G.O., dated 5th March 1895, No. 155, Political.

ABSTRACT.—Passing orders on Proceedings of the Board of Revenue submitting report of the Collector of Malabar on the administration of the Laccadives for fasli 1303.

READ—also the following paper :—

Proceedings of the Board of Revenue (Land Revenue), dated 4th May 1895, Mis. No. 2250.

Read—the following letter from H. MOBERLY, Esq., Acting Collector of Malabar, to the Secretary to the Commissioners of Land Revenue, Madras, dated 22nd April 1895, No. 78-Gl. :—

Adverting to Board's Proceedings, dated 21st March last, Mis. No. 1454, communicating G.O., dated 5th March 1895, No. 155, Political, passing orders on Board's Proceedings, dated 25th January 1895, No. 29, submitting report on the administration of the Laccadive Islands and Minicoy for fasli 1303, I have the honour to submit the following report on the different points therein referred to :—

Paragraph 6 of the Board's Proceedings, No. 29, dated 25th January.—The calculation of interest is shown in the subjoined statement :—

Date of loan.	Amount of loan.	Amount for which interest was calculated.	Period for which interest was calculated.	Amount of interest.	Remarks.
	RS.	RS.	M. D.	RS A. P.	
5th July 1893 ..	500	500	3-5	7 14 5	* Interest is calculated up to 25th June 1894, on which date the first instalment was paid.
10th October 1893 ..	5,000	5,500	5-3	140 2 7	
13th March 1894 ..	3,000	8,500	1-29	81 4 9	
10th May " ..	6,500	15,000	1-16	113 3 7	
Total ..	..	..	..	* 342 9 4	

Paragraph 2 of the Government Order.—The sum of Rs. 2,102 was, as presumed by the Board, municipal tax on behalf of Ali Rajah for the period ending December 1893, under orders from Government—vide G.O., dated 12th August 1893, No. 548, Political.

Paragraph 3 of the Government Order.—Cholera broke out on the island on the 23rd December 1893 and continued till the close of March. In February, when information of its prevalence was received, a supply of medicines was sent to the island and a portion of it was used by the amin to whom instructions for their use were sent out. It appears from the birth and death register of the island that 998 persons—442 males and 556 females—succumbed to the disease. At present it is not possible to trace the origin of the disease, as there was no medical officer on the spot, but enquiries will be made during the next inspection and the result reported.

Resolution—dated 4th May 1895, Mis. No. 2250.

Submitted to Government with reference to G.O., dated 5th March 1895, No. 155, Political.

2. The details of mortality from cholera on the Island of Androth during 1893-94, as now furnished by the Collector, confirm the estimate made in paragraph 4 of his administration report, and prove that about one-third of the whole population succumbed to this disease. A supply of medicines was sent to the island as soon as the outbreak was reported, but in the absence of medical assistance it is to be feared that the medicines were of small practical use in stopping the epidemic. The Collector promises to have enquiries made at the next inspection as to the cause of the outbreak, and the Board considers that the opportunity should be taken to instruct the islanders how to provide against the recurrence of such outbreaks and how to stamp them out, when they do occur, by taking the promptest measures with the very first case.

3. A set of very simple rules for the guidance of the islanders might be drawn up on the basis of the rules published in the Village Officers' Manual.

2. The suggestions in paragraphs 2 and 3 of the Board's Proceedings are approved and early action should be taken by the Collector in regard to the rules for the guidance of the islanders.
