Proceedings of the Madras Government, Public Department,

16th March 1866.

No. 60. Read the following letter from the Chemical Examiner, to the Chief Secretary to Government, Fort Saint George; dated Madras, 15th March 1866, No. 57.

I have the honor to enclose my bill for contingent charges for the month of February 1866, together with a Memorandum from the Examiner of Claims, requiring the sanction of Government for the second item therein.

2. This item, and, also, the one following it, is for expenses incurred in obtaining from England an Apparatus now in very general use in spectrum analysis, and it is the only Chemical Apparatus obtained from England by me during the present year. The amount is 47 Rupees in excess of the 150 Rupees entered in my Budget Estimate, 1865-66, for Chemical Apparatus; but, at the time of making the estimate, I had no means of ascertaining the exact cost of the Apparatus required, and the total sanctioned amount of my Budget Estimate will not be exceeded if this item be passed.

3. I would, therefore, solicit the sanction of Government for these two items.
