The Superintending Engineer proposed meanwhile to employ him in the capacity of Draughtsman, which the Government approved in G.O., 7th October 1872, No. 2342. But failing a vacancy in the Accounts Branch, Nummiah Naidoo's services were finally dispensed with in December 1874.

5. As respects the breaks which occurred in 1860, it is observed that though at the time the explanation of his absence, offered by Nummiah Naidoo, was not considered satisfactory, and his place was filled up, yet he subsequently submitted a Medical certificate. Having regard to the fact that he was re-entertained in the department within a year, and also considering the good character borne by the applicant throughout his long service, the Governor in Council considers that the break in question may be

treated as falling under the provisions of Section 48, Rule I of the above Code, and that Nummiah Naidoo may be allowed to count his foregone service towards pension.

6. It is further clear that Nummiah Naidoo's loss of appointment in December 1874 was primarily due to the reorganization of establishment which took place in September 1872. Up to this date the applicant can count a qualifying service of twenty-one years, one month and four days, (irrespective of the service rendered by him subsequent to this date or up to December 1874.) The Governor in Council is accordingly pleased to grant to Nummiah Naidoo a pension of Rs. (13-5-4) thirteen, Annas five and Pice four per mensem equal to one-third of his average salary for the last five years with effect from the 18th December 1874, subject to the approval of the Government of India.

FORT SAINT GEORGE, 26th May 1875.

Sir

I am forwarding a letter to you address from the Superintending Engineer Tanjore enclosing an application for pension on behalf of M. Sammiah late a Draftsman in No. 5 or Mannargudi Range of the Tanjore District, I have the honor to inform you that as under section 47 of the civil Pension Code a compensation pension is awarded only in those cases in which the party concerned has been thrown out of employment by the abolition of his appointment.

Rule 5 of the same section distinctly points out that the discharge of an Officer to make room for another better

Qualified

proceeded to visit the stables of the applicant, and saw there the remains of the horse they said was Sergeant Hennessy's horse which was then dead of confluent with reference to Government Order of 23rd of the 20th November 1874, in which the Superintending Engineer, Sligo, was enclosed to adopt measures for providing a more efficient Draftsman for £5 charge, he is entitled to the compensation pension which has been applied for.

Some doubt has been taken up in the verification of the applicant's service; and if the applicant had been found eligible to a pension or gratuity it would have been necessary to have returned the application to the Superintending Engineer with a view to an affidavit being taken from Hennessy in support of the entry relating to his services from the 20th of September 1850 to 17th September 1855 and from 11th March 1858 to 15th August 1860, as his services cannot be verified for these

these periods.

Memorandum

In forwarding the enclosed papers connected with the pension application of R. Nammiah Naidu late a Draftsman in the Mannargudy Range, the undersigned has the honor to request that the District Engineer Tanjore will be good enough to forward as early as possible for reference any acquittances which may be on the records of his Office or original documents that may be in possession of the applicant to show his employment in the Government service for the periods marginally noted as his services for those periods cannot be verified from the records of this Office or those of the Accountant General Public Works.

From	To
20 Sept. 50	17 Sept. 55	in the Tanjore District Civil Engineer's Office as Writer and Accountant
18 Sept. 55	15 Sept. 56	in the Tanjore District Civil Engineer's Office as Draftsman

If no vouchers are forthcoming the affidavit of the applicant

applicant should be taken into consideration
and statements of any long service should be produced
to prove his continuous employment without
ment service without break or interruption of
Suspension leave, resignation &c. explained in the
Rule 4 Section 7 Chapter XII of the Civil Service
Code.

2. The Service recorded in the Register of
Services recorded in this Office, of persons for whom
application is obtained should be compared with
the entries to be found in the Register of Services
with those recorded in the Register of Services of
this Office, as will be seen from the accompanying
pay Comparative Statement. The cause of discrepancy
should also be explained under which the applicant
leave without pay that the applicant appears to
have had according to the Records of this
Office in August 1881 is now found to be entered
on the application.

3. The date of appointment should be entered as
one should be entered as shown on the
first page of the application endorsed by the Magistrate
as accordance with Appendix A. Appointment
to the Civil Pension Code Edition of December 1st.

4. The enclosed Service book should be
completed with the Signature of the appli-
cant in column 7 of Pages 2 and 4 and
that of his immediate head of the Office
in column 12 of Page 3 of the same.

5. The Country or House name which
form the initial of the applicant's N.
should be given in full.

Glasgow

Sir

The Accountant

G.P.O. Account

With reference to your letter dated 8th September 1875 I have the honor to inform you that in verifying the Services of Mr. Rowe and Maclow it has been discovered that there is a break in his Service from 1st February 1860 till the 16th August 1860; it would appear that in February 1860 Rowe and Maclow were taken ill and absented themselves from the Office in which he was employed without leave and subsequently by transmitted a Medical Certificate dated 31st [illegible] at the time was not considered satisfactory and

his

his Office was finally rejected against Records, carried to the Department and Served accordingly from the 16th August 1860 to 18th December 1874 the latter being the date on which he was relieved under G.O. No. 3283 dated 20th November 1874.

