15TH DECEMBER 1880, No. 1201, PENSION.

GOVERNMENT OF MADRAS.

PENSION DEPARTMENT.

READ—the following paper :—

Proceedings of the Board of Revenue, dated 23rd November 1880, Mis. No. 12954.

Read—the following letter from the Collector of Tanjore, to the Secretary to the Board of Revenue, dated 17th November 1880, No. 5741.

In enclosing, for the Board's favorable consideration, an application for pension from the English Head Accountant Siva Row, I have the honor to state that the Acting Civil Surgeon Dr. Collington has certified * that, in his opinion, Siva Row

will be fit for further service if he now avails himself of six months' leave and submits to an operation for the removal of a cataract from his left eye.

2. In this opinion I am unable to concur. Siva Row returned from two years' furlough only twelve months ago after having had a cataract removed from his right eye, and he still is practically blind, for, although not in absolute darkness, his sight is so defective as to make it almost impossible for him to discharge his daily duties, and his general health is so shaken that he has neither energy nor physical strength sufficient to carry him through the day's work. He draws 85 rupees a-month, and his post is an arduous one. I cannot give him a lighter charge without reducing his pay; and to do this would be to punish him for no fault of his own, but simply because he suffers from a grievous physical affliction.

3. Under these circumstances, I request that the Board will either obtain orders directing that Siva Row should present himself before a Medical Board, or, as a special case, will permit him to retire without a medical certificate.

Resolution—dated 23rd November 1880, Mis. No. 12954.

Submitted for the orders of Government.

2. As the Zillah Surgeon is not prepared to certify to Siva Row's incapacity for further service, the Board think he should be examined by a Medical Committee.

The Collector of
Bangore.

Sir,

With reference to your letter No 527
of 22nd Instant, I have the honour
to inform you that there is a probability
of Sira Rao recovering the use of his
eyes in six months if he undergoes
an operation, which he seemed to
be inclined to do. As to his general
health, I think that after six months
leave there will be every prospect
of his being able to do duty.
