CERTIFICATE AND REPORT OF ACCOUNTANT-GENERAL.

CERTIFIED that (subject to the remarks below) qualifying service in inferior superior grades has been duly proved for 17 years 4 months 5 days; and that a *Sanwald* pension (qualifying) not exceeding Rs. 15-12-10 per annum is admissible under Sections 102 and 103 (2) of the Civil Pension Code. The calculations have been duly verified. *The pension is chargeable.* In accordance with Rule 11, under Section 100, the attention of Government was respectfully directed to Section 85 of the Code. His Lordship's Certificate forwarded with this application shows that the applicant drew pay up to 31st Augt only instead of up to 9th Sept/82. The date of his detachment from the service. In explanation of the discrepancy the Surgeon General has explained that the applicant drew pay up to 31st Augt and nothing since. It is presumed that the payable to him up to 9th Sept/82 should be discharged, that his pension should therefore be made payable from the following day. The proposed of the Head Office (repts that the applicant should be granted a pension of Rs. 18-10-6 instead of Rs. 15-12-10 per annum, as it is presumed, due to an error in calculation. *App't. Disease or Medical Reasons for Considering the man - Unfit

This Hospital Assistant has been suffering from dyspeptic symptoms since 1885 after going to Honolulu. In 1884 he was obliged to go away on 6 months leave. For some years after altho' he managed to do his duty he was not very strong. In 1878 he had a severe attack of dysentery lasting over a month. This attack seems to have prostrated his energies for some time he began to feel very nervous his memory failed him and he experienced a train of symptoms which pointed to the liver as the seat of mischief. While at Camaguey in 1881 he complains of feeling very weak, low fever with dull aching pain at base of right lung, occasional diarrhoea, edema of right foot, burning sensation in palm and elbow, pain in back, he then obtained leave for a twelve-month and came down to the Eastern Coast. In September 1881 he was under treatment in the General Hospital for Gastric Ulcer, being laid up for one month. It was also diagnosed that he had a much contracted liver. For the past year he has not been fit for much exertion, has frequent head-ache, pain and uneasiness in right side; loss of appetite and nerve and is generally weak. Present Condition - Is prematurely aged, walks shakily as if in pain; eyesight defective, arcus senilis in both eyes just beginning to appear. Heart sounds rather frequent, belly puffed, area of hepatic dulness much diminished; tongue white and flatly, pulse small and weak. As I do not consider that he will be ever fit for further service, I therefore recommend that he be brought before a Medical Reviewing Board with a view to his being pensioned. Disease contracted on general service and not the result of his own imprudence.
