most respectfully sheweth

That your Excellency's humble petitioner
was employed in the Engineering Department
in 1852 in the above Capacity and continued
in the service up to year 8th April 1880. Then
the system of upkeep of Irrigation Masters
was abolished throughout the whole District.
Then I petitioned the Divisional Officer and
the Superintending Engineer to give me pension.
They both had replied me stating that under
G.O. No. 4786 dated 26th November 1877. I can
not get pension or gratuity.

Afterwards petitioned the Controller of
M. Accounts through the Superintending
Engineer stating that I am in every
way entitled to get pension and should
get the same. The Controller
of the Superintending Engineer
has prepared and send him the same and
also

also sent me an endorsement No. 1060
dated 24 March 1881 for information
with reference to my petition. I beg to
enclose the endorsement for your Excellency's
perusal.

On receipt of the above Endorse-
ment I went at once to the Superintendent Engineer
at Fickly at once. He ordered me to go to the
Division Officer. That Division Officer has taken
my measurement in height and marked
the height as five feet six inches and entered
it in my Service Register which was in
his office and submitted the same to the
Superintendent Engineer.

The Duration of my Service in Govern-
ment will, on reference to that Service book
be found to be 28 years. In the above 28 years
the Division Officer has subtracted the 12 years
of my earlier career in the Service & taken to
affect the 16 years of my latter part of the
Service. He besides equalled the 16 years
into 3 parts and recommended me to the
Superintendent Engineer to a gratuity of Rs. 150
for 5 years third part of the effectual duration
of Service taking my last pay Rs. 15 into Consi-
deration. That Superintendent Engineer has returned
the Service book sent to the Division Officer
to him with a remark that while I have a greater
Service I am for gratuity alone. Now the
Division Officer has replied him stating that I

do not stand entitled to pension and that I should
get gratuity alone as stated above quoting some
old reference or other forbidding me to pension.
Now the Superintendent Engineer has forwarded
the same to the Controller agreeably to the view
of the Division Officer.
I am sure and speaking justly of things under
British Government that it is a shame to have
that man deducting these 12 years of my former
Service, the first of the Service & I beg to say should
be calculated as a permanent & combined one
& D. P. W. officers should have given me a
pension of 5 Rs. per month & third part of the
pay taking my last pay Rs. 15 in consideration.
While so I leave it to government to think how
injustice it is that I should be compelled to
get Rs. 75 as gratuity alone all of a sudden
for what I have served in the Depart-
ment for a great period of 28 years with
many difficulties to overcome & about 12 years
what the D. P. W. officers can offer for
deducting 12 years out of my Service and for
considering only 16 years out of them for giving
only 75 Rs. gratuity & 15 Rs. pay while I
have served 28 years & I justly get a pension of 5 years
calculated for the 16 years & 15 Rs. gratuity
with effect to the end of my life as has been
the case of other officers who have served less
years. I humbly request your Excellency that the
Controller may be persuaded for sending my
Service Register to the Government office to check
there so that the Government may see how
unjustly

fully I am entitled to a pension of Rs. 7½.
monthly as my pay for the service of 29 years
rendered by me to Government and done
in a proper and efficient manner for all my past
services in the service.

I have been doing my duty over the several Roads, big tanks and
amments in the State & have done good service
to Government. Besides in the State, one big
gravel Bridge at Vallahay and also 10 miles
from Mysore was built on my estimate of
Rs 7500 under my supervision. I have been
doing that work night & day paying implicit
obedience to my superiors and it is due to my
carefulness in the expenditure of the allotment
that a surplus sum of Rs 5000 has been
caused in the estimated amount & credited
to the profit of Govt. Mr. Wyler who was
then over me knows all about me, if reference
be made he will give a good opinion of me.
I am not worth an acre of land in the gravel Bridge
by some hundred tankas. If I did then I would not
ask for pension while such a valuable service
has been done in laying out to Government. While
my big family people were all awaiting
impatiently the exportation of that board of pens-
ion as a result of my work in Government
I was given a pension of Rs 1000 per year
which I have been receiving regularly. I am
very grateful to you for the pension & will
be glad to be of service to you in any way
I can. I am, Sir, your obedient servant.

Permanent Pension of Rs. 5 per
month to protect me & my large family
for ever and ever

I humbly beg to remain