2 The Grant in Recognition of Valuable Service in 1860 under the provisions under which he now seeks reckoning the Service previous to the 16th August 1860 and reduces his Service to 14 Years 4 Months & 3 days and his Length of Service does not render him eligible for Pension - His Case however appears to me to be one specially deserving - As you state in para 2 of your No 948 of 26th May 1876 Pensioned Mutlow were known out of Mauritius with reference to G.O. No. 3283 of 20th December 1874 under which he was specially recommended for Gratuity not Pension and cannot be entitled

Your Secy Dispatch Letter Financial No 2342 of 9th October 1876

in mind that Memorials should be addressed through the proper Department in Mauritius the Superintendent was practically abolished and there was no opportunity subsequently of transferring him to the Secretariat Branch to which he properly belonged, hence it should, it appears to me, be considered that his appointment was abolished in 1872 and his Subsequent removal from the Department should be regarded merely as a Contingency resulting from the abolition of his appointment and so he should be deemed eligible for a Compensation pension

3 The Government in G.O No 1869 dated 14th December 1876 appears to accept this view of the matter but suggest that his Service should therefore be reckoned up to the date of Reorganization; it is not clear why his Service should not be reckoned up to

the

Wynaad Perennial
Planting
Districts
in the Salem

APPENDIX.

Extract from a letter from the Superintending Engineer, 7th Division, dated 24th November 1866, *No.* 184.

3. In Malabar I am convinced that the attaching, to each of the Wynaad Planting Districts for Public Works purposes, of the taluq immediately between it and the sea will be an excellent permanent arrangement for the future. Each Range so constituted will then comprise within it the entire Range of through communication, the completion of which will be its chief work, towards which it will be convenient to have the sources of supply of much labour and materials in the same hands. Two-thirds of the office establishment may be permanently kept in the coast taluq and a saving of their Wynaad allowances effected, and the Range Officer's travelling allowance while in the low country will be similarly reduced (except in South Wynaad while east of Neelumboor.) If absent from Wynaad for a longer interval than that between two Sundays, it would be fair also to reduce the Wynaad allowance on his salary for such extra period, but not otherwise.

Distribution of Range Establishments excluding the Presidency.

No. 40 ORDER THEREON, 1st July 1872, No. 1,586.

ESTABLISHMENT, No. 1.

1st September 1871, No. 2,220.

IN their Order marginally noted Government called upon the Superintending Engineers to submit proposals for such re-arrangement of the boundaries of existing Public Works Ranges as would confine each within the limits of a single Local Fund Circle; and also, where practicable, for a reduction of the number of Ranges in their divisions.

2. The reports of the several officers concerned are referred to at the head of these Proceedings. The conclusions drawn from them, modified by other considerations, are recorded below:—

Ganjam.—The boundaries of the Chicacole Circle and Range of the same name coinciding, the latter will remain unchanged. But there appears to Government no sufficient reason why the Russelcondah Range should not be absorbed in the Berhampore Range, both being in the Chetterpore Circle, and their aggregate size not equalling that of many existing Ranges. With a first-class Range Office and a Supervisor attached to the sub-division there ought to be no difficulty in working the new Range.

Vizagapatam.—The present Golcondah Range must be enlarged to correspond with the Narsapatam Circle, which will be neither difficult nor inconvenient to effect, a small tract of Zemindary only being concerned. The remainder of the Vizagapatam Range will then be amalgamated with the present Vizianagram Range, forming a Range coincident with the circle of that name.

Godavery.—The only difficulty connected with the arrangement of the Ranges of this district so as to coincide with the present arrangement of circles lies in the connexion of Nagaram, an essentially integral portion of the Central Delta Range, which is in the Eastern Circle, with the Narsapore Taluq, which lies in the Western or Narsapore Circle. It is believed, however, that the difficulty can be removed by a financial arrangement, which will be made in the Financial Department. It is thought advisable to revive the Central Delta as an independent Range, the Eastern Delta Range proper, including the frontier taluq of Toone, being quite as large as is manageable. The dry Ranges on either side of the river will consist respectively of the Rajahmundry and Peddapur and the Yernagudem and Ellore Taluqs, and the Western Delta Range will remain as it is.

Kistna.—The only change to be made in this district is the partition of the Guntoor Range between the two adjoining ones, the Guntoor Taluq being absorbed in the Western Delta Range, and the Suttenapalli Taluq in the Palnad Range. The circles have already been altered so as to coincide with the arrangement of Ranges.

Nellore.—This district forms but one Local Fund Circle. Hence the only change to be made consists in throwing the Eastern, Western, and Southern Ranges into two Ranges only, Central and Southern. This, it has been ascertained, can be done by adding the Kavali Taluq to the Western Range to form a new Central Range, and the northern portion of the Nellore Taluq to the Southern Range.

Bellary.—The partition of the present Anantapore Range between the Ghooty and Pennacondah Ranges, by making over the Anantapore Taluq to the former, and the Dhurmaveram Taluq to the latter, is all that is wanted to make the Range and circle boundaries coincide. But besides this the Government are of opinion that the Bellary Range Officer can take charge of the Raidroog Range as well, in the centre of which he is situated, due provision being made for an Assistant to represent him at head-quarters when absent in the Range and for a subordinate to help him with work beyond Cantonment limits.

