Not to be folded or roughly handled

*Proceedings of the Madras Government, Public Department,
6th March 1866.*

No. 21. Proceedings of Government, dated 6th March 1866, No. 229.

The boxes containing Trout Ova, which are being brought out in charge of Dr. Day for the Neilgherry Hills, being expected to arrive by the next Steamer from Suez, the Governor in Council directs that the Superintendent of Marine will make arrangements for their being landed with as much care and with as little delay as possible. The Deputy Master Attendant should be instructed to go on board the Steamer, immediately on its arrival, and superintend the landing of the boxes in communication with Dr. Day. The Collector of Sea Customs will give orders to prevent any detention of the boxes at the Custom House. Mr. Franklin will have 100 lbs. of ice in readiness at the Master Attendant's Office, and will make such arrangements for the carriage of the boxes to the Railway Terminus as Dr. Day may suggest. Mr. Franklin will also arrange with the Railway authorities, and in communication with Dr. Day, for the transit of the boxes to Coimbatore. It will probably be necessary to suspend them from the roof of the carriage in which they are conveyed.

2. The Collector of Coimbatore will provide means of transit for the boxes from Coimbatore to Ootacamund. A palanquin, with relays of bearers, should be in readiness. Mr. Grant will direct one of his European Assistants to meet Dr. Day at the Poothanoor Station, and to render such aid as he may require. The Governor in Council trusts that the several Officers concerned will do their best to ensure the success of this interesting undertaking.

(True Extract).

Chief Secretary.

To the Superintendent of Marine, with a Packet
for delivery to Dr. Day.

„ Collector of Sea Customs.

„ Collector of Coimbatore.

„ Master Attendant.

To Surgeon F. Day.
