Tho Nilgiris

Sir

With reference to your letter No 77 dated 10th Instant I have the honour to inform you that from the history of the case, Lobetunde Khoka and Beg is suffering from Chronic Diabetes Mellitus though Sugar is not found every time the urine is examined

During my records to have every week and Sometimes oftener, he has been complaining of Neuralgia Debility Rheumatic pains toothache &c

He is a broken down old man and not likely to live long, though there is nothing dangerous in his present Symptoms.

Home Sickness a great factor at his advanced age has undoubtedly aggravated illness (True copy)

I have the honour to be
Sir
Your obedient Servant

C. No 318

SUBJECT.

CHITRALI - KHOKHAND BEG

FOR ORDERS.

A

In August 1897 the District Magistrate of the Nilgiris reported that Khokhand Beg, one of the Chitralis under detention at Cotacamund, was suffering from acute dysentry supervening on chronic diabetes and that detention was likely to have a prejudicial effect on the malady. These facts were reported to the Govt. of India in the telegram contained in G.O.No. 549 Political dated 14th August 1897. The Govt. of India replied on the 20th idem that the release of Khokhand Beg with liberty to return to Chitral would just then be highly inconvenient if not impossible because of the state of affairs on the frontier and the season of the year but that the question would be reconsidered in the cold weather if his release was then still asked for. In the meantime he might be allowed as much liberty as might be compatible with his not leaving the Nilgiris.

This

171

This telegram was communicated to the District Magistrate of the Nilgiris for information and guidance in G.O.No.273 Poll., d/27th August 1897. In paragraph 5 of his report d/7th January 1898, the District Magistrate of the Nilgiris noted on the state of health of Mohamad Beg. This report was forwarded to the Govt.of India with letter No.59 Poll., d/24th January 1898.

The District Magistrate now forwards for the consideration and orders of Govt, a report by the Officiating Civil Surgeon on the condition of this state prisoner. The Civil Surgeon is of opinion that there is nothing dangerous in the present symptoms of the disease from which Mohamad Beg is suffering, but that senile sickness, a great factor at his advanced age, has undoubtedly aggravated his illness and that there is no doubt that he is suffering from chronic diabetes mellitus. It seems inadvisable to again address the Govt. of India and it is therefore proposed to say