Kurnool.—The district is in one Local Fund Circle and the Ranges are large. No change is considered necessary beyond improving the status of two of the Range Offices.

Cuddapah.—The changes here proposed consist in adding the Royachoty Taluq to the Madanapilly Range to make it coincide with the circle of the same name, and in forming two new Ranges out of the taluqs composed in the Cuddapah Circle, viz., Cuddapah Range comprising the Pullumpett, Cuddapah, Pulivendla, and Jummulmuddagoo Taluqs, between which the Railway renders communication easy, and Budwail Range comprising the Poddatoor, Budwail, and Sidhout Taluqs, for which Budwail is a central and convenient head-quarter station. Corresponding alterations of Range Offices will be made.

Chingleput.—The arrangements already sanctioned by Government in a separate Order consist in throwing the Sydapet Taluq into the Mount Range, and the Chingleput, Madrantikum, and Conjeveram Taluqs into one Range with Chingleput for head-quarters.

North Arcot.—The Wallajahpett and Chendragherry Ranges being connected by rail can be worked as one Range; otherwise no alterations seem to be called for.

South Arcot.—The arrangements required to bring the Ranges of this district into agreement with Local Fund Circles, and already approved by Government in a separate Order, consist in annexing the Kallacoorchi Taluq to the Virdachellum Range and the Trikalore Taluq to the Cuddalore Range.

Tanjore.—The only alteration that can be made of the distribution of Ranges of this district, consistently with existing circles, is that of amalgamating the Sheally and Nannilam Ranges, giving the new Range a first class office as well as the Tanjore and Combaconum Ranges, which require such strengthening.

Trichinopoly.—The Government approve the Superintending Engineer's proposal to work the four Ranges of this district as two Ranges, the Trichinopoly and Wodiarpolliam Ranges forming one, and the Kulitallay and Musery Ranges another, with increased strength of offices to correspond.

Madura.—The proposal of the Superintending Engineer to work this district in two Ranges coincident with the Local Fund Circles is approved, the Paumben Range forming a sub-division of the Madura Range with its special office as at present.

Tanjore.—The existing Ranges of this district, constituted so lately as 16th March 1871, must remain unchanged. Whatever alteration is requisite to make the boundaries of Ranges and circles coincide will have to be considered in the Financial Department.

Trichinopoly.—The new Collegal Range, entirely above ghaut, and the new Irrigation Range comprising the Perindorai Taluq, proposed by the Superintending Engineer and both within the Northern Circle, are understood to be already at work on a previous sanction of Government, and the other Ranges are not capable of alteration and are found to work well in practice. The only change required to bring them into correspondence with the Southern Circle is the transfer of Coimbatore Taluq to that circle, which will be considered in the Financial Department.

Salem.—The Ranges in this district, three in number, are distributed without division between the two Local Fund Circles. The former are already large, especially that of Salem, and no reduction in the number or change of boundaries is necessary.

Nellore.—The whole district is common to one Range and one Local Fund Circle, and will remain as at present. The Superintending Engineer's proposition to increase the Range establishment by an Overseer cannot be entertained.

Malabar and Wynaad.—The present appears to be a fit opportunity for introducing the arrangements approved by Government in their Order No. 3,918 of 13th December 1866, but suspended by the necessity for temporarily placing the Wynaad under an Executive Officer working independently of the Superintending Engineer, 7th Division, and for constructing the West Coast Canal Range proposed in the Chief Engineer's Memorandum printed with G. O., No. 1,449, of 11th June 1872. Major Kennedy has by this time fully and most ably accomplished the objects the Government had in view in his appointment, in the face of very great difficulties, and has placed the Public Works of Wynaad on such a footing that they need no longer be exceptionally managed, and the arrangement sanctioned nearly six years before the date on which they will be carried into execution, besides the advantages pointed out in the third paragraph of the Superintending Engineer's letter of 12th November 1866 (which is re-printed as an Appendix), precisely meets the object in view of making the Range and circle boundaries of the district coincide.

The future Ranges will accordingly be—

Ranges.	*Taluqs.*
Cannanore	Cherikal. Cantonment. Cottayam.
Cooroombanad	North Wynaad. Cooroombanad.
Calicut	Calicut. South Wynaad.
Ernad	Ernad. South-East Wynaad.
Palghaut as at present, excluding West Coast Canal.	Cochin and West Coast Canal.

South Canara.—By extending the Poottoor Range, so that it shall include the whole of the Oopinangady Taluq and not that portion south of the Nitrawatty

only, it will be quite feasible for the Mangalore Range Officer to take up the Coondapoor Range also as originally proposed by the Superintending Engineer, strengthened, as he will be, by the presence of a District Engineer at Mangalore, and keeping a Supervisor in sub-divisional charge at Coondapoor.

