Statement of the case of
Schooler Charles Caldwell at 39
Inspection of Schools.

On October 10th Mr. Caldwell requested me to prescribe for him saying that he had been just returned from a long visiting tour of duty and felt considerably knocked up. he complained chiefly of a dull & persistent pain or sense of weight in the upper part of the head accompanied ~~not considerable~~ ~~unwarranted~~ and derangement of the digestive organs which manifestly appear, to have been out of order for some time. I was unable of my own knowledge to state for how long a period this loss of health has existed, but the patient says that since November 1858 he has suffered from these symptoms in various degrees of intensity, being always the worse from travelling, and the migratory nature of his avocations did not permit him to put himself under

regular treatment; and
I find that during the past
year he has been from time
to time prescribed for by my
colleagues for this ailment.
As his illness has appeared to
be of some standing and to
be aggravated by travelling
I consider it would be worse
than useless to put the patient
under medical treatment
while moving about and
I have recommended him
to adopt measures for
remaining stationary for
some time with a view
towards taking remedies for
his recovery and to this end
I have granted him the follow-
ing certificate.

I H. E. Knistead Gillis
Surgeon Bonifantum do
hereby certify that E. S.
Caldwell Inspector of Schools
is in a bad state of health
and I solemnly and sincerely
declare that according to the
best of my judgment the
circumstances of his case
are such as to render rest

$\frac{1}{2}$ and exemption from duty
for the period of three months
highly desirable.

H. E. Busted

Gilliam Surgeon
