2. The estimate of the Superintendent of Police, amounting to Rupees 6049-14-0, has been examined, and is found correct. The cause of the excess of Rupees 83-14-0 over the charges sanctioned by Government in their Proceedings of the 9th May 1866 is shown in the margin.

From the President of the Municipal Commission, Mangalore, to the Inspector General of Police ; dated Mangalore, 4th July 1867, No. 19.

With reference to paragraphs 3 and 4 of Government Order, No. 676, dated 13th June 1867, I have the honor to submit, herewith, copy of the original estimate of charges for the Municipal Police of this town for the official year 1867-68, furnished to the Commissioners in April last by Captain Drever, then in charge of the South Canara Police, together with a letter addressed by Captain Baillie on the 22nd instant, and the revised estimate therewith enclosed, and request you will forward the same to Government with such remarks as may appear to be called for.

2. The Commissioners observe that out of the difference of Rupees 633-14-0 between the estimates of the present and the past year, an increase of Rupees 550 only is explained in Captain Baillie's letter, the remainder being still unaccounted for.

*Proceedings of the Madras Government, Public Department,
5th October 1866.*

Read the following :—

68. MINUTE by the Right Honorable the PRESIDENT, dated 20th September 1866.

On occasion, on my recent passage through Coimbatore, to visit the Civil dispensary at that place, and I was extremely concerned to remark the indigence, such disorder which prevail in that Institution.

exercised over only five in-door patients, one of whom was a woman with her places where state does not at all correspond to the probable necessities of a these papers witness twenty and thirty thousand inhabitants. It implies a exert their influence part of the population, and a want of efficiency on the Institutions.

The male Ward, such as bedsteads, pillows, coverlids, &c., and deteriorated. The body of one patient, suffering from fever, was filthy in the extreme. The rest were probably little better from itself was dirty. The Medical Stores were slovenly or ill-arranged registers were imperfectly kept, or not written up. The single bed was lying on the floor, in an apartment partly filled with rubbish and furniture, more like a beggar in a Chuttrum than a female patient in a Hospital under civilized and Christian superintendence.

I was shown an empty room, which, I was told, belonged to the sick of the Police; but there were no Police patients on the premises, though about twenty men were off duty on account of illness, and were treated in their Lines—a system which cannot, I imagine, be advantageous either for the sick or the Physicians.

I pass over this at present, for I understand that difficulties are attached to the treatment of the Police in Civil Dispensaries. Those difficulties ought not to

5. My reflections on the discreditable state of the Dispensary were met by Assistant Surgeon Roberts with the simple assertion that its resources were restricted to the sum of Rupees 70 per mensem, the interest of Rupees 20,000, originally subscribed by the public at Coimbatore for the support of the Institution; reference to the monthly accounts of the Hospital showed that the sum referred to was punctually disbursed for the most indispensable objects.

There is no current subscription whatever at Coimbatore for the support of the Hospital.

I do not think that the poverty of the Institution exonerates the Assistant Surgeon and the Native Apothecary from the charge of indifference and negligence in the discharge of their duties; but the Assistant Surgeon has recently come to the end of his term, and the Apothecary has, I believe, applied for his retirement. There is no doubt that a want of resources, which stimulates some minds to additional exertion, has a depressing effect upon others. I am willing, on this occasion, to take a moderate view of the conduct of Mr. Roberts, and I prefer to look to the improvements of the future, rather than to the errors of the past.

6. In my recent tour to the North, I have received an unsatisfactory impression of the state of the Civil Dispensaries. I may have been unlucky; but I fear that these establishments are on a low footing in general, and that there is a certain want of professional zeal and pride on the part of the Medical Officers of all ranks.

From Captain J. E. BAILLIE, Superintendent of Police, South Canara, to the President of the Municipal Commission, Mangalore; dated 22nd June 1867, No. 82.

With reference to paragraphs 3 and 4 of Government Order, No. 676, 13th June 1867, Public Department, I have the honor to inform you that, in the estimate of Municipal Police charges for the year 1867-68 submitted to you from this office, a sum of Rupees 50 on account of station-house, furniture, &c., was, through some misunderstanding, entered in the column of monthly costs, and this, multiplied by 12 months, included in the annual payments—hence, an increase in the estimate.

2. I now beg to forward a fresh estimate, which I request you will substitute for the one under remark.

No. 141. From the President of the Municipal Commission, Mangalore, to the Acting Chief Secretary to Government, Fort Saint George; dated Mangalore, 31st July 1867, No. 6.

In acknowledging the receipt of G. O., No. 676, dated 13th June 1867, Public Department, I have the honor to inform you that, in accordance with instructions contained in paragraph 4, I have duly forwarded to the Inspector General of Police copy of the original estimate of charges for the Municipal Police of this town furnished to the Commissioners in April last by Captain Drever, then in charge of South Canara Police, together with the letter addressed by Captain Baillie on the 22nd ultimo, and the revised estimate therewith enclosed.

2. I have also the honor to submit, herewith, a list of persons proposed to be appointed Commissioners for the current year. With the exception of four, all of them are on the list of Commissioners gazetted for the past half-year, and have only to be re-appointed for this year; the continuance in office of members already acquainted with the working of the Act being deemed desirable.