3. The Controller and Chief Engineer will draw up a scale of revised Range Offices to accompany this Order; and the former will arrange with Superintending Engineers and Range Officers as to the details of the alterations of accounts and the dates on which the new arrangements will be substituted for the old, which may be on the 1st of any month previous to 1st October 1872, when the re-organization of the Department will be fully carried out.

JULY
Nos. 13-40
Orders on proposals for rearrangement of Public Works Ranges.

No. 191. Read the following letter from the Officiating Controller of Public Works Accounts, to the Chief Engineer and Secretary to Government, Public Works Department, dated Fort St. George, 16th July 1872, No. 851 :—

2 Statements (A and B).

ADVERTING to paragraph 3 of the Proceedings of Government, No. 1,586, dated 1st July 1872, I have the honour to submit a Statement (A) of the details of the Office Establishments for the several ranges of this Presidency.

2. Mr. Brock has intimated to me that the scales of establishment shown in the appendix to the G. O. above quoted were decided upon with reference to the details now rendered.

3. I have also the honour to enclose a second statement (B) distributing between the several ranges the sixty-three establishments which are to be allowed under the proposed reorganization. This distribution has been made in accordance with what appears to be the intentions of Government.

4. I cannot however submit a statement of this description without stating my belief that it would tend greatly to the greater efficiency of the accountants of this Presidency if they were placed on one list, divided into grades for the purposes of promotion and transfer; vacancies being filled by deserving members of the lower grades, instead of chance men being appointed accountants of range offices as at present, I believe, often happens. Half-yearly promotion rolls, as in the case of upper subordinates, would bring deserving men to notice for appointment to any posts that might require to be filled. During my experience in Mysore I have found it to be of immense advantage having the accountants of the whole province under my control, though, of course, they are under the immediate orders of the Executive Engineers to whose offices they are attached. In no one case has it been found that the divided authority clashed, as the accountants have never been interfered with except in necessary cases of transfer, orders being invariably conveyed to them through their Executive Engineers. The benefit has resulted from my being able to transfer a good man where he was really wanted, and my being able to utilize second and third-class men in offices that had already been got into thoroughly good order. Another advantage I have found has been that I have been able to give accountants some training in the Controller's Office before sending them to do duty in the Executive Engineers' Ranges. For this latter purpose it would be necessary in this Presidency to have a few spare hands on low pay in the Controller's Office.

AUGUST

Nos. 191-192

Range Accountants and Establishments.—Letter from the Controller submitting statements of Range Accountants and establishments, communicated to the Superintending Engineers with remarks.

Proceedings of the Madras Government, Public Works Department, 7th October 1872.

Read the following letters:—

No. 79. From the Officiating Superintending Engineer, 6th Division, to the Secretary to Government, Public Works Department, dated Tanjore, 5th September 1872, No. 423.

I HAVE the honour to report that, in accordance with instructions conveyed in G. O., No. 1,586, dated 1st July 1872, I have, after communicating with the Controller of Public Works Accounts, made the necessary alterations in the ranges of this division from the 1st instant, and have distributed the office establishments according to the distribution list prepared by the Controller.

G. O., No. 1,908, dated 12th August 1872.

2. In carrying out these arrangements, I am able to employ all the clerks at present in the range offices, with the exception of five; although to avoid throwing out men of some standing, I have been compelled to place four accountants and assistant accountants, in the position of draughtsmen, until further vacancies occur. In the establishment of the proposed District Engineer's Office at Trichinopoly, I hope to be able to provide for some of these men.

3. I am informed by the Controller that it is contemplated to allow upper subordinates who might, by the amalgamation of the ranges be placed in charge of a sub-division of a range, an establishment of one writer on 25 Rupees a month and two lascars on 7 Rupees a month. I have therefore appointed three of the men now thrown out of employment as writers under the three upper subordinates who are in charge of sub-divisions of ranges, and I have the honour to request the sanction of Government to this arrangement. Another of these men, a writer on 15 Rupees, I have retained for the present in No. 2 range office, Trichinopoly, to assist in preparing the monthly accounts; and the other man, Joseph Peters, at present Head Accountant of No. 1 Range, Trichinopoly, who is on sick leave, and whom I expect to submit a certificate of incompetency for further service immediately, is not provided with any post. As, in my opinion, he is not fit for further employment, I would recommend that his half pay, 30 Rupees a month, should be specially passed to him for the short period that may elapse before I am able to send in his papers for retirement.

4. As in carrying out the changes throughout the division this month all the office establishments will be very hard worked, and many of them will be put to the expense of moving, I have suggested to the Controller that it would be a fair arrangement to pass the new rates of pay to all establishments from the 1st of this month, instead of from the dates on which the men may respectively join their appointments.

No. 80. From the same officer, dated Tanjore, 20th September 1872, No. 471.

WITH reference to your memorandum, No. 104, dated the 14th instant, I have the honour to forward herewith a nominal list of the officers and subordinates appointed to the charge of ranges and sub-divisions on the 1st September 1872.

1 Nominal list of officers and subordinates.

Proceedings of the Madras Government, Public Works Department
7th October 1872.

