*Proceedings of the Madras Government, Public Department,
8th October 1866.*

No. 73. Read the following letter from the Secretary to the Board of Examiners, to the Chief Secretary to Government, Fort Saint George; dated Madras, 28th September 1866, No. 440.

I am directed by the Board of Examiners to lay before Government the result of the last Quarterly Examination of Civil Servants, which was held on the 26th instant.

2. Three gentlemen presented themselves on this occasion, for examination in the Tamil language.

3. The marginal table exhibits, in the order of merit, the names of the gentlemen reported qualified for the Public Service in Tamil. The usual Tabular Statement, copy of which accompanies, has been forwarded to the Fort Saint George Gazette, for publication.

No.	Names.	Date of arrival.	Date of Examination.	Remarks.
1	Mr E. L. Pearse...	6th Nov. 1865.	26th Sept. 1866.	Passed in Telugu, 9th April 1866.
2	„ W. F. Grahame ...	4th Jan. 1864.		Do. do., 23rd May 1866.
3	„ W. J. H. LeFanu...	28th Oct. 1865.		Do. do., 9th April 1866.

4. Referring to paragraph 23 of the Rules for the examination of newly appointed Members of the Madras Civil Service, I am directed to request that the second increased rate of allowance may be passed to Messrs. Pearse, Grahame, and LeFanu, from the date of their examination, viz., the 26th instant. The necessary provision has been made in the Budget.

5. Messrs. Pearse, Grahame, and LeFanu are available for the Public Service.

Tabular Statement showing the names of the Junior Civil Servants who have passed the examination in Tamil held on the 26th instant.

Read the following papers :—

No. 147. From the Collector of South Arcot, to the Acting Chief Secretary to Government, Fort Saint George ; dated Cuddalore, 17th July 1867, No. 36.

Some time ago my Sub-Collector, Mr. Hathaway, wrote to me, stating that the people of Chellumbrum (the Cusbah station of an important Taluq in this District) were desirous of organizing a Dispensary in their town, and it was added that 5000 Rupees had been subscribed towards the object.

2. The proposal is, that for the present the Dispensary should be simply experimental, and that every expense attending the organizing of the institution should be borne by the subscribers, Government providing only a Dresser and medicines. After the lapse of a year the institution is to be placed on a permanent footing, should experience justify the adoption of such measure.

3. From recent papers received from Government, I am apprehensive that, however disposed to supplement the efforts of the applicants, Government are not in a position to do so, and that there is no Dresser available to dispense medicines and to take charge of the proposed institution ; but I may observe that the large town of Chellumbrum is a proverbially unhealthy place, and is at all times liable to outbreaks of epidemic disease, and cholera, fevers, &c., prevail there perhaps more frequently than in other parts ; so that if it be in the power of Government to assist in the object as solicited, I do not think their help and support could be given to an object of the kind more really deserving of it, or where they would be more appreciated.

4. The subscriptions raised have been invested in the Savings' Bank at my instance, until the feasibility of establishing the Dispensary be finally determined.

5. I have thought it as well to submit, for the information of Government, the enclosed copies of correspondence* on the subject, which has passed between Mr. Hathaway and myself.

* From Sub-Collector, No. 189, dated 11th May 1867.
To do. No. 423, dated 18th do.
From do. No. 207, dated 22nd do.
To do. No. 460, dated 25th do.

From the Acting Sub-Collector of South Arcot, to the Collector of South Arcot ; dated Chellumbrum, 11th May 1867, No. 189.

I have the honor to state that the people of Chellumbrum wish to organize a Dispensary for the use of that town, and have subscribed 5000 Rupees for the purpose.

2. I do not advocate the immediate expenditure of the subscriptions in erecting or purchasing a building as is often done, but I think it far better, in accordance with the wishes of the people, to make an experiment on a small scale at first, to see whether the people are really anxious to avail themselves of the advantages or not.

3. The mere fact of the money being raised is not a sufficient proof of this, as in too many cases it has happened that the people of the town, yielding to pressure more or less, have subscribed largely, and an expensive building has been obtained, but ultimately the people themselves have been found to be very backward in making any use of it, and have come to look upon it as a sort of charity for a few indigent Pariahs, or an occasional sufferer from a bad accident. This, I think, is a thing to be deprecated in every way ; there is no intrinsic good in a mere Dispensary itself, it being only of use as a means to an end, viz., that of the superior medical treatment of the people, so that unless this takes place, the actual existence of the Dispensary is not a thing to be advocated in any way, but is a mere waste of valuable money that might be better employed.

4. It follows, therefore, that the primary requisite is not the money of the people for erecting a Dispensary, but the desire to make use of it when it is erected, and the matter, therefore, is

28th September 1866.

*Proceedings of the Madras Government, Public Department,
20th August 1867.*

2. Dresser Rungasawmy Moodelly, specially applied for to take charge of the Dispensary, is a 1st Dresser. His services can be granted, if Government is prepared to add a man to *that* grade.

3. I fully concur in the remarks made by Mr. Hathaway in his letter, No. 189 of the 11th May last, as to the desirableness of renting a building, in the first instance, as an experimental measure.

No. 149.

ORDER THEREON, 20th August 1867, No. 1021.

With his letter above recorded the Collector of South Arcot submits a copy of the correspondence that has passed between the Sub-Collector of the District and himself, on the subject of a Dispensary which the people of Chellumbrum are desirous of establishing in their town, and towards which they have subscribed Rupees 5000.

2. It is, however, proposed that, for the present, the Dispensary should be experimental, the subscribers bearing the expense to be incurred in organizing the institution, and the Government providing a Dresser and the necessary medicines; and that, should the trial after the lapse of a year justify the measure, the charity should be placed on a permanent footing.

3. The Collector, in supporting the project, observes that "the large town of Chellumbrum is a proverbially unhealthy place, and is at all times liable to outbreaks of epidemic disease." Of the advantage, therefore, of a Dispensary in so populous a town there can be no question. The Government accordingly approve of the proposal to hire a building for the purpose, until it is ascertained whether the support promised to the institution is given.

4. In their separate Order of this date, No. 1013, the Government sanctioned the addition to the Subordinate Medical Department of two 2nd Dressers to be employed in the Bellary District. They now sanction a further addition to that Department of a Dresser of the same grade to be attached to the proposed Dispensary at Chellumbrum, and direct that the necessary application be made to the Government of India in the Military Department.

5. The Inspector General, Medical Department, will issue instructions for the supply of the requisite medicines as soon as the Collector of South Arcot reports that a suitable room for it has been set apart in the building to be engaged for the institution in question.

2. The proposal is
that for the present the Dispensary
should be simply experimental,
and that every expense attending
the organizing of the Institution
should be borne by the
subscribers, Government &
providing only a supply
of medicines. After the lapse
of a year the Institution
to be placed on a permanent
footing should experience
justification of the adoption of
such measures.

3. From recent papers
received from Government I
am apprehensive that, however
disposed to supplement the
efforts of the applicant, the
Government are not in a
position to do so, and that
there

there is no supply available to
dispense medicines and to
take charge of the proposed
institution; but I may observe
that the large body of
Chinamen is a practically
unhealthy place and is at
all times liable to outbreaks
of epidemic disease. The local
bodies for prevent this perhaps
more frequently than in other
parts, so that it will be in the
interest of Government to assist
in the object as solicited.
I do not think their help &
support could be given to an
aid of the kind more
really deserving of it, or
which they would be more
apt to appreciate.
