Chemico-Legal Examination of Substances from Native States.

Communicating to the Public Department correspondence on the subject of the — adjoining
this Presidency by the Chemical Examiner, Madras.

GOVERNMENT OF MADRAS.

POLITICAL DEPARTMENT.

READ—again the following papers:—

G.O., Nos. 133, 134, Political, dated 1st March 1897.

ABSTRACT.—Approving the suggestion of the Resident in Travancore and Cochin as to the procedure to be adopted in forwarding substances from Travancore and Cochin for examination by the Chemical Examiner at Madras; and ordering, with certain remarks, transmission to Native States within and bordering upon this Presidency of the rules on the subject in force at Madras.

G.O., R. No. 115, Political, dated 5th April 1897.

ABSTRACT.—Forwarding to the Resident at Hyderabad three spare copies of G.O., No. 685, Public, dated 24th August 1893, containing the rules relating to chemico-legal examinations.

READ—also the following papers:—

From the Resident in Mysore, to the Chief Secretary to Government, dated Bangalore, 2nd April 1897, No. 1445.

With reference to your letter, No. 134, Political, dated the 1st ultimo, I have the honour to state that, as they have their own Chemical Examiner, the Mysore Darbar will not require assistance from the Chemical Examiner at Madras in the matter of chemico-legal examinations.

From B. MACLEOD, Esq., B.A., Political Agent for Pudukkottai, to the Chief Secretary to Government, dated Trichinopoly, 7th April 1897, Dis. No. 99.

With reference to the concluding portion of paragraph 2 of G.O., No. 133, Political, dated 1st March 1897, I have the honour to inform you that the Diwan states that the Chief Medical and Sanitary Officer of Pudukkottai State is the only officer on whose order the Chemical Examiner should take action.

From the Resident at Hyderabad, dated 14th April 1897, No. 2175.

From H. A. STUART, Esq., Acting Collector and Political Agent, Bellary, to the Chief Secretary to Government, dated 27th May 1897, Dis. No. 3121.

In reply to paragraph 2 of G.O., No. 133, Political, dated 1st March 1897, I have the honour to report that the designation of the officer on whose requisition the Sandur State would wish the Chemical Examiner to take action is the Administrator of Sandur State.

Letter to the Resident at Hyderabad, R. No. 1157, dated 1st June 1897, Political.

From the Resident at Hyderabad, dated 14th June 1897, No. 3352.

ABSTRACT.—Stating that His Highness the Nizam's Minister has been addressed regarding a chemico-legal examination of substances from Native States, and that his reply will be communicated on receipt.

From F. A. NICHOLSON, Esq., Acting Resident in Travancore and Cochin, to the Chief Secretary to Government, dated Trivandrum, 14th June 1897, Ref. on C. No. 1646.

With reference to G.O., No. 133, Political, dated 1st March 1897, I have the honour to report, for the information of Government, that I have communicated the orders contained therein to the British medical officers stationed in Travancore and Cochin and to the Diwans of those States. The Diwan of Travancore informs me, in reply, that there is a special Chemical Examiner in that State and that it will scarcely be necessary to send up substances to Madras for chemico-legal examination. Should, however, any such necessity arise, the transmission will be through the Darbar and not by the officers direct. For the guidance of the police and magistracy in the State, however, the Diwan proposes to introduce rules similar to those existing in Madras.

2. The Diwan of Cochin accepts the procedure laid down by Government for allowing the Chemical Examiner at Madras to undertake work on behalf of that State. The designations of the officers on whose requisition he would desire the Chemical Examiner to take action are the Superintendent of Police, Cochin, and the District Magistrates of Anjikamial and Trichur.

From E. A. ELWIN, Esq., Political Agent, Kurnool, to the Chief Secretary to Government, dated 8th July 1897, C. No. 95-P.

With reference to paragraph 2 of G.O., No. 133, Political, dated 1st March 1897, I have the honour to report that the Nawab of Banganapalle has appointed his Diwan as the officer under whose order he would wish the Chemical Examiner at Madras to take action.

Letter to the Resident at Hyderabad, dated 17th July 1897, R. No. 206, Political.

ABSTRACT.—Enquiring with reference to the Resident's letter, No. 3352, dated 14th June 1897, when a reply may be expected.

From the Resident at Hyderabad, dated 28th July 1897, No. 4245.