Nominal List of Officers and Subordinates appointed to the charge of Ranges and Sub-divisions on the reduction of the Ranges from the 1st September under G. O., No. 1,586, dated 1st July 1872.

Nos. 79-81

Public Works Ranges.—The arrangements made and those proposed by the Superintending Engineer of the 6th Division in connection with the rearrangement of Public Works Ranges, approved.

Proceedings of the Madras Government, Public Works Department, 20th November **1874.**

No. 349. Read the following letter from Lieut.-Colonel R. A. ROBERTS, R.E., Superintending Engineer, Tanjore, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Tanjore, 27th October 1874, No. 1,639 :—

One letter from Govindasawmy Pillay.

In reference to G. O., 3rd March 1874, No. 551, I have the honor to submit, for the favorable consideration of Government, the accompanying letter, dated 21st instant, from Govindasawmy Pillay, Draughtsman of No. 1 Range of this district, praying that he may be allowed, for the reasons adduced by him, to draw the full pay, viz., Rupees 40 per mensem, of that post.

2. Lieutenant Greenaway, Madras Staff Corps, in charge of No. 1 Range, has transmitted to me the enclosed letter, with a recommendation that the request be granted, inasmuch as the Pillay now holds a 3rd Class Draughtsman's certificate, and is quite qualified to perform the duties of Draughtsman to the range, and that in point of fact he has performed those duties to the satisfaction of several Range Officers.

3. I would strongly urge therefore that, as a special case, the rules* may be set aside in this instance, and that Govindasawmy Pillay may be allowed to draw the full pay, viz., Rupees 40, as above-mentioned.

* Notification published in the *Fort St. George Gazette*, dated 2nd March 1860, page 441.

4. His case appears to be deserving of consideration, inasmuch as the so-called Draughtsman and Estimator of No. 4 as of No. 5 Range is, in each case, not only an unpassed candidate, but totally unqualified for the post of Draughtsman. These two men were, to the necessarily very great inconvenience of the Range Officers concerned, nominated to the posts in question in order to find employment for them, as reported in the letter printed with G. O., 7th October 1872, No. 2,342, and duly sanctioned in that Government Order.

5. Considering that one of the two men under notice was an Accountant on Rupees 25 per mensem up to the date on which he was pitch-forked, as it may be said, into the post on full pay of Draughtsman and Estimator, it does seem rather hard on Govindasawmy Pillay that a hard and fast line is to be drawn in his case, while so elastic a cord has sufficed for the other ranges mentioned.

No. 350. ORDER THEREON, 20th November 1874, No. 3,283.

ESTABLISHMENT, No. 16.

THE circumstances brought to notice in this letter and its accompaniment show no grounds for altering the decision given in G. O., No. 551, of 3rd March, but only for altering that given in G. O.,

Proceedings of the Madras Government, Public Works Department,
20th November 1874.

No. 2,342, of 7th October, on the recommendation of the Superintending Engineer's predecessor. Lieutenant-Colonel Roberts will now adopt measures for providing efficient Draughtsmen for the 4th and 5th Ranges of his district.

Nos. 349-350

Govindasawmy Pillay, Draughtsman, Tanjore District.—The Superintending Engineer to adopt measures for providing efficient Draughtsmen for the 4th and 5th Ranges of his district.

Proceedings of the Madras Government, Public Works Department,
14th June **1875.**

No. 302. Read the following letter from Captain L. CONWAY-GORDON, R.E., Controller of Public Works Accounts, to Lieutenant-Colonel J. MULLINS, R.E., Officiating Secretary to Government, Public Works Department, dated Fort St. George, 26th May 1875, No. 948:—

In forwarding a letter to your address from the Superintending Engineer, Tanjore, enclosing an application for pension on behalf of R. Nummiah, late a Draughtsman in No. 5 or Manargudi Range of the Tanjore District, I have the honor to inform you that, under Section 47 of the Civil Pension Code, a compensation pension is awarded only in those cases in which the party concerned has been thrown out of employment by the abolition of his appointment.

1 Letter, No. 2,737, dated 30th January 1875.
1 „ „ 2,736, „ „ „ „
1 Application for pension.
1 Register of Service.

2. Rule 5 of the same section distinctly points out that the discharge of one officer to make room for another better qualified is not the abolition of an appointment within the meaning of this section; and as Nummiah Naidu was thrown out of employ with reference to G. O., No. 3,283, of the 20th November 1874, in which the Superintending Engineer, Tanjore, was instructed to adopt measures for providing a more efficient Draughtsman for No. 5 Range, he is not entitled to the compensation pension which has been applied for.

3. Some time has been taken up in the verification of the applicant's service; and if the applicant had been found eligible to a pension or gratuity it would have been necessary to have returned the application to the Superintending Engineer with a view to an affidavit being taken from Nummiah in support of the entry relating to his services from the 20th September 1850 to 17th September 1855, and from 11th March 1858 to 15th August 1860, as his services cannot be verified for these periods.

From W. B. LEGGATT, Esq., A.I., C.E., Executive Engineer, in charge of Superintending Engineer's Office, Tanjore, to Colonel G. W. WALKER, R.E., Secretary to Government, Public Works Department, dated Camp at Negapatam, 30th January 1875, No. 2,736.

