Fort Saint George, Political Constitution, 20th April 1858.

No. 27. From H. FORBES, Esq., Acting Secretary to Government ; to J. R. BOYSON, Esq., Honorable Company's Solicitor, dated 16th April 1858, No. 261.

SIR,

In consequence of a letter from the Madras Member of the Legislative Council regarding a Bill lately introduced by Mr. Peacock for a settlement of the Debts of the late Nawaub, I am directed to request that, at your earliest convenience, you will inform the Government in detail what decrees are referred to in your letter of the 9th February 1857, No. 77; whether decrees obtained in the life time of the Nabob or since his death, and, if the latter, against whom they have been obtained and at whose Suit and whether the judgments are for debts or for the foreclosure of mortgages.

You are requested to prepare and submit a Statement of the cases in which decrees such as are above alluded to have been given, for the execution of which process has been, or is expected to be, taken out.

Further you are requested to state if, in your opinion, the proposed Bill sufficiently guards against the claims against the Nabob being referred to the Master's Office.

(Signed) H. FORBES,

Acting Secretary to Government.

Exd. J. A. Wilson.

My dear George

On introducing the Bill for the reformation of the Statute of the late School of the Grammar, Mr. Macrae at the end of his speech observed that the Bill would be published for general information and the members of the school and others would have an opportunity of bringing before the Committee any objections they might see against it, but that he thought that publication for seven or eight weeks would be sufficient for that purpose and therefore he should probably move that the Bill should be published for that period only instead of the three months required by the Standing Orders. He did not however make such a motion thinking that if the Government of Scotland were of opinion that the Bill ought to be passed in less than three months it would be better for them to ask that measure may be taken to expedite it & the course would be for the Member for Scotland at the instance of the Government to move that the Standing Orders may be suspended and the select Committee constituted to prepare the Bill, say before the 1st June, instead of the 1st July, which is the day appointed under the Standing Orders. Speaking on this motion he made it hard to see how he could move for so long a time as a year, seeing instructions from the Government by Mr. P. G. as well as the change of time may be sufficient for the information of another year and to deprive them of the opportunity to make objections. He also might be satisfied to the Government by a P. G. and published in the White Paper, &c.

unlike the middle of the
know, but I am not

the money has come
for the Government
being in the land
under the claim
stake. I wish to ask

to Government if they see
any difficulty in making
over the title to the barley
tomorrow. It will be
in consequence to all that
I need relate it to the
very last moment, &
there are circumstances
that make me wish to

That a message shd be sent
to Mr. G. at once respecting
him to get the Bill expedited
as he proposes.

With regard to the intention
of Mr. X I think it wd be desirable
to know the reasons recommended
by the Education who is better able
to judge of its necessity than any one
else, if the danger is not so clear
as it seems. I inferance that he may
be so anxious that he may defer
the proposition more exactly & he
might be asked if he still thinks it
to be requisite.

As to objection to Mr. Foster
holding more charge of the Secretariat
Mr. Mayley also however shd first be
sworn in I imagine.

It is most desirable that
a change shd be made in the
