5th March 1866.

No. 18. Read the following letter from the Principal Inspector General, Medical Department, to the Chief Secretary to Government, Fort Saint George; dated 27th February 1866, No. 79.

I have the honor to state that the General Superintendent of Vaccination reports having applied to the Accountant General to know whether the fines inflicted on the staff of his Department could be created into a "Fine Fund" "so as to reward merit, or to help deserving Vaccinators in case of sickness, &c," and that he is informed such a step cannot be taken without the sanction of Government. I beg to solicit the approval of Government to Dr. Shortt's proposal.

No. 19. ORDER THEREON, 5th March 1866, No. 227.

The Governor in Council does not approve of the arrangement proposed in the foregoing letter. As a general rule in all Departments of the Public Service, fines are carried to the credit of Government, and the Governor in Council sees no sufficient grounds for sanctioning a departure from the rule in the case of the Vaccination Department.
