To, 23/ Madras 17 February 1857.

The Chief Secretary
to Government,
Fort St. George.

Sir,

We the undersigned Residents and Proprietors of landed property situated in Goodanum Panpurer Road & Vidavanayager Street Carriwalkum, leading to Perembore, have the honor to request you will do us the favor to submit the following representation to the Right Honorable the Governor in Council, with a view to the removal, in communications with the Municipal Commissioners of this City, of the nuisance hereinafter specified.

1. We have to state that the location in our midst, next to some, and immediately opposite (being only divided by the narrow street) to several of our dwelling houses and properties, of a ~~large~~ burial ground is at once injurious to our health, depreciation of the value of our property, and frequently attended with positive loss by the contamination of our houses.

2. The burial ground here allude to is that which under the sanction of Government, we believe in 1854, is appropriated for the interment of all denominations of Protestants Christians; and consequently the interments

interments are not a few what aggravates the nuisance, and renders our residences most insalubrious is that this is the third Burial ground in the neighbourhood and within a very limited area. A few yards immediately west of the street in which we reside and on which our properties are, is situated the Burial Ground, reserved for the interment of Members of the Communion of the Church of England, and a little further Northwest, another in connection with the Body of Dissenters worshipping in the Chapel in Davidson's Street - Black Town.

4. The objections to interment ~~from our side~~ are appreciated, requiring no further exposition from us, and considering the rapid increase of population in Puzoswalkum, especially of the East Indian Community, it behoves the authorities to diminish the draw backs to comfort and the risks to health, the vast population in Puzoswalkum are exposed to, by the situation in their very midst of the large Burial ground, above referred to in addition to the two smaller ones already specified.

We pray therefore that the Right Honorable the Governor in Council, on the Report of the Municipal Commissioners,

will

23/4

will be pleased either to appropriate the ground now allotted for interments, to some less injurious and more sanitary purpose, or at the least to afford us that relief of the nuisance, and positive loss we have reason to complain of, which may ensue from a prohibition against further interments.

We conceive the present time favourable to such a representation as we have above made, as the Presidency of Madras presents in many directions improvements promotive of the health and comfort of its inhabitants, and in many cases of a character which in no small degree enhances the value of landed property in general situations: we may fairly hope therefore that if no necessity has been perceived for conferring any positive advantages on us, by extending such improvements to our immediate neighbourhood, we may reasonably look to obtain that negative boon, which we now earnestly solicit, and have fully set forth above.

We are induced to address Government in preference to the Municipal Commissioners as we are under the impression the Burial ground in question

question was established under the
Special orders of Government in 1854.

We have the honor to be

Sir

Your Most Obedient &
humble servant.