3. As regards the necessity for raising for the current year a sum exceeding the estimated expenditure by Rupees 1628, exclusive of the balance in hand, amounting to Rupees 2990, I beg to state that the Commissioners are of opinion that it is desirable to have a considerable surplus left at their disposal during the first few years, in order to enable them to meet the extraordinary expenses of executing various improvements of a permanent character which are greatly needed for this town. They were not, however, prepared to state in detail the probable outlay of such works at the time of submitting the estimates, which were called for by telegram. The following are some of the works intended to be undertaken this year:—

I. Erection of public latrines.

II. Constructing and facing open drains in several streets.

III. Erection of 2 markets to suit 200 sellers each.

IV. Erection of a large shed for municipal carts, tools, &c., which require protection from the monsoon.

V. Construction of toll-bars.

Add Rupees 100, being the amount of rent for office, not included in the original estimate.

4. The coolies now employed in cleansing the streets cannot be induced to remove night soil. As soon as coolies who will undertake to perform this business thoroughly can be imported from other Districts, it is proposed to organize a thorough scavenging system. This organization, though at present necessarily in abeyance, is considered of the first importance. The experience of other towns shows it will be expensive.

5. The roads, too, require to be repaired more efficiently than heretofore.

6. The statement of actual receipts and charges for the past half-year, called for in the Official Memorandum of the Acting Under Secretary to Government, Public Department, dated 25th July 1867, No. 222, will be submitted as soon as the accounts of the past half-year have been audited, as directed in Government Proceedings, No. 112, dated 11th July 1867.

*Proceedings of the Madras Government, Public Department,
5th October 1866.*

This defect requires to be corrected by the admonitions and encouragements of the Medical Inspectorate, and by a livelier interest in the welfare of the Dispensaries on the part of the Members of the Civil Service and of the Native Community.

7. The Dispensaries receive their Medical Officers and their Medicines from Government; for all other objects they depend on private subscriptions. It is, therefore, impossible to enforce an absolutely uniform system of apparatus and furniture; much will still depend on local circumstances.

8. I think, however, that the Principal Inspector General should issue a Circular Instruction to his Medical Subordinates, stating the description of bedding, hospital furniture, and hospital dress, which it is desirable to have in the Civil Dispensaries for men and women, enforcing a higher view of professional duty than that which has recently prevailed, and enjoining the Medical Officers to promote the contemplated improvements by every means in their power, in conjunction with the Civil Officers of Government.

9. With respect to the particular case of the Dispensary at Coimbatore, I wish a copy of this Minute to be forwarded to the Collector, with an expression of opinion on the part of Government that his influence with the people of the town might properly be employed with the view of raising (1) a subscription of about Rupees 1000 to renew and improve the furniture of the Hospital, and (2) a current monthly subscription of about Rupees 100 to maintain it in a state of efficiency and decency.

10. Such moderate efforts on the part of the Native Community are not without example. At Cuddapah, I understand that there is a model Civil Dispensary. There is no reason to suppose that the people of Coimbatore are deficient in liberality. The original subscription for the endowment of the Dispensary reflects credit on them, and they would probably obey an impulse judiciously given by the local authority.

(Signed) NAPIER.

No. 69. ORDER THEREON, 5th October 1866, No. 1018.

Ordered that a copy of the foregoing Minute of the Right Honorable the President, be forwarded to the Principal Inspector General, Medical Department, and the Collector of Coimbatore.

2. Dr. Roberts' recent appointment may be accepted as in some degree an excuse for the miserable condition of the Dispensary; but he must clearly understand that the Government expect much greater attention to the Institution on his part, for the future.

3. The Principal Inspector General will take due notice of the Apothecary's conduct.

4. The Principal Inspector General will adopt the measures proposed in paragraph 8 of His Excellency's Minute, and will ensure the periodical inspection of these Institutions wherever they exist. The reports of these inspections should be sent to the Principal Inspector General (copies being furnished to the Collector) as soon as practicable and, at the close of each year, they will be duly noticed by him in his annual report to Government.

*Proceedings of the Madras Government, Public Department,
5th October 1866.*

5. The Collector of Coimbatore will use his influence with the people of Coimbatore, with the view of raising funds, as suggested in paragraph 9 of His Excellency's Minute.

6. These Proceedings will be circulated to all Collectors, for their information.

7. There can be no question of the great amount of good which Civil Dispensaries are calculated to work, if they are properly managed; but the success of such Institutions depends largely on the interest taken in them, and the supervision exercised over them, by the Public Functionaries, European and Native, of the places where they are established. The Government trust that the circulation of these papers will serve to remind their Officers of the obligation they are under to exert their influence in properly maintaining, as well as originating, such useful Institutions.

MUNICIPAL COMMISSIONERS' OFFICE,
MANGALORE, 31st July 1867.

(Signed) H. S. THOMAS,
President.

No. 142. ORDER THEREON, 20th August 1867, No. 1018.

The estimated total expenditure for the Municipality of Mangalore for the year ending on the 30th April 1868, adopting the revised rates of Police charges approved by the Inspector General of Police amounts to Rupees 14,162-5-4. To meet this expenditure, the Commissioners propose to raise Rupees 12255. This sum with the Government contribution at the rate of 25 per cent. on the whole amount to be raised and expended during the year, or Rupees 3540-9-4, will place Rupees 15,795-9-4 at the disposal of the Commissioners, exclusive of Rupees 2990 due on account of house and land rate uncollected during the past year.

2. The Police charges will be Rupees 6049-14-0. A sum of Rupees 3238 is to be expended on conservancy; Rupees 1606 on repairs of roads and drains; and Rupees 1116 on office establishment.

3. The requisite funds are to be raised by rates on houses and lands, a trade tax, tolls, and registration of carts and licenses.

The following Notification will accordingly be at once published:—

NOTIFICATION.
