

MADRAS RECORD OFFICE.

Government of Madras.

Relief DEPARTMENT.

G.O. No.	1283	Press ~~Mis.~~
Dated	19-12	1965.

Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Department,
19th December 1865.*

No. 54. From HERMANN DE SCHLAGINTWEIT, Esq., to the Chief Secretary to Government, Fort Saint George, Madras; dated Munich, Theresenssasso 75, Bavaria, 7th November 1865.

I have the honor to inform you that a new plate of my "Meteorological Illustrations" has been finished now, which at the same time forms the conclusion of the set of which Government had allowed me to send out, by order, 100 copies of each plate.

2. I request the favor, that also, of the present plate, 100 copies may be subscribed for by Government.

The objects represented on this plate are:—

(1.) The distribution of temperature in the Hill stations of India, as well as of the Himalaya.

(2.) The decrease of temperature, with height, all over the mountainous regions to the north of India, including Tibet and a part of Turkistan.

(3.) Diagrams showing the daily and annual variation of temperature in various Indian Stations: herewith all details in reference to distribution of temperature are worked through.

3. I trust Government will dispense me for this time of the presentation of a copy together with my request; considerable delay would be caused by it, since the printing of the colour-plates is still in progress.

4. As Government has kindly done so in connexion with my last despatch, I request the favor, this time too, that the value of these plates, at 2 Rupees=200 Rupees, might be made payable at London through the Secretary of State for India to my Agents: this time, *T. and R. McCrackon*, 38, *Queen Street, Cannon Street, West London*. After reception of the case containing the respective plates, viz., 100 copies of Plate IV of the Illustrations of Indian Meteorology.

P. S.—As I do not know Dr. Edward Balfour's address, I allow myself to request you kindly to forward to him this slip of paper, together with the impression of an ammonite called after him.

MY DEAR DR. BALFOUR,

I profit by the occasion presented to me by an official correspondence for sending you a proof (most sincere, unimportant as it is) of our lively remembrance and high esteem. In the 4th Volume of the results now ready, you will also find your name duly mentioned with many Meteorological materials. My brother Ernest, the Philologist, has sent some time ago Buddhist Memos. to the Literary Society of Madras. Could you do him the favor of proposing him as correspondent. He is member of our Munich Academy of the Royal Asiatic Society of London and of Paris, &c.

My best compliments, most truly.

MUNICH, BAVARIA,
THERESSENSASSO, 75,
7th November 1865.

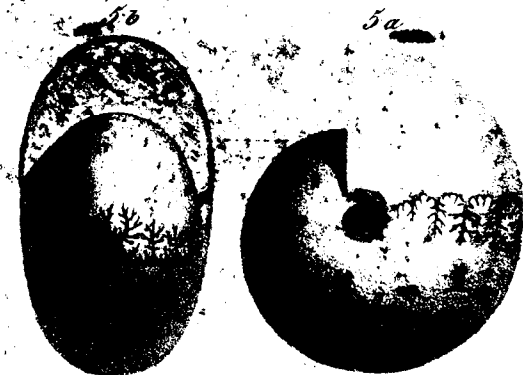

(Signed) H. DE SCHLAGINTWEIT.

*Proceedings of the Madras Government, Public Department,
19th December 1865.*

No. 55. To HERMAN DE SCHLAGINTWEIT, Esq., Munich Bavaria, dated
Fort Saint George, 19th December 1865, No. 1283.

In acknowledging the receipt of your letter of the 7th ultimo, I am directed
to send you the annexed extract from a Despatch from the Secretary of State for
India, under date the 29th September 1864, No. 35, by which you will observe the
Madras Government are prohibited from receiving any books or papers or enter-
taining any application from you. Your present application should be addressed
to the Secretary of State.

(Signed) A. J. ARBUTHNOT,
Chief Secretary.

*Received by the Secretary
from the Madras Govt. 19th Dec. 1865.*

Saxonia,
Nov 1861.

20
I have the honor to in-
form you that a new plate of
my entomological "Protestation"
has been finished now which,
at the same time, forms the
conclusion of the set of which
Government had allowed me
to send out, by order, 100 copies
of each State.
I request the favour
that also of the present plate
100 copies may be submitted

for the Government.

The objects required on this plate are:

1) The distribution of temperature in the Himalayas, of India as well as of the Himalayas.

2) The decrease of temperature with height all over the mountainous regions to the North of India, including Tibet and a part of Turkistan.

3) Diagrams showing the daily and annual variations of temperature in various Indian stations,

— herewith all the details in reference to distribution of temperature are worked through.

3. I trust Government will excuse me for this time of the presentation of a copy of the plate with my request; considerable delay would be caused by it since the printing of the colour-plates is still in progress.

4. As Government has kindly come so in connection with my last despatch, I request the favour, this time, that the value of these plates, at 200 Rs. = 2000 Rs., might be made payable at London through the Secretary of State.

for Berlin to my agents,
this time, I send R. McCracken
38 Queen Street, Cambridge

Mass,
London,
after receipt of the case
containing the respective
plates, viz. 100 copies of
"plate IV of the Illustration
of German Meteorology".

I have the honor
