

MADRAS RECORD OFFICE.

Government of Madras.

Public DEPARTMENT.

G.O. No.	1282	Press Mis.
Dated	19-12-	1965.

Not to be folded or roughly handled

No. 52. Read the following extract from the monthly Report of the General Superintendent of Vaccination, dated 1st December 1865.

“ On the 24th,* I asked for and obtained a personal interview with the Rajah, to whom I explained the object and benefit obtained by vaccination,

* November.

and, after a little persuasion, I succeeded in getting His Highness to submit his daughter, a little girl, of about two years of age, and the Rajah's brother, a boy, of about 14 years of age, to be operated on, from fresh lymph obtained from my servants. This excellent example on the part of His Highness the Rajah has the happiest effect on his followers and servants, for, immediately after, they began bringing in their children one after another throughout the day, so that I had the opportunity of vaccinating at the Palace and its vicinity 55 children during that day from arm to arm.

2. I am happy, also, to add that, at my suggestion, His Highness the Rajah has agreed to employ a Vaccinator on his Estate, and I purpose, on my return to the Presidency, to send him a qualified man for employ within the sphere of his Zemindaree. I hope the Government will be pleased to notice favorably the excellent example set by his Highness the Rajah of Punganoor, in not only having members of his own family vaccinated, and thus setting a good example to the people, but in agreeing to employ a Vaccinator for the benefit of his Estate, so as to prove a stimulus to other Rajahs and Zemindaree proprietors to do likewise.

(True Extract).