I HAVE the honor to forward herewith, in the prescribed form, an application for pension under Section 47 of the Civil Pension Code, on behalf of Nummiah Naidu, late Draughtsman and Estimator of No. 5 Range Office of this district, whose services were dispensed with in accordance with G. O., No. 3,283, dated 20th November 1874.

1 Application for pension.
1 Service Book.

2. Under the operation of the Government Order just quoted, the services of two* Draughtsmen and Estimators of Nos. 4 and 5 Ranges had to be dispensed with in order to provide efficient Draughtsmen for these ranges; and for one of them only, *viz.*, the Draughtsman of No. 4 Range, it has been possible to find other employment. At present there is no vacancy in the district to which Nummiah Naidu can be appointed, and hence the necessity for the submission of this application for a pension for him.

* Damodara Naidu.
Nummiah Naidu.

3. The whole of Nummiah Naidu's service (which, as per his service book, extends over a period of twenty-three years five months and twenty-eight days) has been rendered in this department, of which his services from the 16th August 1860 have

been verified by the records of this office; but the records, however, do not admit of his services previous to that date being verified, and the Controller, through whose office this application is forwarded, has been requested to verify the services of Nummiah Naidu prior to the 16th August 1860 from records in his office.

4. I have entered Rupees 20 or one-half of Nummiah Naidu's pay as the proposed pension, in consideration of his services being dispensed with from no fault of his and against his inclination, he having but eighteen months' service to put in to qualify under the rules for the full pension, *viz.*, one-half his average salary for the last five years.

5. Nummiah Naidu has always borne a good character, and has endeavoured to the best of his abilities to discharge his duties carefully and diligently, as will be observed from the remarks entered in his service book.

No. 303. ORDER THEREON, 14th June 1875, No. 1,669.

ESTABLISHMENT, No. 14.

IN G. O., No. 2,342, dated 7th October 1872, the action of the Officiating Superintending Engineer, 6th Division, in placing certain Accountants and Assistant Accountants in the position of Draughtsman until further vacancies occurred, when introducing the District Engineer's system, was approved; vacancies, however, not having occurred in which to provide for all these men, the Superintending Engineer acting under instructions given in G. O., No. 3,283, dated 20th November 1874, dispensed with the services of one of them, R. Nummiah Naidu, in order to appoint in his place a qualified Draughtsman, and an application having been made for pension on his behalf, his period of service being twenty-three years five months and twenty-eight days, the Controller points out that, under Rule 5, Section 47, of the Civil Pension Code, the discharge of one officer to make room for another better qualified cannot be regarded as the abolition of an appointment, and therefore a compensation pension is not admissible.

2. It is remitted to the Pension Department whether, having in view R. Nummiah Naidu's good character in the Public Works Department, and the fact that his loss of appointment is primarily due to the re-organization, he can be admitted to pension, his service being reckoned up to the date of the re-organization.

REMARKS BY HEAD OF OFFICE.

1. As to character and past conduct of Applicant. The Applicant, abstracting from his Service Register to have borne a good character so far as testified to by the Officers, as per Service under and to have been Careful and diligent in the discharge of his duties - though somewhat reticent in natural abilities.

2. Explanation of any suspension or degradation. The degradation from the post of Sub-Overseer, to that of Writer, in September 1859 and February 1862 respectively to stand due to the applicants incapacity for the former post. The degradation of the 1st July 1863 to revision of establishment.

3. Regarding any gratuity or pension already received by Applicant. See Chapter XX.

4. Explanation under Section 47, Rule 1, so far as the Head of the Office can give it. Under the operation of G.O. No 3283 dated 20th November 1874 the services of two men had to be dispensed with for one of whom only it has been possible to find employment the latter who is the Applicant cannot be provided for, as there is no vacancy in the district to which he can be nominated.

From

THE CONTROLLER,
PUBLIC WORKS ACCOUNTS,

To The Accountant General
Madras.

Fort Saint George, 6th November 1876.

Sir,

I have the honor to forward for transmission to Government the enclosed papers connected with an application for pension received on behalf of P. Ammiah Naidu, late Draftsman in the Manargudi Division of the Tanjore District.—

2. Of the applicant's entire service including breaks from 20th September 1850 to 17th December 1874, that is, (24 years, 2 months, and 28 days) the period from 20th September 1850 to 25th November 1850 (2 months and 6 days) will not count towards pension as the services were rendered before the completion of the applicant's 22nd year of age.—

3 The applicant's services from 26th November 1850 to 17th September 1855, and from 1st November 1859 to 5th February 1869, cannot be

be verified, owing partly as explained in your Memorandum No. 406 of the 13th. April 1875 to the non-entry of the appointments, which he held, in the Annual Returns of 1st. May 1851 and 1952 and 1853 to 1855, and, partly, to the names of incumbents not being entered in the audit Registers of this Office. The applicant however furnishes an affidavit, in which he states that he was employed during the two periods in question in the manner detailed in the accompanying revised History of service. An original letter written by the late Sub. Engineer Achoota Naidoo in March 1858 to the Chief Engineer is furnished in support of the applicant's services for the first period. As regards the 2nd. period the District Engineer in para 3 of his letter No. 1737 of the 6th. September 1876, herewith forwarded, states that Munniah Naidu appears as acting writer in the printed annual List of the Public Works Department corrected up to 1st. January 1860.

