way affect the amount of pension or gratuity to which the applicant appears to be entitled, further correspondence on the subject was considered unnecessary.

Verified from the Audit register of this office but clasped as non-qualifying owing to the applicant's absence without leave for 5 days in June 1871. In the absence of information as to the precise date from and to which the applicant was absent without leave in June 1871, the applicant's services up to 30th June 1871 have been clasped as non-qualifying.

Verified from the Audit register of this office and found correct.

The entries in the service book and pension application are incorrect in regard to dates, leave, &c, but as the entire period of the applicant's services, with the exception of the period from 16th to 30th November 1861 which is supported by an affidavit, has been duly verified from the Audit registers of this office, the return of the documents to the Superintendent Engineer for correction and retransmission was considered unnecessary as only delaying the submission of his papers for the orders of Government.

The applicant's services were dispensed with on the 31st December 1879 owing to the general reduction of establishments in the P.W. Department.
