G.O. No.	<i>1028</i>	Press ~~Mis.~~
Dated	<i>9-10-</i>	<i>1866.</i>

*Proceedings of the Madras Government, Public Department,
9th October 1866.*

No. 87. Read the following letter from A. WEDDERBURN, Esq., Collector of Bellary, to the Secretary to Government, Fort Saint George; dated Bellary, 30th September 1866, No. 73.

I have the honor to submit a proposed Notification, regarding the application of the Towns' Improvement Act to the Towns of Bellary and Adonic.

2. As regards the first, there are serious objections if the present Municipalities are so enlarged as to comprehend the whole of the extensive Cantonment and Civil lines. The repair of the roads about the Cantonment, including the value of Convict labor, is estimated to amount to Rupees 15,000 per annum, which could not be borne by the Municipality. The Major General has strong objections to the extension of Municipal control over Military buildings, &c., and is under the impression that a Cantonment Improvement Act is under the contemplation of the Supreme Government.

3. If these objections are over-ruled by Government, the assets are reckoned at Rupees 27,827,* and the charges at Rupees 25,785,* as will be shown hereafter in detail.

* Excluding Government share.

4. If the above objections hold good, and the Municipality is confined to its present (voluntary) limits, the assets will be 21,267†, and the net charges 20,726†.

† Excluding Government share.

The object of the Towns' Improvement Act, as distinguished from the voluntary Municipal Association, now in force, is, that for the first the towns people are obliged to pay for their Police, which is said to be a more onerous charge in a town, than when the same population is spread over a country.

5. It may be observed that the benefit of the Police is confined to the present Municipalities, which are the Towns, the Cantonment, and Suburban residences forming the country, which are not much benefited by the Police, neither is the town greatly benefited by the extensive roads in the Cantonment.

6. There is little doubt that the outside residents, who derive their grain supplies from the town market, will, in the end, pay for the local taxation of the town, as the town residents or shop-keepers will raise the charges to meet their taxation. The following comparative lists show the details of income and expenditure, applied to each scheme; the expenditure, of course, being made to fit the probable income.

No. 88. ORDER THEREON, 9th October 1866, No. 1028.

The Governor in Council concurs with the Magistrate in considering it expedient to defer the introduction of the Municipal Act into Bellary and Adonic, at all events until the fourth quarter of the current official year. Mr. Wedderburn will address Government again on the subject, in December next.

2. The Government observe that charges for lighting the streets do not come within the scope of Section 25 of the Act. They wish also to know the meaning of the charge for medical attendance on the Police. The charge for superintendence is high. The need of a Cholera Hospital, and the proposed arrangements for the care of its inmates, should be explained. The Committee should not include non-residents, nor the Town Sub-Magistrates.

3. The information now called for can be submitted when the Magistrate addresses Government in December. He should then submit revised Committee lists, and a map showing the Military and Civil limits of Bellary.

(True Extract).

Secretary to Government Revenue Department
Madras

SIR,

I have the honor to submit a proposed notification regarding the application of the Town's improvement act to the Towns of Bellary and Channarayana.

1. As regards the first, there are serious objections if the present Municipalities are so enlarged as to comprehend the whole of the Extensive Cantonment and Civil lines. The repair of the roads about the Cantonment including the value of convict labour is estimated to amount to Rupees 15,000 per annum which could not be borne by the Municipality. The Major General has strong objections to the extension of Municipal control over certain buildings, and is under the impression that a Cantonment improvement act is under the contemplation of the Supreme Government.

2. If these objections are overruled by Government the assets are reckoned at Rupees 27,827, and the charges at 25,785, as will be shown hereafter in detail.

3. If the above objections hold good, and the Municipality is confined to its present or (voluntary) limits, the assets will be 21,267, and the net charges 20,726. The object of the Town's improvement act, as distinguished from the voluntary Municipal Association, now in force, is, that for the first the townspeople are obliged to pay for their police, which is said to be a more onerous charge in a town, than when the

same reputation is spread over a country.
 5. It may be observed that the benefit of the police is confined to the present Municipalities, which are the towns, the Cantonment and numerous residences forming the country, which are not much benefitted by the Police, neither is the town greatly benefitted in the extensive roads in the Cantonment.

6. There is little doubt that the outside residents who derive their grain supplies from the town market will, in the end, pay for the local taxation on the town, as the town residents or shopkeepers will raise the charges to meet their taxation. The following comparative list show the details of income and expenditure, applied to each scheme. The expenditure of course being made to fit the probable income.

7. The limits of the present Municipalities of Bellary are given for inclusion in the notification, if the Cantonment be excluded from the Towns Improvement Act.

8. I have only further to add that under the severe distress now prevalent, which enhances the cost of living to every person, I do not consider it to be a favorable time for introducing the changes but will of course act according to instructions.
