Sir,

Your letter No. 140 S.L. of the 10th ultimo.

Enclosures 4
1 application for Pension.
1 Service Book.
1 Medical Certificate.
1 letter from the applicant.

I have the honor to return the application for Pension and Service Book of Mahomed Nizamodeen Sai late Clerk, Salem Division, duly verified as far as the records of this office are available.

Para 2. From a reference to the Pay abstract book of the late District Engineer it is observed that the services of the applicant were dispensed with on reduction on the 31st of August 1857 and that Nizamodeen it would appear was without permanent employ in September of that year. Vide his letter enclosed. The pension papers have accordingly now been corrected.

Para 3. The applicant's services for the whole periods named (from 1st November 1856 to 31st January 1857 and from 1st October 1857 to 30th April 1858) are verified by the Service Register maintained in the late District Engineer's Office.

Para 4. The stoppages refer to fines imposed on the applicant for carelessness in the preparation of accounts.

Para 5. The pay for both appointments being the same, the distinction

was

was apparently overlooked. The old Service Register tallies with the entries in the History of Service in the Service Book and application.

Para 6. The omission is now supplied. While compiling the Service Register, the late Superintending Engineer's Office seems to have overlooked the fact of the applicant having acted as Draughtsman, hence the omission.

Para 7. The date of birth and more personal marks for identification have now been given.

Para 8. The required information have now been furnished.

Para 9. The Service Book returned completed.

Para 10. The Medical Certificate though dated 30th was only received on the afternoon of the 31st August 1877.

Sir,

With reference to your letter of the 13th February, No. 182 S.L., I have the honor to state that the applicant's services for the period from 1st November 1856 to 31st January 1857 cannot be traced in the records. Services from 1st October 1857 to 30th April 1858 are verified by the old Pay Abstract Book.

2. Irrespective of the above two periods the services of M. Nizamoodeen Saib is considerably more than 15 years and

he is undoubtedly entitled to one third pension. As six months have passed since he retired it is hard on him to be kept waiting for his pension, and it seems desirable that the orders of Government on the subject should be obtained as early as possible.

I have the honor to be,

Public Works Department
Public

No 1559.

Extract from the Minutes of Consultation under date the 11th August 1857.

Read the following letter from the Civil Auditor

Requesting to know when the Marahmut Department is to be discontinued. } Here enter 13th July 1857, No 151.

In the letter above recorded, the Civil Auditor requests the instructions of Government whether it is intended that the Marahmut establishment under the Collectors should be maintained in full in addition to the regular Public Works establishment, or whether the former should be absorbed at once into the latter

2. When the Government issued the Notification of 27th January last, they fully intended that the old Marahmut establishment should ~~be~~ at once be absorbed into the new one, which was authorized in suppression of all former sanctions; and the doubts now expressed by the Civil Auditor are very unintelligible to Government.

3 In the order of Government dated 28th January 1857, No 213 sanctioning the entertainment of the Accountant and Gomastah applied for by the Acting Collector of Malabar at a monthly expense of 60 Rupees, it was clearly pointed out that these salaries were to be paid out of the funds which would have been allowed for the District Engineer's
establishment

establishment, if the transfer of the executive had taken place. The Civil Auditor, to whom a copy of this order was communicated, could at all events at that time, hardly have been unaware that all the former Marahmut servants who remained with the Collectors, or who were sent to the Engineer Officers – either before or after the transfer of the executive to the Engineer Department, were to form part of the new establishment, and were not to be additions to it.

4 In his letter to the Civil Auditor dated 22nd June 1857, copy of which is submitted to Government, the Chief Engineer states that in those Districts where the executive was not transferred before the 1st January, the Collector retains the services of the Marahmut establishment, though the salaries of some of its members are provided for in the new Department and that such members as are not included in the new Department continue in receipt of their former salaries. – Colonel Faber further remarks that this arrangement will only be in force until the whole executive charge shall have been transferred to the Engineer Department. From this the Government are led to suppose that the Chief Engineer has in some instances allowed his Department to submit, and that the Civil Auditor has passed the salary bills of both the old and the new establishments for if the salary bills for both have not been submitted by the Engineer Department it is not clear how Colonel Fabe should know that both have received pay. How either of these officers can have conceiv that this was the intention of Government they are quite at a loss to conceive. It clearly was never contemplated by the Government that the establishment formerly attached t the Collectors should be distinct from that of the new Department or that its absorption into the new Department shoul be dependant upon the transfer of the executive to the Engineer Department. All such servants as belonged to the old Department, whether they remaine with the Collectors or were sent to the Engineer Officers, ought to have been provi-ed for in the new establishment accordi to their merits, immediately after the receipt of the Notification of 27th January irrespective of the transfer of the executive; it was only reasonable that in those Districts, where the transfer did not take place immediately, the whole or a part of the establishment, allowed to the District Engineers and other Executiv Officers should be attached to the Collectors so long as they continued to perform all, or any portion of the duties, which would have devolved on the Engine Department if the transfer had taken place, but at the same time, as the order of the 27th January, was after th

date, the only sanction for the Public Works Department, it was only to establishments formed under that order, that any servants salary could be charged.