4. The applicant states in his affidavit that he was employed up to the end of February 1860 as writer, while in the Superintending Engineer's letter, No. 553 of the 3rd. April 1876, the

the applicant is represented to have absented himself without leave from 1st. February 1860.

5. The periods from 4th. September 1857 to 31st. December 1857 and 11th. March 1858 to 31st. October 1859 will not qualify as the applicant was out of employ or only held temporary appointment.

6. The applicant's services for the periods marginally noted, amounting to 16 years, 5 months and 28 days, have been duly verified, partly from acquittance Rolls, and partly from audit Registers on record in this office. — Of this period 3 months and 6 days are non-qualifying, as the applicant was on leave as shewn in the accompanying revised History of Service. —

From	To
18th September 1855 —	3rd September 1857.
1st January 1858 —	10th March 1858.
16th August 1860 —	17th December 1874.

7. No trace of the cause of the termination of the applicant's services on the 10th. March 1858, can be traced, beyond the particulars given in Sub. Engineer Achoota Naidoo's letter that the appointment of Sub Overseer held by the applicant was disapproved by the Chief Engineer. —

8. It will be observed from the Superintending

Superintending Engineer's letter No. 553 — dated 3rd April 1876, herewith submitted, that in February 1860. Nummiah Naidu was taken ill and absented himself from the office in which he was employed — without leave and subsequently submitted a medical certificate, but his explanation at the time was not considered satisfactory and his place was filled up; he was however again re-entertained in the Department and served uninterruptedly from the 16th August 1860 to 18th December 1874 the latter being the date on which he was relieved under Government Order No. 3283 of the 20th November 1874.—

9. The applicant was therefore out of employ for about 6 months and 15 days, and a break was thus caused which prevents him under section 42 of the Civil Pension code from reckoning his service prior to 16th August 1860. The applicants qualifying service from that date to 17th December 1874 amounts to 14 years and 26 days.—

10. In September 1872, when the re-organization of Range Office Establishment took place, Nummiah Naidu lost his appointment of Head accountant, owing to the abolition of the Range in which he was employed. As no provision could be made for the continued employment of the applicant as an accountant, the Superintending Engineer proposed to employ him in the capacity of Draftsman until a vacancy occured in the accounts Branch. This arrangement was approved by Government in Government Order No. 2342 dated 7th October 1872. No vacancy, however, in the accountants Grade having occured, the applicants services were dispensed with in December 1874, in accordance with Government Order No. 3283 dated 20th November 1874.—

11. In Government Order Public Works Department No. 1669 of the 11th June 1875 the applicants case was remitted to the Pension Department with a view to its being considered whether having in view the fact that his case was primarily due to the re-organization above referred to, he could be admitted to pension, his service being reckoned up to date (1st September 1872) of the re-organization.—

12. It will be seen however from the applicants History of service that on that date he had only completed a qualifying service of 11 years, 9 months, and 10 days from

from the 16th August 1860 the date of his re-employment in the Public service.—

13. The Superintending Engineer is of opinion that the applicant should be allowed to reckon his services up to date of his retirement in December 1874, as his removal at that period was a contingency resulting from the abolition of his original appointment in 1872, and that the deficiency of service subsequent to 1860 should be considered, as a special case, to have been made up or compensated for by the 9 years service rendered prior to 1860. If this be allowed, and the periods from 26th November 1850 to 17th September 1855, 1st January to 10th March 1858, and from 1st November 1859 to 7th February 1860 are admitted under the affidavit of the applicant V. Kummiah Naidu will have a period of qualifying service to his credit to the extent of 21 years, 3 months, and 15 days, rendering him eligible to a pension of one third of his average emoluments (that is) Rs. 13-5-4 under sections 4 and 56(b) of the Civil Pension Code, subject to the confirmation of the Government of India.—

14. If however the services prior to 16th August 1860 be not allowed to count, the applicant will not be eligible under section 56(a) of the civil Pension code to more than the following gratuity. (2)

(1). If permitted to reckon service up to 17th December 1874, a gratuity of Rs. 430 equal to 12 months pay for the period of qualifying service amounting to 14 years and 26 days.—

(2). If only permitted to reckon service up to 31st August 1872 the date on which the applicant lost his appointment as Head accountant, a gratuity of Rs. 440 equal to 11 months pay for the period of qualifying service amounting to 11 years, 9 months, and 10 days.—

15. No alteration has been made by this office in the entries on the 1st page of the pension application, as it rests with Government to determine whether any gratuity or pension should be granted.—

16. The following papers connected with V. Kummiah Naidu's application are herewith forwarded.—

3. It appears from
the Superintending Engineers'
letter No 5583 of 1876, that in
February 1860 Ummed Vairsee
was taken ill, and absented
himself from the Office in
which he was employed without
leave. He subsequently
submitted a medical Certificate,
but his explanation at the
time was not considered
satisfactory, & his place was
filled up, & he was removed
from the Establishment
and served uninterruptedly
from the 16th August 1860 to

16th December 1874, the applicants
date therefore out of employ-
ment 6 months and 15 days,
a break in his Service, under
provisions of Section 48 of
the Revised Civil Service Code,
from the 16th August 1860 the
applicants Service from that
date to 17th December 1874 amounts
to 14 years and 26 days.

