*Proceedings of the Madras Government, Public Works Department,
26th November 1866.*

No. 538. Read the following letter from the Superintending Engineer, 4th Division, to the Secretary to Government, Public Works Department, dated Madras, 16th November 1866, No. 3,140 :—

1. As directed in Government Order No. 1,604, dated 18th May 1866, I have the honor to submit herewith a plan, a specification, and an estimate amounting to Rupees 12,720, for making certain alterations and additions to the Leper Hospital premises at the Presidency.

1 Plan.
1 Abstract Estimate.
1 Specification.

The estimate provides for—

1. Constructing four bath-rooms with asphalted floors.
2. Altering five privies and putting up ridge ventilators, constructing dry earth receptacles, and supplying galvanized iron buckets.
3. Laying asphalt to the floors of the three Native male wards.
4. Sinking two wells, and cutting the compound wall and fixing doors, and
5. Constructing a breast wall with iron railings for enclosing the compound.

This last item, which is estimated to cost Rupees 6,340, was not ordered by Government; but was included in the estimate by the Executive Engineer at the request of the Surgeon of the Hospital, made through the Barrack Master at the Presidency.

2. The items numbered 1, 2, 3, and 4 have been commenced, and are rapidly approaching completion. The Executive Engineer has been called upon to explain why he used the Public Works Store asphalt, which costs four times as much as what is procurable in the market, and which is better than the latter.

3. As there are no funds available, it may perhaps be considered advisable to defer the putting up of the iron railings,

				RS.
Estimate	...	...	...	12,720
Deduct cost of railings	...	...	...	6,340
			Total	6,380

and in this case, the amount of the estimate can be reduced to Rupees 6,380.

This amount will, therefore, have to be formally sanctioned by Government,

but as no money payment is required to be made for the asphalt obtained from

the Public Works Stores for this work, the funds to be provided amount to

only Rupees 2,612.

				RS.
Reduced amount	...	...	...	6,380
Deduct value of Asphalt from Public Works Stores	...	...	...	3,768
			Total	2,612

4. I am unable just now to name any source from which even this reduced amount of Rupees 2,612 can be met.

No. 539. ORDER THEREON, 26th November 1866, No. 3,751.

CIVIL WORKS, No. 109.

* No. 1,604, dated 18th May 1866.

In accordance with the Orders of Government marginally* noted, the Superintending Engineer of the 4th Division submits an estimate for certain

alterations and additions to the Leper Hospital buildings at the Presidency. A sum

Proceedings of the Madras Government, Public Works Department,
26th November 1866.

of Rupees 6,340 has been included for enclosing the Hospital compound with a breast wall and iron railings, but as this work is not pressing and no funds can at present be made available for it, its execution may be deferred. The Governor in Council sanctions the balance of the estimate,† viz., Rupees 6,380, of which Rupees 3,768 are on account of asphalt obtained from the Public Works Stores and for which no cash payment is necessary. The amount to be provided by Government is therefore Rupees 2,612 which is granted from the Reserve under "Civil Buildings."

† Estimate	RS. 12,720
Deduct cost of breast wall and iron railings	6,340
Balance	6,380
