*Proceedings of the Madras Government, Public Department,
5th September 1867.*

No. 52. Read the following letter from the President of the Municipal Commission, Cocanada, to the Acting Chief Secretary to Government, Fort Saint George; dated Cocanada, 24th August 1867, No. 30.

With reference to Section 127 of the Towns' Improvement Act, and the accompanying plan, being transcript of a portion of a large plan of the ground within the municipal limits of Cocanada on the scale thereon noted, I have the honor to draw the attention of Government to the spot marked A, and to request sanction for the entire removal of these huts, after payment of reasonable compensation to the occupants, and providing them with sites in an unobjectionable locality to build new huts on.

2. The huts are now occupied by fishermen, and are huddled together so irregularly and closely as to render it absolutely impossible to keep the spot clean or drain it, and proper ventilation is impossible. They are a positive nuisance to the neighbourhood from the filthy habits of the dwellers in them.

3. To render it possible to have this spot kept clean and properly ventilated, for which purpose two straight passages at right angles to each other must be opened out, would remove at least half the huts. I, therefore, think it would be better to remove the whole at once and sell the site, which is public property, to any one inclined to erect a house or godown on it, such as would not be a nuisance to the neighbourhood.

—

No. 53. ORDER THEREON, 5th September 1867, No. 1093.

Under the provisions of Section 127 of the "Towns' Improvement Act, 1865," the Governor in Council sanctions the removal of the block of huts situated on a piece of land between the houses of Messrs. LeFaucheur and Linares in the Municipality of the Town of Cocanada, on reasonable compensation being made to the owners of the huts, and sites being provided for the re-erection of the huts in an unobjectionable locality, convenient for the exercise of the profession of the persons dispossessed.

The object of the Exhibition is to bring together, for show and competition, cattle and other live stock, agricultural implements and machinery, articles of Indian agricultural and forest produce, and specimens of industrial manufacture and art; and also to afford an opportunity of comparison between the productions of the North-Western Provinces and Oudh and the dominions of the Chiefs of Central India and Rajpootana. The Exhibition will be arranged in five Departments :—

- I.—“ Live Stock.”
- II.—“ Agricultural and Animal Products.”
- III.—“ Forest and Mineral Products.”
- IV.—“ Machinery and Implements.”
- V.—“ Arts and Manufactures.”

These Departments will be severally sub-divided as shown in the classified list appended.

The Exhibition will be opened on Monday, the 4th of February, and will be closed on Saturday evening, the 9th idem.

On the last day (9th) there will be an Exhibition of Flowers, Fruits, and Vegetables; and on the afternoon of that day the Prizes will also be publicly distributed.

A detailed classified list of each kind of animal and article for which prizes are offered, with the value of the prize to be competed for in each class, will be published at an early date.

The Exhibition will be open to competitors from all parts of India.

Judges will be appointed for each Department, and the prizes will be adjudged on Friday and Saturday, the 1st and 2nd of February.

The Committee will take charge of all live stock, and will provide their food from the date of arrival in the Show-yard until the close of the Exhibition.

The principal object in encouraging the Exhibition of live stock being the improvement of breed, consideration will be chiefly given to that point when awarding prizes.

In judging the merits and superiority of machinery and implements, regard will be especially directed to durability, economy, and adaptation to the requirements of the country.

Local and Divisional Committees have been formed, for the purpose of aiding the Central Committee in the collection and selection of live stock and articles for exhibition, and for the arrangement of the despatch of animals, &c., from their several circles to Agra.

The freight of all live stock and articles sent by rail, road, or water to the Exhibition, compensation for breakage, and losses after delivery to Local Committee, Railway tickets for poor contributors or their servants in charge, and road expenses for live stock will be advanced by the Local or Divisional Committee of the Circle in which the exhibitor resides, and carefully-prepared accounts of all such expenditure must be kept by them. The Central Committee will be responsible for, and will compensate exhibitors on account of, loss or damage to live stock and goods which may ensue after the property has been received in the Exhibition-yard.

Curators will be appointed to take charge of live stock and articles which shall, by the approval of the Committee, be admitted into the Show-yard for exhibition.

Proceedings of the Madras Government, Public Department,
24th October 1866.

The Lieutenant-Governor looks to all Officers of Government in these Provinces for their hearty support and co-operation, and His Honor enjoins on all Officers in charge of Districts and Local and Divisional Committees careful attention to, and prompt and full compliance with, the wishes and requisitions of the Central Committee.