Letter to the Resident at Hyderabad, R. No. 254, dated 1st September 1897.

From T. CHICHELE-PLOWDEN, Esq., C.S.I., Resident at Hyderabad, to the Chief Secretary to Government, dated Hyderabad Residency, 3rd September 1897, No. 4927.

I have the honour to refer to correspondence ending with my letter, No. 4245, dated the 28th July 1897, regarding the chemico-legal examination of substances from Native States, and to forward, for the consideration of the Government of Madras, a copy of a letter, No. 1114, dated the 19th August 1897, and of its enclosure, received from His Highness the Nizam's Minister on the subject.

ENCLOSURES.

From His Highness the Nizam's Minister, Hyderabad, to the Resident at Hyderabad, dated the 19th August 1897, No. 1114.

Kindly refer to the correspondence ending with your letter, No. 1378, of 28th July 1897, regarding the chemico-legal examination of substances from Native States.

2. I now write to say that, under arrangements which have been sanctioned by His Highness' Government, the Director of Medical Department, who has the necessary apparatus, is entrusted with the duty of making all chemical analyses. Should it, however, be found necessary on any occasion to apply to the Chemical Analyser at Madras, there will be no objection to the rules in force in the Madras Presidency.

Political (1897) Department.

No. 603, POLITICAL, 11TH SEPTEMBER 1897.

3. Before issuing the necessary instructions to all officers concerned, His Highness' Government would like to know whether any modification of these rules is advisable in view of the suggestions made by the Director of His Highness' Medical Department, a copy of whose letter on the subject is enclosed.

4. On hearing that the amendments proposed are approved, the rules now in force in His Highness' dominions will be revised accordingly, and intimation will be given as to who are the officers who will be empowered to authorize the translation of substances to the Chemical Examiner at Madras in cases in which an analysis by that officer is considered necessary.

From Brigade-Surgeon-Lieutenant-Colonel C. C. LITTLE, M.D., Officiating Residency Surgeon, and Director, Medical Department, His Highness the Nizam's Government, Hyderabad (Deccan), to the Secretary to His Highness the Nizam's Government, Judicial, Police and General Departments, dated Hyderabad, 26th July 1897 (19th Sharawar 1306 F) No. 414 E.

With advertence to your letter, No. 954, dated 9th May 1897, on the subject of rules for the guidance of Medical, Police and Judicial authorities in connection with chemico-legal examinations, I am of opinion that the rules in force in the Madras Presidency fully meet the object in view and might, with advantage, be adopted by His Highness' Government with the following slight modifications.

2. At the end of paragraph 2 and after the words "adverse to such proceedings" the following sentence may be added: "In every case when any doubt exists, whether on the part of the Medical officer or the Magistrate or Police authorities, it is desirable to obtain the opinion of the Chemical Examiner." At the end of paragraph 1, section 2, after the words "interfered with" add: "An accurate description of the articles despatched, together with any particular marks on them for identification and accurate description of packing arrangements will obviate error in identification." Add footnote to the words "small phial" in paragraph 3, section 2: "Every article brought into actual contact with the material to be examined should be thoroughly clean and free from any alleged impurity." At the end of paragraph 6, section 2, add: "In all cases where earth has been added to the bottles, chatties, boxes, &c., or where the matters have to be removed from the soil, it is advisable to forward a few ounces of the earth as a specimen. This is specially necessary in the case of metallic or inorganic poisons." To paragraph 13, section 2, after the words "should be removed" also add: "As it is not possible with the naked eye to discover the difference between seminal and other stains on the foul clothes usually presented for examination, every stained part of the cloth should be forwarded."

3. In addition I would recommend that spirit of wine, manufactured indigenously 60° over-proof be employed in the packing of articles demanding its use, as it may be obtained comparatively cheap. A certain quantity of this (two gallons would be sufficient for experimental trial) should be supplied to each dispensary together with half-a-dozen large wide-mouthed, clear glass-stoppered bottles.

In issuing the above to districts a circular order should accompany the supplies stating that they are to be used for no other purpose than that specified.

4. I would further suggest that the form of *post-mortem* report in use in Berar—copy of which was forwarded to you with this office letter, No. 164, dated 20th March 1897—be also adopted, in which form medical officers should be required to enter the results of all *post-mortem* examinations.