5. It would appear from the tenor of the Civil Auditor's letter that even the Marahmut establishments transferred to the District Engineers by the Collectors are still maintained in addition to that allowed to them in the Notification of 27th January and it is evident from this, that some of the old servants have been left unprovided for, in consequence of new persons having been brought in. It can hardly be said that there were no proper openings for them as most of them could have been employed in the Office establishments allowed to the Officers of the several grades, and others in any of the grades of the class of Sub-Overseers, and by such an arrangement no extra charge whatever would have been necessary. The Government will consider that there is deep cause of regret if expenditure above the sanctioned amount shall have been incurred by this payment of a double establishment but as the 3rd Class Sub-Overseers were not fully employed for some time after the Department was organized, (indeed no report of their employment has ever yet been made to Government) there is room to hope that the excess may be met by the pay of this class, which has not been disbursed. The Chief Engineer's supervision of his Department must have been more lax even than the Government supposed, to have allowed double establishments to have been charged for and the Government cannot but remark on the singular infelicity of the Civil Auditor having delayed until July, a reference which, if any doubt was felt, should clearly have been made in January.

6. The Civil Auditor must be aware that the executive has been now transferred to the Engineer Department in all the Districts except in Tanjore, but it is not intended that in that Province there should be any separate charge on account of the establishment from the circumstance of the Executive remaining with the Collector, arrangements should be so made that the Collector may have a sufficient number of servants to carry on the duties efficiently and submit his accounts punctually under the new system, as long as the Executive may continue with him. With the transfer of the Executive all the servants will of course be made over to the Engineer Department.

7. The dates of the orders for the transfer in the several Districts are given below although they appear to have been already communicated to the Civil Auditor.

No	District	Date of the order of Government	No	District	Date of the order of Government
1	Ganjam —	3d Septr 1856 No 1575	10	Chingleput —	26th Novr 1855 No 831

3	Rajahmundry —	18th April 1855 — 448	12	South Arcot —	21st March 1857 — 521
4	Masulipatam	18th July 1856 — 1206	13	Trichinopoly —	18th Novr 1856 — 2156
		16th Octr — — 1889	14	Madura —	24th March 1857 — 533
5	Guntoor —	18th July — — 1206	15	Tinnevelly —	13th — — — 466
6	Nellore —	23d April 1857 — 765	16	Coimbatore —	21st Augt 1856 — 1488

9	Kurnool —	23d July — — 1249	19	Malabar —	6th Jany 1857 — — 17

8. The Government observe that in certain Districts, Collectors were allowed to retain some of the Marahmut servants to wind up their accounts, but they were not intended to be in addition to the new establishment. The Civil Auditor having passed the bills up to this date the Government can take no step to set the past right but to prevent any more misunderstanding on the subject, the Right Honorable the Governor in Council deems it right to state in clear terms that any part of the old Marahmut establishment whether it remains with the Collectors or District Engineers, should at once be absorbed into the new Department and that from 1st September next no charges additional to those sanctioned on the 27th of January last shall be passed by the Civil Auditor under any circumstances whatever without the special sanction of Government

It

9. It is probable that in consequence of the reductions ordered in the Notification of the 18th July 1857, some of the old Marahme servants employed as 3rd Class Sub-Overseers a class which was temporarily abolished an those entertained in the office establishment allowed to the Executive and Assistant Enginee and overseers whose services were dispensed with may have been thrown out of employmen but it is now directed that they as well as those, who were left unprovided for when the new establishment was organized shall be at once employed either in any of the grades of the second class Sub-Overseers or in the office establishments of District and Executive Engineers according to their merits in place of those who may have been newly brought into the Departmen It appears to the Government that the servan who have long served in the Collector's Cutcherrie and by whom all the arduous duties of the Department were performed at a time when the establishment was exceedingly limited and whose experience must be of great value in the present new Department, hav the first claim for employment. These observatio it must be understood, do not apply to those who may from old age or other cause be found unfit for further active service. The Local Offic will be at liberty to recommend such men for the pension or gratuities to which they may consider them entitled according to the rules,

as already directed in the Extract Minutes of Consultation dated 19th November 1856 No. 2175. The Government desire that the Chief Engineer will take immediate steps to carry these orders into effect.

10. In conclusion, it is proper to remark that the establishments sanctioned from time to time for the protection and management of the Public Works adverted to by the Civil Auditor should be considered distinct from that sanctioned on the 27th January 1857 and they will accordingly be passed as usual. In the Extract Minutes of Consultation dated 27th March 1857 No. 563, the Government desired the Chief Engineer to prepare lists of such establishments now kept up throughout the Presidency and that Officer is requested to give his early attention to the matter.

1856 to 31st January 1857 and from [5]
to 31st April 1858 which has not been verified owing to the omission in the Audit Registers of the names of incumbents. The two latter periods have however been verified by the District Engineer Salem from the Service Register and pay abstract book maintained in his Office vide his letters Nos 109 and 123 dated 10th January and 25th February 1878 respectively.

2. The period from 1st November 1856 to 31st January 1857 though not verified from Audit Registers or pay abstracts, has been classed as qualifying as Service as its inclusion or exclusion will not affect the pension to which the applicant has been recommended by the District Engineer Salem.

3 The applicant lost his appointment of Sub-Overseer on the 31st August 1857. See the Extracts Minutes of Consultation No 1559 dated 11th August 1857 a copy of which is enclosed.
