LOCAL AND MUNICIPAL DEPARTMENT.

# PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following papers:—

From the Political Department No.781,dated 14th December 1897 communicating letter from the Sanitary Commissioner stating that no vaccine lymph was supplied to the Cochin State by any of the depots under his control.

From the President,Municipal Commission,Madras,P.No.1756,dated 2nd February 1898.

With reference to your endorsement No.497,dated 15th January 1898, on current No.4329 M(herewith returned),I have the honour to submit as follows:-

3. Failure of preserved lymph is not necessarily due to the quality of the lymph.

3. There are many other factors-the length of time it was kept out of use after its despatch- the manner of its use- are some- but perhaps one of the most important is the skill of the Vaccinator. Success depends more upon the skilful operators than the lymph itself.

4. In the absence of any information on these points, I am unable to assign any reason for the failure of the lymph supplied to Cochin.

5. I may add that the glycerinated lymph is sent throughout the Presidency and even to Burmah and Ceylon.

ORDER No.586 M.Mis.,dated 16th February 1898.

The President's letter read above will be communicated to the Political Department.

(True Extract)

C. Elgin Stone

for Ag.Secretary to Government.

To

The Political Department.
