620. ORDER THEREON, 26th September 1865, No. 2,847.

CIVIL WORKS, No. 82.

1. In paragraph 5 of Proceedings No. 2,049, dated 16th July 1864, the Superintending Engineer of the 4th Division was requested to submit plans and estimates for carrying out certain suggestions made by the Sanitary Commission in respect to the position and arrangement of the four sets of lavatories and latrines which remain to be built at the General Hospital. In reference to this requisition Colonel Boileau, on the 24th January last, submitted plans of the proposed works, together with a letter from the Sanitary Commission, desiring some alterations in detail, which, Colonel Boileau was of opinion, should be attended to during construction. The Government in Proceedings of 16th February 1865, No. 467, approved of the plans, subject to the modifications suggested by the Commission; and in his letter above recorded, Colonel Boileau submitted the estimates for the works amounting to Rupees 25,760, or Rupees 8,600 in excess of the sum originally provided for them in the general estimate for the General Hospital.

*Proceedings of the Madras Government, Public Works Department,
26th September 1865.*

2. The Government approve of the revised estimate submitted, and as the excess is within 5 per cent. of the sanctioned estimate* for the General Hospital improvements, the sanction of the Government of India is unnecessary.

* Rupees 2,49,209.

3. It is observed that the Superintending Engineer does not consider any addition to the Budget provision for the current year immediately necessary to enable him to proceed with the lavatories and latrines.
