*Proceedings of the Madras Government, Public Department,
2nd May 1866.*

No. 23. Proceedings of Government, dated 2nd May 1866, No. 455.

Adverting to the projected erection of suitable buildings for Lunatic Asylums at the Presidency, and at certain stations in the Provinces, the Governor in Council thinks it desirable that steps should be taken for ensuring that a certain proportion of the Medical Officers sent out for the Indian Service should be required, before leaving England, to make themselves acquainted with the best methods of treating insane patients at one or other of the Asylums for the insane under Government inspection.

2. His Excellency in Council proposes to recommend such an arrangement to the Secretary of State, suggesting that the proportion of Medical Officers required to undergo such a course of training should be one to every four Officers selected for the Service.

3. It is also proposed to inquire whether the Home Government would be disposed to authorize the Madras Government to send to England a limited number of East Indian young men to be trained as Warders in one of the Asylums in question; but before addressing the Secretary of State, the Governor in Council would wish to be favored with any remarks or suggestions which the Inspector General in charge of the Office of Principal Inspector General, Medical Department, may wish to make; consulting, if he thinks fit, any Officers of his Department whom he may deem qualified to offer useful opinions on the subject.

(True Extract).

Chief Secretary.

To the Principal Inspector General, Medical Department.
