*Proceedings of the Madras Government, Public Department,
30th August 1867.*

No. 224. Proceedings of Government, Revenue Department.

Read letter from the Acting Government Solicitor, to the Under Secretary to Government, Revenue Department, dated Madras, 15th August 1867, No. 558.

I have the honor to acknowledge the Order of Government noted in the margin, with its enclosures, requesting the Advocate General's opinion as to whether Petitions to the Municipal Commissioners in the Mofussil require to be stamped under Act XXVI of 1867.

2. I have submitted the matter for the consideration of the Acting Advocate General; and

3. I now forward a copy of his Opinion, and return the order and enclosures above noted.

—
OPINION.

No stamp is required under Act XXVI of 1867, Schedule B., Clause 10, where the Petition is addressed to Municipal Commissioners other than those appointed for the Presidency Town. The notices issued by Messrs. Glenny and Wilson are clearly illegal.

(Signed) J. D. MAYNE,
Acting Advocate General.

*Proceedings of the Madras Government, Public Department,
17th October 1866.*

No. 148. Read the following letter from the Acting Supervisor, Government Press, to the Chief Secretary to Government, Fort Saint George; dated Fort Saint George, 13th October 1866.

I have to request that the sanction of Government may be obtained for the payment of the enclosed two bills which accompany this letter.

2. The first is a bill for lamp-oil, amounting to Rupees 63-4-0. The oil for ordinary use has hitherto been paid for from contingent allowances, but the quantity for which payment is now requested is far too large to be debited to contingencies. The use of it had been, however, rendered necessary by the night work involved in turning out much extra work, especially new forms of Accounts for three Departments: this work was, owing to its nature, lengthy and tedious, and it could not be given out, in consequence of one Firm having no Ruling Machine, and the charges of the other being too high.

3. The Offices of the Inspector General of Police and Registrar General have, hitherto, been charged for the oil actually used in printing the work sent by them, but, learning wisdom by experience, they, like the Heads of other Departments, manage to send their copy in a steady stream, instead of pouring in a vast quantity, requiring to be completed within a short time. It is impossible, in consequence of this procedure, to make a separate charge (as the whole work of the Press is thereby increased), or to say exactly on whom the cost for lighting should fall, or how it should be apportioned; the consequence is that the cost falls ultimately on the Press.

4. Provision will have to be made in the Budget for such contingencies in future.

5. The second bill, amounting to 45 Rupees, is for casting type. The order to cast this type from matrices then in the Government Office was given by Mr. Smith, the Superintendent. The type was intended for supply to District Presses on payment. The whole amount ordered to be cast was some 150 lbs.; of this, however, only 48 lbs. had been cast, when Mr. Morgan, who was before unaware of the order, countermanded the casting, type having been ordered out from England. The 48 lbs. of type in question was so bad as to be unfit for supply to the Districts, and can only be used for the roughest work in the Government Press.

6. It is an unfortunate loss to Government, but payment must undoubtedly be made, and it is not desirable to keep the Type founder out of his money.

From the Acting Superintendent, to the Acting Supervisor, Government Press; dated Fort Saint George, 12th October 1866.

I have to request you to obtain the sanction of Government for payment of the two bills sent herewith, no provision having been made for them in the annual estimates.

Oil for ordinary office use has hitherto been paid from the contingent allowance, but lately the Press has been employed night and day in turning out new sets of forms of Accounts for the Controller of Public Works, Accounts Military Accountant, and Examiner Pay Department.

This is all extra work, and has caused an extra consumption of oil for lights at night.

Bills for oil used in night work for the Mofussil Police and Registrar General have been paid at those Offices, the Police Budget always having a sum set apart for printing expenses.

The work could not be put out (principally forms which had to be ruled in red and blue), Graves, Cookson and Co. not having a ruling machine, and Gantz Brothers being far too high in their charges for such work.

*Proceedings of the Madras Government, Public Department,
17th October 1866.*

The type was ordered by Mr. Smith, two or three days before he left for England, to be cast from a set of matrices belonging to this Office, for one of the Collectorate Presses. These matrices are bad, and the type cast from them is unfit for use. As soon as I was informed that Deweltz had this order, I countermanded it, but he had already cast forty-eight pounds.

I cannot send a Bill to the Collector for type not delivered to him, and Deweltz says he cannot afford to lose his money.

The type may be used for printing headings, &c., on country paper, but is not fit for District Gazettes, or any book work.

Requesting instructions, I have the honor to be, &c.

No. 149. ORDER THEREON, 17th October 1866, No. 1065.

The Governor in Council sanctions payment of the two bills received with the foregoing letter, amounting in the aggregate to Rupees (108-4-0) one hundred and eight, and Annas four.

(True Extract).

Secretary to Government.

To the Supervisor, Government Press, with two bills.

The Chief Secretary to Govt

*From
The Dy. Supervisor, Govt Press.*

Sir,

I have to request that the sanction of Govt may be obtained for the payment of the enclosed two bills which accompany this letter.

1 The first is a Bill for lamp oil amounting to Rs 63-4. The oil for ordinary use has hitherto been paid for from contingent allowances, but the quantity for which payment is now requested is far too large to be debited to contingencies; The use of it has been however rendered necessary by the night work involved in turning out much extra work, especially new forms of Accounts for three Departments; this work was, owing to its nature lengthy and tedious, and it could not be given out in consequence of one firm having no ruling machine, and the charges of the other being too high.

3 The officers of the Inspector-General of Police, and Registrar-General have hitherto been charged for the oil actually used in printing the work sent by them, but, learning wisdom by experience, they like the Heads of other

4. Further to manage to send them copy-
ing in a steady stream, instead of printing, and
vast quantity, requiring to be completed
within a short time, it is impossible,
in consequence of this procedure, to make
a separate charge (on the whole work of the
Press is thereby increased) or to pay exactly
on whom the cost of lighting, should fall,
or how it should be apportioned; the con-
sequence is that the cost falls ultimately
on the printer.

4 Provision will have to be made
in the Budget for such contingencies
in future.

5 The second bill, amounting
to 140 £ is for casting type. The order to
cast the type from another set in the
Court Office was given by Mr Smith the
Superintendent, the type was intended for
supply to District. The amount of the
whole amount ordered to be cast was some-
150 £, of this however only 48 £ has been
cast when Mr. Rogers, who was before un-
aware of the order, came to demand the
casting, type having been sent out from
England. The 48 £ type in question
was ordered to be used for supply to
the District, and can only be used for
the roughest work in the Court Press.

6 It is an unfortunate loss to Court,
but payment must undoubtedly be made,
and

and it is not desirable to keep the type
founder out of his money.

I have the honor to be
Sir

Your Most Obedient Servant

J Brandt
