Proceedings of the Madras Government, Public Department,

11th December 1866.

No. 26. Read the following letter from the Chemical Examiner, to the Chief Secretary to Government, Fort Saint George; dated Madras, 28th November 1866, No. 206.

The noxious gases given off from the decomposing substances which are constantly being submitted to me for chemical examination in judicial cases, and also the offensive compounds generated by the treatment I have to submit them to in seeking for poisons, render at times the atmosphere of my Laboratory most unwholesome—in fact, I have just been suffering from a severe attack caused by working in this poisonous atmosphere.

2. This would be obviated by the construction of an air-tight cupboard, in which these substances might be kept and submitted to the necessary treatment.

3. I have, therefore, the honor to solicit the favor of the sanction of Government for the construction of such a cupboard by the Barrack Master's Department. If this sanction be accorded, I can explain to that Officer the kind of arrangement required.

No. 27. ORDER THEREON, 11th December 1866, No. 1253.

The Barrack Master will be good enough to comply with this requisition,
(True Extract).

Chief Secretary.

To the Barrack Master.
,, Chemical Examiner.

Exd. J. H. Burns.

N^o 206.

Madras 28th November 1866.

From, J. Wyndome Esquire M. D.
Chemical Examiner.

To, The Chief Secretary
to Government
Fort Saint George.

Sir,

The noxious gases given off from the decomposing substances which are constantly being submitted to me for chemical examination in judicial cases, and also the offensive compounds generated by the treatment I have to submit them to in seeking for poisons, render at times the atmosphere of my Laboratory most unwholesome, in fact I have just been suffering from a severe attack caused by working in this poisonous atmosphere.

2. This would be obviated by the construction of an air tight cupboard in which these substances might be kept and submitted to the necessary treatment.

3. I have therefore the honor to solicit the favor of the sanction of Government for the construction of such a cupboard by the Barrack Master's Department; if this sanction be accorded I can explain to that officer the kind of arrangement required.

I have the honor to be
Your most obedient servant
J. Wyndome Esq.
Chemical Examiner
