Remarks by Examiner, P. W. Accounts.

The applicants Services from 1st May 1851 to 31st October 1854 will not count towards pension and gratuity with reference to Section 19 of the Civil Pension Code. His Services for the period from 1st November 1854 to 31st December 1856 cannot be verified from either the records of this, or from those of the Accountant General Madras, and the District and Divisional Offices. From the enclosed affidavit and other original documents produced by the applicant, it is presumed that the applicant was continuously employed on the permanent Establishment of Government during the period and it has therefore been classed as qualifying. His Services from 1st January 1857 to 31st December 1879, have been duly verified from the records of this Office. According to the entries in the Audit registers of this Office, the applicant drew moiety of pay for 5 days in November 1865 and on a reference to the Superintending Engineer, it is found that the applicant was absent on sick leave for 5 days (dates not known) during that month.

The applicants resignation under the terms of the Resolution of Government of India No. 2079 dated 31st July 1879 was accepted by Government in G.O. No. 2779 W dated 5th November 1879. (Copy attached)

The applicant is stated in both the Service Book and the register of application to have been born in the year 1832. The precise date and month of the applicants birth is not known but his qualifying service has been taken to begin from 1st November 1854 on the assumption that he completed the 22d year of his age sometime before that date of the same year.

The dates of termination of the applicants appointment in the Service book have not been in all cases attested by the head of Office but from the fact of the Superintending Engineer's having countersigned at the bottom of the 4th page of the Service Book, it is considered that the return of this document

He has had charge of a large extent of
country in that time, too large for one
Sub Overseer viz: 30 miles of Trunk Road
60 of Cross Roads & the Tanks and buildings
in the Ongole Taluq. He has given general
satisfaction in his work, the great distances
he has had to travel have prevented him
from giving that personal superintendence
to each of his works which is desirable.
He understands the ordinary work of the

practical experience in it. He understands
the system of accounts of the Dept. estimate

1st Class Talay Overseer Munusamy Modaly worked under my orders for about 5 months when employed on the desastrous flood damages of October/74 in the Northern Delta of the Pennair. I found him remarkably attentive and careful in his work; very particular in measurements and accounts, and I believe perfectly honest and trustworthy. To him I must chiefly attribute the very satisfactory manner in which the Koovoor, Pinchadu, Gandavaram & Dunnur channels were executed. He took a great deal of trouble and pains on these important works, and all the good that has been derived from them in the past wet season is due principally to him