4. Orders are requested
as to whether Ummed Vairsee may
from his long Service and good
Character, be regarded as
having resigned the Service,
with the absented himself
without leave, and was struck
off the Service, or whether
that his previous Service may
be counted under Section 48
Rule 1 of the above Code, so
having been re-employed within
12 years.

* See also 5th Paragraph (Page
2nd) of this letter.
Remarks: Should be regarded as resigned
having absented himself without leave
& has been struck off the Service
Re-employment

5

I received another point
for delivery in September 1872
when the reorganization of the
Ranger Corps Establishment
took place & I was placed
on the supernumerary List
& received Sick Leave
on Average pay from
the 7th October 1872 to
the 31st December 1872
when the

pass a Contingency, resulting
from the abolition of the
Original Appointment in 1792
and that the deficiency of
Service subsequent to 1860
should be considered as a
Special Case & have been
made up or Compensated
for by the 9 years Service
rendered prior to 1860 but
it is doubtful whether the
Government of India would
grant a pension for the Ser-
vices stated in that manner
to them.

8 It is open to
Government to grant to
Uncovenanted Servants the pension
of £50 to £500 per annum
equal to one third of his average
salary for 3 years subject to
the approval of the Government
of India for his qualifying
Service of 21 years 1 month and

4 days including the Service
rendered subsequent to the
Reorganization which took place
in September 1792. A change has
moreover in no case been made in
the pension so granted and
pensions to uncovenanted
Servants are subject to the same
conditions as to the
pensions to covenanted
Servants.

PROCEEDINGS of the MADRAS GOVERNMENT.

READ the following letter & papers

Proc. of Govt Public Works Depart. dated 11th June 1876 No 1669

Offrg Manr & the Controller of Public Works Accounts — 1st July 1876 No 20

From the Examiner of Public Works Accounts — 6th November 1876 No 1910 and 1965

Secretariat Genl — 7th November 1876

Order thereon 15th March 1877 No 1145

The foregoing papers relate to an application from for the grant of the Compensation pension of Rs 20 per mensem and to Rangam Pillay, Vannan and Maidan Cutty Dasiyan and Ottriyatee in the Manargudi Range, Tanjore District.

2 The total service (including non qualifying service and breaks) extends to 21-2-28, of which the period of 21 yrs 1 mo & 14 days is reckoned qualifying service.

Sec.

The Accountant General
reports that Nunnicah
Naidoo's services from 26
November 1850 to 17th Septr
1855, and from 1st March 1859
to February 1860, cannot be
verified owing to the non-
entry in the Godavery Division
of his appointments. These
periods of service are
however supported by the
affidavit of Nunnicah
Naidoo - besides the
Collateral evidence -

4 Abstracts of about
three days in 1860,
occurred in Nunnicah
Naidoo's services, also his
absenting himself from
office without leave - He
appears however that he
was remunerated in the
Department and served
uninterruptedly from 16th
August 1860 to 18 December
1871 - During the currency
of these services the Organiza-
tion of the Revenue Collec-
torate

Vide Memo. dated 13th
March 1875 No 406

took place in September 1872
in consequence of which
Nunnicah Naidoo lost his
appointment of Head Peon,
The Superintending Engineer proposed
Nunnicah to employ him
in the capacity of Draughts-
man, which the Govt
approved in G. O. 7th
October 1872 No 2302 - But
finding a vacancy in the
Accountant Branch Nunnicah
Naidoo's services were
finally dispensed with
in December 1874 -

5 As respects the charge
which occurred in 1860 it
is observed that it at the
time the explanation offered
absence, offered by Nunnicah
Naidoo, was not considered
satisfactory, and he was
placed under suspension
subsequently dismissed -
Medical certificate
having been sent to the
that he was confined
in the Cuttack Jail
[illegible]
year, removed
[illegible]

character borne by the applicant throughout his long service, the Governor in Council considers that the break in question may be treated as falling under the provisions of section 48 Rule 1 of the above code and that Nunniah Naidoo may be allowed to count his foregone services towards pension.

6 It is further clear that Nunniah Naidoo loss of appointment in Dec.r 1874 was primarily due to the reorganization of Establishment which took place in September 1872 - up to this date the applicant can count a qualifying service of 21 y.rs 1 month and 14 days (irrespective of the service rendered by him subsequent to this date or up to December 1874) and the Governor in Council is accordingly pleased to grant to Nunniah Naidoo a pension of £63-5-4 Sterling (three pounds five and sixpence four per annum) equivalent of one third of his emoluments salary for the last 3 years with effect from the 18th December 1874, subject to the approval of the Secretary of State.
