My dear Sir

I have just received God's order 22nd October confirming the sentence of death, or transportation, passed upon the Hyman & Jackals.

The Hyman were in the Turk Committee charge before the first order of God! on the subject was received and I am not of course either.

destroy the criminal
or tell them to do so.
Will you kindly help
me out of this diffic-
ulty. I don't like
to send you an offi-
cial on the subject
but the fact should
be for humanity's sake,
and a counteraction
before it is too late to
have too over now.
The facts I have
and of course will
deal with at once

Secretary to Government
Fort St. George

Sir,

With reference to Government
Order N^o 1379 dated 5th October 1861, I have
the honor to report that the Chortas
and Hyanas were made over to the
Park Committee on the 28th September
1861, and as the latter ^(the Hyanas) are no longer
in a position to be offensive they
do recommend that they be retained.

2. It is quite true that
both the Hyana and Jackal are
sufficiently numerous to merit the

me have the

The

name of common animals, but
they are animals which usually
skulk during the day and which
hardly one person in a thousand
would have a chance of seeing
unless in a Zoological Garden.

I have travelled a good deal myself
but I have not seen a Hyena -
since 1837 except those that were lately
in the Garden of the Museum. Those
who take an interest in the study
of Natural History require to have
as complete a series as possible in
a state of Captivity; - perhaps Govern-
ment will not therefore enforce
the order contained in Para 3 of
the order under reference now that
the animals have been removed.

It is almost unnecessary to observe
that the Jackal is no more in-
offensive than the Dog found
in every house, and that although
people

people living near the borders of the
Presidency often hear the Jackal at
night they very seldom have an
opportunity of seeing one and there-
fore probably but for a moment and from
a distance.
